

August 6, 2026 - Land Use Meeting

Subject

Ordinance No. 26-15 – Parrish Lakes DRI #28 – PLN2408-0048 - Quasi-Judicial - CJ Mills, Planner II - District 1-THIS PROJECT IS TO BE CONTINUED TO NO DATE SET AND TO BE ADVERTISED

Amending and restating a Development Order pursuant to Chapter 380, Florida Statutes, for the Parrish Lakes Development of Regional Impact, (Ordinance 17-36) (DRI #28); to approve the following changes to Map H and the Development Order to: 1) increase the number of overall residential entitlements from 3,401 dwelling units to 3,778 dwelling units; 2) revise the dwelling types to decrease the number of detached units from 2,421 to 2,385, and increase the number of attached units from 580 to 993; 3) decrease the total commercial/retail square footage from 260,000 square feet to 211,750 square feet (188,219 square feet shopping center and 23,531 square feet lagoon); 4) include a school as a permitted use; 5) remove Affordable Housing Conditions (fka Stipulations) M.1 through M.12; 6) remove "EE" Road from Map H and replace with local road, and 7) align Phase I and II build out dates to 2036; on an application for an amended development approval (ADA), filed by FLM, Inc., Hawk Parrish Lakes, LLC., CNL Parrish Lakes East, LLC., and CNL Parrish Lakes West, LLC; providing for development rights, conditions, and obligations. The Parrish Lakes DRI consist of approximately 1,155 acres, is zoned Planned Development Mixed Use (PDMU), and is generally located on the south side of Moccasin Wallow Road, approximately 0.74 miles east of I-75, and north side of Erie Road, at 7205 and 8505 Moccasin Wallow Road, and 7400, 7205, 7707, and 7800 Sawgrass Road, extending from Moccasin Wallow Road to Erie Road, Palmetto and Parrish (Manatee County).

Contact and/or Presenter Information

Presenter: CJ Mills, Planner II, 941-748-4501 x 6926, CJ.Mills@mymanatee.org

Contact: Abigail Bonds, Planning and Zoning Tech III, 941-748-4501 x3927, Abigail.bonds@mymanatee.org

Action Requested

Motion to Continue:

I move to continue the public hearing to no date set and to be readvertised.

Enabling/Regulating Authority

Manatee County Comprehensive Plan
Manatee County Land Development Code

Applicable Advisory Board

PLANNING COMMISSION ACTION:

- On May 14, 2026, by a vote of 4-2, the Planning Commission voted to recommend denial with Member Bower and Sciuillo voting nay and Chairman DeLesline absent. Planning Commission recommended denial due to Potable water shortage and Traffic issues.

PUBLIC COMMENT AND CORRESPONDENCE:

May 14, 2026 – Planning Commission

- Ken Piper expressed concern regarding the difference between quasi-judicial and legislative, amendments to the project, due process, public notice, and requested denial of the requests.
- Mark VanDeRee questioned if citizens can call in regarding the Comprehensive Plan amendment, road conditions, no representation for District 1,
- Elizabeth Arnold questioned how many dwelling units have been approved and not built, and expressed concern with traffic, flooding, school capacity, and no representation for District 1.
- Leonard Arnold requested denial of the request due to additional residential units and traffic.

Revised Environmental Narrative and additional public comment was entered into the record.

Background Discussion

• **Request**

This application proposes a revision to Parrish Lakes Development of Regional Impact, (Ordinance 17-36) (DRI #28); to approve the following changes to Map H and the Development Order to: 1) increase the number of overall residential entitlements from 3,401 dwelling units to 3,778 dwelling units; 2) revise the dwelling types to decrease the number of detached units from 2,421 to 2,385, and increase the number of attached units from 580 to 993; 3) decrease the total commercial/retail square footage from 260,000 square feet to 211,750 square feet(188,219 square feet shopping center and 23,531 square feet lagoon); 4) include a school as a permitted use; 5) remove Affordable Housing Conditions (fka Stipulations) M.1 through M.12; 6) remove “EE” Road from Map H and Replace with local Road, and 7) align Phase I and II buildout dates to 2036

- Specific Approval
None

- Conditions of Approval
There are multiple stipulations from several reviewing divisions. See Ordinance No. 26-15.

• **General Information**

- Location
The Parrish Lakes DRI consist of approximately 1,155 acres, is zoned Planned Development Mixed Use (PDMU), and is generally located on the south side of Moccasin Wallow Road, approximately 0.74 miles east of I-75, and north side of Erie Road, at 7205, and 8505 Moccasin Wallow Road, and 7400, 7205, 7707, and 7800 Sawgrass Road, extending from Moccasin Wallow Road to Erie Road, Palmetto and Parrish (Manatee County).
- Density/Intensity of Project
 - Density*: 3.65 DU/GA (3,778 dwellings/1,033 acres)
(*) Residential density is calculated over residential project areas only.
 - Intensity*: 0.12 FAR (246,750 square feet/2,069,100 square feet
(*) Non-residential intensity calculated over non-residential project area only.

- **Affordable Housing**

n/a

- **Neighborhood Workshop**

The applicant sent notices for one virtual meeting, scheduled for 4/20/2026. The notice, summary and issues, suggestion and concerns were provided (Attachment 5). The application was received before the Development Services Director issued a memorandum in July 2025 mandating Neighborhood Workshops.

