Background Discussion

Manatee County Government is proud to introduce the 2026 Summer Internship Program interns. For many years, the County has sponsored internship opportunities that provide students with meaningful, real-world experience in public service. This year's program is a 10-week, project-based internship in which interns will conduct research, develop findings and recommendations, and contribute to work that supports County operations and the community. Several of these projects are expected to be presented to the Board at the July 28, 2026 Regular Board Meeting.
