AGENDA MEMORANDUM

25

SUBJECT	Monthly Dashboard Report	TYPE AGENDA ITEM	Consent
DATE REQUESTED	November 16, 2010	DATE SUBMITTED/REVISED	November 10, 2010
BRIEFINGS? Who?	No	CONSEQUENCES IF DEFERRED	None
DEPARTMENT/DIVISION	County Administrator's Office	AUTHORIZED BY TITLE	Ed Hunzeker County Administrator
CONTACT PERSON TELEPHONE/EXTENSION	Karen Windon, ext. 3799	PRESENTER/TITLE TELEPHONE/EXTENSION	Ed Hunzeker, Administrator
ADMINISTRATIVE APPROVAL			

ACTION DESIRED INDICATE WHETHER 1) REPORT; 2) DISCUSSION; 3) FORM OF MOTION; OR 4) OTHER ACTION REQUIRED
Accept into the record the attached dashboard report for the month of October, 2010.

ENABLING/REGULATING AUTHORITY Federal/State law(s), administrative ruling(s), Manatee County Comp Plan/Land Development Code, ordinances, resolutions, policy

BACKGROUND/DISCUSSION
<p>On a monthly basis, a number of departments provide current data for the promulgation of the dashboard report. The dashboard report delineates the activity of select departments and functions and provides a quick overview of the activities and/or revenues for twenty-four selected parameters within the county. We continue to adjust these parameters based on input and the value of the data.</p> <p>Dashboard reports are also available on the county web site at www.mymanatee.org on the County Administrator's webpage under "County Progress Reports." This provides accessibility to all our citizens.</p>

The Citizen's Action Center receives phone, e-mail and walk-in requests from citizens who have questions, a need for County services or referral to another agency. In 2009 and 2010 fewer calls regarding economic assistance have been received due to routing of those requests to state agencies, 211 of Manasota, and the Manatee Community Action Agency.

SOURCE: Manatee County Tax Collector's Office

SEPTEMBER, 2010: Occupancy for the month was up slightly (2%) over September 2009 figures, as we still see a solid drive market from the southeast corridor. August 2010: Lower revenues this month are typical for the end of the summer season, but bedtax collections year-to-date reflect a 21% increase over 2009 totals. This is partly due to the one percent increase in collections that began in June 2009. In spite of the oil crisis and slow economy, tourism revenues have been steady in Manatee County.

NOTE: The tax collection process is the same for both sales and lodging (bed) taxes. The results of collections for each month are reported by the Tax Collector the following month.

OCTOBER, 2010: Revenues show a 22% decrease from 2009 during the same month, partly because last year's ticket revenues from Poe at the Crosley were included in October 2009. The actual number of events held at the Crosley were higher in October 2010 than October 2009.

For more information on the Powel Crosley Estate go to: www.crosleyestate.com

NOTE: These figures are based on gross event revenues.

The number of residential permits issued continues to increase which may be an indicator of local economic recovery. The total number of permits issued in 2010 reflects a 49% increase over the same period in 2009. This increase may also be due to the reduction in the road impact fees approved in 2009 by the Board of County Commissioners.

The total of commercial permits for 2010 to-date are showing a 25% increase compared to 2009. These figures represent the number of new commercial and commercial alterations and additions. Commercial permits require fire, electrical, plumbing, mechanical, and building reviews. The complexity of the reviews are in relation to the size of the structure and the occupancy designation.

Dec	1,944,009	1,800,000	

For FY2010-11, the Board's contingency was adopted at \$1,400,000. In October the Board approved using \$75,000 to continue operations of the Longboat Key Trolley.

For FY2009-10, the Board's contingency was adopted at \$1,800,000. In December the Board approved using \$100,000 as a settlement in a litigation case. In February the Board approved \$152,058 as a transfer to the Sheriff's Budget for three additional bailiffs for increased juvenile restraint costs in response to the Court's demands, and \$20,000 was approved to establish a Spay & Neuter program for dogs and cats transferred from Manatee County Animal Services to Animal Welfare Organizations. In March the Board voted to appropriate \$400,000 for the Economic Development Council's Outreach program. The Board used \$75,000 of their Reserve in July to fund the Longboat Key Trolley until the end of the fiscal year, September 30, 2010.

For FY2008-09, the Board's contingency was adopted at \$1,944,009. In January the Board approved using \$10,000 of the Board's contingency for appraisal services to consider acquisition of Walker Crew Preserve. In Sept. 2009, \$38,000 was used for the Parrish School House renovations.

Note that these figures represent impact fees collected for law enforcement, parks, public safety, and roads.

October 2010 impact fees were collected on 106 building permits, down very slightly from 108 permits in September. October's net impact fee revenue was \$590,254, a decrease of \$42,579 (6.73%) from September revenue. October 2010 impact fee revenue is, nonetheless, \$125,293 higher (26.9%) than for the same period in 2009.

