SUBJECT: IFAS UPGRADE

The Interactive Fund Accounting System (IFAS) was originally purchased in October, 1995. As you are aware, this equipment, the operating systems and database software are the foundations on which the IFAS system operates. The current system hardware has reached the end of its useful life and requires upgrade.

Requisitions R011056 and R011150, provide for a complete up date of this technology to Sun Servers for the hardware and Oracle 8i Enterprise Edition database software. The equipment and software are in accordance with State Contracts 250-040-00-1 and 252-002-00-1 respectively.

This upgrade will provide solid, proven technology in hardware, operating software and the supporting database for continued reliable support and expansion of the Manatee County financial accounting system (IFAS).

Questions/comments should be directed to Edwin Steed, Data Support Services Manager, at extension 3456.
