

APPROVED in Open Session

Manatee County Board of County
Commissioners

Manatee County Government Administrative Center
Commission Chambers, First Floor
9:00 a.m. - June 12, 2018

June 12, 2018 - Regular Meeting
Agenda Item #58

Subject

Landfill Tipping Fee Waiver - Warner's East Bayou (County and Private Dredging)

Briefings

None

Contact and/or Presenter Information

Sia Mollanazar, P.E., Deputy Director - Engineering Services, x 7487

Robert Halbach, P.E., Project Manager, x 7329

Action Requested

Authorization to waive the landfill tipping fees in the amount of \$9,760 for the County dredging and approximately \$26,840 for the private dredging. This will permit the contractor for the Warner's East Bayou Stormwater Discharge Maintenance Project to haul the sediment to the County Landfill to use as daily cover which will offset purchase and use of daily cover purchased annually by Landfill Operations.

Enabling/Regulating Authority

Solid Waste Comprehensive Plan & Solid Waste Franchise Agreement

Background Discussion

- On April 24, 2012, the Board of County Commissioners (BCC) approved a Stormwater Discharge Maintenance Program. The program objective is to clean the sediment at each of the stormwater outfall pipes discharging into any public navigational canal.
- Quotes have been received and Gator Dredging is the apparent low bidder. It is anticipated that approximately 160 cubic yards of sediment will be removed from four (4) outfalls. This sediment will be dewatered in order to pass the paint filter test before transporting to the County Landfill.
- Since Manatee County no longer does navigational dredging, staff has encouraged private residents to take advantage of additional dredging while our contractor is in the area removing sediment from our outfalls. The Landfill Tipping Fee Waiver for this private work is an additional incentive for the residents to take advantage of additional dredging.
- The sediment from the private dredging will be similar to the material that is removed from the outfalls. This sediment will also have to pass the paint filter test before transporting to the County Landfill.
- See email from the Landfill dated 5/30/2018.
