Brief description of problem or concern:

180' tower @ 7510 Prospect Road
Future Agenda Item?
'Citizens' Comments'

I expect this will be on a future commission meeting agenda. The item is the placement of a 180 foot tower at 7510 prospect road. Many people were sent letters that it would be built several days after the project started and several weeks after all paper work was approved.

Questions not answered include:

- a. Why were Manatee residents not notified sooner and open hearings not held like the project partner Sarasota County did and believed Manatee County did also?
- b. Why was the site chosen on land next to a creek, that flooded last year, and within 90 feet of a residents property? Within 300 feet of my home?
- c. How loud will the generators, that will run once a week for at least 30 minutes, be in our neighborhood?
- d. Was a study done to choose this site? If so, what other sites were available? Was this just the least expensive site?
- e. Why was a fireman, who we support and one who the tower is built for, say thank you for talking with us, now we know what is being built on that site.
- f. Why is the site operated with no safety signs on most days and the approval papers in a box 70 feet inside the project area? The approach and the operation has on going problems...Please stop... Have a public meeting.....

This is a joint project with Sarasota County, which did it's do diligence and advertised their part of the project and had open public hearings on the placement of their towers. I do not believe you, as commissioners were aware of the process which was handled by some who work for you and us as citizens. And, unfortunately, maybe they were not aware of a better process as most who work for our county are great people....

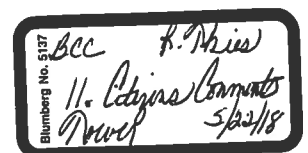

You have known since being contacted several weeks ago that some things were perhaps not done correctly or perhaps the letter of the law was "stretched" to facilitate the process without notifying, by proper procedures, those that live close to the chosen site. The Beautiful Savior church across the street received a late letter and Kinnan Elementary was never notified. Property listed as Kinnan Park for years was used... At least 12 meetings were held over 5 years and 13-18 million dollars have been spent. 5 years, 12 meetings, up to 18 million dollars...No advance notices and no park? I have heard that Sarasota County did not know how we in Manatee approached this....They need to know.....

In less than 4 weeks since receiving the letter we passed out over 100 letters, held a community meeting, have a web site "move the tower.com and are here speaking with you today. 5 years and up to 18 milion dollars and we were not notified until after the building started. The system seems broke. Perhaps not by you as commissioners, however, at least by some of those you work with.

Imagine the 250 tower, next to this buildings parking garage, was placed in your back yard and you never new it was coming. Every morning and every evening it is there. You see the light in your dining room everyday. You have to now walk your dogs past the tower every day. When your family sits in your back yard the sunset now includes the tower. The church you attend is now the church by the tower. Kinnan Elementary is now the school by the tower. The park, when built, is the tower park. When someone says, "I saw the light" it has a different meaning. That is my situation and my friends situation. WE have to try to have you move the tower.

Please have an open community meeting. Please have some tax payer input and save some taxpayer dollars.... You want to leave a good legacy with the communication towers. Please leave a better legacy by approaching this project correctly....Thank-you...

Randy Thies, 3607 75th Drive East, Sarasota Fl 34243 941-650-1059 Touch.yourdreams@yahoo.com

CITIZENS' COMMENTS

Public Comment Regular BOCC meeting

May 21, 2018

Manatee County

Local Government Law Seminar very informing
Why was not the School Board / District invited?

Security of our Citizens including CHILDREN falls within the Counties responsibility
You found 50 million for the hurricane clean up

Electronic comment cards when are they coming

Phosphate mining
We are in the tourist business We are in the AG business
Why would we jeopardize these two industries for a toxic wasteland?

Renewable energy
Prices have never been lower about 2.00 a watt INSTALLED
Calif model every new home MUST have renewable component
Where are the retrofits on our own County Buildings including the Port of Manatee

Affordable housing what has the county done to make it more affordable

Prescriptions from Canada same drug made by the same company
Several states have proposed
Has this board open dialog with our state and elected officials to help lower the cost of
prescription drugs
Health Board what brick and motor progress have we made in over 2 years?

Paving 28th St / Stabil Pavers

CERFITICATE OF SERVICE

I HERBY CERTIFY that a true and correct copy of public comment has been
hand delivered to Manatee Board of County Commissioners this 22 day of May, 2018 at