With the launch of the new MyManatee 2.0 website the method of collecting and analyzing the traffic to our website has changed. The types of information tracked each month have been narrowed so we can more accurately target the trends, problem areas and popular pages of our website. The previous method of tracking raw hits has been changed to page visits. This gives us a much more focused look at which areas of the website people are visiting. For that reason there is a discontinuity between the data collected before and after the launch of the MyManatee 2.0 site on August 11, 2010. In order to reduce confusion we've removed the old traffic data from this dashboard although historical data is available upon request. To view Manatee County's new website homepage, go to: www.mymanatee.org

The total for library material usage is combined from the following sub-categories: circulation, internet usage, online database usage, catalog log-ins, and in-house usage. Although the hours of operation were reduced at all library locations in 2009, the number of visitors to the libraries remained strong. Service totals for 2010 year-to-date show a slight decrease over usage in 2009.

In October, 2010, 23 new land development applications were submitted to staff for review. This is comparable to the 22 new applications for review in October, 2009. In addition to these new applications, 11 re-submittals were made where an applicant was responding to the issues and concerns raised by staff during previous submittals. This brings the total of submissions for the month to 34. The figures are based on the weekly Current Case List (CCL). The land development applications include Administrative Permits, Special Permits, General Development Plans, Preliminary Site Plans, Final Site Plans, Off Street Parking Plans, Tree Removal Permits, Rezones, and Amendments to Approved Plans etc.

As a result of the County's efforts to "go green," we have reduced energy consumption at the Public Safety Center. This reduction was a result of changes to lighting controls and improved air conditioning automation programming. Year-to-date totals for 2010 reflect a 19% decrease in electrical usage as compared to the same period in 2009.

Call volume historically trends upward going into the fall months. Calls have increased by 7% from last October, yet overall call volume* year to date in 2010 has decreased slightly from the same period in 2009.

* Note that this is the total of 911 calls regardless of source.

The State of Florida requires all Public Safety Answering Points to answer all 911 calls within 10 seconds 95% of the time. Manatee County's percentage for calls answered within 10 seconds during October 2010 was 98%.

October 2010 shows an increase in response time compared to the previous month. Officers responded to 714 calls for service this month, a slight increase from 703 calls last month. The officers continue, as time permits, to be proactive with complaints. If an officer generates a complaint, response time is automatically reduced because the officer is already on scene. The response time to a self generated complaint would be zero, thus reducing the overall average response time. Response times vary per month depending upon call volume, the level of call priority, the officer's availability due to follow up with supplement complaints and the geographic area of the complaint. InMotion GPS tracker software enables more efficient dispatching of officers. This system shows the location of each vehicle in service enabling dispatch to give a complaint to the closest available officer. Customer service is of utmost importance, internally and externally. It is instilled in the officers to complete each call knowing they were able to provide every available option or detail to ensure the complaint is satisfied. Officers respond to complaints within the incorporated and unincorporated areas within the county.

This chart reflects the average response time for 17 ambulances county-wide. The measurement begins when the ambulance is notified of the call and ends when they arrive on-scene. EMS responds to approximately 35,000 calls per year and covers 760 square miles (including both urban and rural areas). Each ambulance is staffed with an EMT and paramedic. Total events for October 2010 equal 2,820 (compared to 2,637 in September 2010.)

Please note: EMS did not previously include Medics 5 and 17 in our response time calculations as they were considered "rural" vehicles. Beginning in June 2009, we began including ALL transport units in the calculation of average system times to provide more accurate data.

The negative number for April 2010 reflects the closure of more accounts than the establishment of new ones. This was due to the temporary deactivation of several accounts. These accounts have subsequently been reactivated and are reflected in the May number.

The number of new utility connections indicates varying numbers from month to month. This is due, in part, to the fact that some builders are still completing homes that were stalled in various stages of construction. The installation of reclaimed water meters continues to account for a substantial portion of the increases. With an increase in uncollectible utility payments, there is a decreased need in resources for new meter installations but an increased need in field collections. Manatee County Utilities reallocates all available resources as needed.

*NOTE: The number of new utility connections for Oct. 2009 was found to be an anomaly. Unfortunately, all efforts failed to identify the generating factors. A true value for this month is unattainable.

Tonnage received at the Lena Road Landfill shows a slight decrease in 2010 compared to 2009 yet much lower than in 2008. This can be attributed to the slowdown in growth and fewer residential move-ins, among other factors such as:

- Recycling efforts by the County, local municipalities and the private sector
- Economic flow control measures to discourage out-of-County waste
- Reduction in construction & demolition debris due to the slow down in the building industry
- Increased private recycling of construction & demolition debris
