 Bradenton, Florida 33508

RE: Pole Relocation on 53rd Avenue West
 West of 34th Street West

Dear Mr. Davis:

With reference to your letter to E.T. Carlson, dated December 29, 1983, regarding required relocation of two Florida Power & Light Company transmission guy poles, our recommendation to proceed is based upon the following:

- (1) Owners to south have previously refused to give or sell an easement to FPL.
- (2) Due to the above and the proposed paving, self-supporting guy stubs without down guy wires and anchors must be utilized within the new road right-of-way.
- (3) Existing easements were in place prior to widening of 53rd Avenue West.

Since, typically, FPL would secure a private easement in order to protect its transmission facilities from future relocations, we are requesting that an easement, or permit, be granted to FPL by Manatee County for the two relocated pole locations within the 53rd Avenue West right-of-way. The easement, or permit, should also include agreement that FPL will be reimbursed in the future for any required relocation or alteration of its facilities.

The legal descriptions of the two 4' X 12' easement areas are attached hereto as Exhibit "A".

In addition to the above, we understand that Manatee County agrees to pay the estimated cost of the relocation of \$10,910.00 in advance of construction. Bill is enclosed.

Please let me know if there are questions, or if we may provide any additional information.

Yours very truly,
