Thanks Cathy,

I will also go out tomorrow or Friday to take a look. It sounds like the best thing to do is

set-up a meeting onsite with FDOT to walk us through the project and address everyone's concerns. There may be agreeable solutions that would reduce the impact to the museum property.

I was unable to view the photos the first time but now that I have, this is completely unacceptable and will destroy the museum. I cannot believe how far up the front sidewalk that the one stake comes. There will be a lot of pedestrian traffic on the museum property especially at events. This scheme is not what was originally represented to us and poses a lot of risk to the museum.

Subject: FDOT Staking at the Florida Maritime Museum

Good Afternoon Everyone,

The surveyors for FDOT came out today to stake the property.

We have a couple of concerns. See pictures attached and comments related to each.

- ? Stake 1 is very close to the brick pathway.
- ? Stake 2, the construction area is less than a foot away from the irrigation system and a lot of native vegetation which also puts it EXTREMELY close to the walkway around the museum.
- ? Stake 3, shows that the area between the road and end of construction zone completely remove a **Gumbo Limbo**.
- ? Stake 4, this picture shows the proximity of the construction and road to the boat house. It still seems too close for comfort. The red flagged stakes are the construction edge and the orange ones are the road edge.
- ? Stake 5 shows the curve.

Thank you for your time.

Best,

Chris,

Please see below regarding updates. We have been working intensely to get the Plans to Phase IV status and now have time to focus on these efforts. According to below, you should see crews onsite Monday (11/12) or Tuesday (11/13). I am copying Joy in on this correspondence, but please forward as necessary for any additional staff which needs notification.

Mose,

We will have a crew out there Monday or Tuesday of next week. For the legal sketch/description, we will jump on this as soon as we get the executed agreement this week.

Thanks!

Sincerely,

Chris,

I spoke w/ Joy yesterday and got clarification regarding the additional legal sketch/description needed to depict the edge of proposed pavement and reduced area of impact to Museum parcel. We are having the consultant submit staff hours for this and the staking of the lines in the field. As soon as this SA is executed we should have both shortly thereafter.... Stay tuned.

Not know yet Chris (consultant doesn't have hours left, so trying to use FDOT survey group). I am calling a meeting this week to discuss several tasks on this project (this being one of them). I will let you know when I have a date set.

Chris,

I will be out of town for the holiday weekend, but will call into meeting. I have it on my calendar for 8/31/18 at 9:00

am, but do not see a conf. call number. Would it be possible to provide a number? If easier, you can call me at the cell number listed below in my signature.

EXTERNAL SENDER: Use caution with links and attachments.

Hi Mose,

Good afternoon. It feels like there will be some questions regarding the Legal Description and Sketch and the plans for the 119th and Cortez Realignment, that you would be better suited to answer. I think it would be beneficial if you could attend the meeting or be available by phone. Please let me know if either of these options would be possible.

Thanks,

Chris Munyon