- **Future Land Use Category**

Mixed-Use (MU): Approximately 1,132 acres

Public/Semi-Public (1) (P/SP(1)): Approximately 23 acres (Florida Power and Light Easement)

- **Land Use History**

- 1990: The adopted Zoning Map shows the property within the General Agriculture (A) and Suburban Agriculture (A-1) Zoning Districts.
- 2011: With the approval of Ordinance 10-011 the FLUC was revised from Urban Fringe-3 (UF-3) to MU, while retaining the P/SP (1) FLUC.
- 2017: Development Order 17-36 (DRI #28) and Ordinance PDMU-16-16(Z)(G) were approved to change the zoning to PDMU and approve a General Development Plan and Development of Regional Impact for 3,300 residential dwelling units, 400,000 square feet of commercial entitlements, and 50,000 square feet of office space.
- 2022: A revision to the GDP to minimum residential lot sizes, modify buffer widths, update phasing, adjust access points, amend conditions, and make certain adjustments for consistency.
- 2024: A revision to the GDP to decrease multi-family entitlements from 1,100 to 400, increase single-family units from 2,200 to 3,001, reduce commercial entitlements to 260,000 square feet, reduce office space to 35,000 square feet, reduce landscape

buffers, remove North Central Overlay (NCO), adjust access points, and modify conditions for consistency.

- **Surrounding Areas**

- North: A mix of Planned Development Residential, Planned Development Mixed Use, and Agriculture lie to the north of the site, as well as Robinson Gateway DRI.
- South: Agricultural zoning along with a Manatee County water treatment facility (PDPI-06-45) are located to the south
- East: Planned Development Residential comprises most of the zoning to the east of the site with two parcels of Agricultural zoning
- West: RSF-4.5, RSF-1, the above referenced PD-PI and one parcel of agricultural zoning are located to the west

- **Conclusion**

The proposed DRI amendment may be considered consistent with the Comprehensive Plan and in compliance with the applicable provisions of the Land Development Code.

PLANNING COMMISSION ACTION:

- On May 14, 2026, by a vote of 4-2, the Planning Commission voted to recommend denial with Member Bower and Sciullo voting nay and Chairman DeLesline absent. Planning Commission recommended denial due to Potable water shortage and Traffic issues.

PUBLIC COMMENT AND CORRESPONDENCE:

May 14, 2026 – Planning Commission

- Ken Piper expressed concern regarding the difference between quasi-judicial and legislative, amendments to the project, due process, public notice, and requested denial of the requests.
- Mark VanDeRee questioned if citizens can call in regarding the Comprehensive Plan amendment, road conditions, no representation for District 1.
- Elizabeth Arnold questioned how many dwelling units have been approved and not built, and expressed concern with traffic, flooding, school capacity, and no representation for District 1.
- Leonard Arnold requested denial of the request due to additional residential units and traffic.

Revised Environmental Narrative and additional public comment was entered into the record.

BOARD OF COUNTY COMMISSIONERS LAND USE MEETING ACTION:

- On June 4, 2026, by a vote of 6-0, the Board of County Commissioners voted to continue the
- public hearing to August 6, 2026.

PUBLIC COMMENT AND CORRESPONDENCE:

June 4, 2026–Board of County Commissioners Land Use

- There were no public comments.

- Updated title from Quasi-Judicial to Legislative, Additional public comment, Updated Staff report and new attachment number 10. Utility Impact analysis were entered into the record.

Board of County Commissioners: 8/6/2026

ORDINANCE NO. 26-15 – PARRISH LAKES DRI #28 – PLN2408-0048

An Ordinance of the Board of County Commissioners of Manatee County, Florida, amending and restating a Development Order pursuant to Chapter 380, Florida Statutes, for the Parrish Lakes Development of Regional Impact, (Ordinance 17-36) (DRI #28); to approve the following changes to Map H and the Development Order to: 1) increase the number of overall residential entitlements from 3,401 dwelling units to 3,778 dwelling units; 2) revise the dwelling types to decrease the number of detached units from 2,421 to 2,385, and increase the number of attached units from 580 to 993; 3) decrease the total commercial/retail square footage from 260,000 square feet to 211,750 square feet (188,219 square feet shopping center and 23,531 square feet lagoon); 4) include a school as a permitted use; 5) remove Affordable Housing Conditions (fka Stipulations) M.1 through M.12; 6) remove “EE” Road from Map H and Replace with local Road, and 7) align Phase I and II buildout dates to 2036; on an application for an amended development approval (ADA), filed by FLM, inc., hawk Parrish Lakes, LLC., CNL Parrish Lakes East, LLC., and CNL Parrish Lakes West, LLC.; providing for development rights, conditions, and obligations; providing for severability and providing an effective date.

The Parrish Lakes DRI consist of approximately 1,155 acres, is zoned Planned Development Mixed Use (PDMU), and is generally located on the south side of Moccasin Wallow Road, approximately 0.74 miles east of I-75, and north side of Erie Road, at 7205 and 8505 Moccasin Wallow Road, and 7400, 7205, 7707, and 7800 Sawgrass Road, extending from Moccasin Wallow Road to Erie Road, Palmetto and Parrish (Manatee County).

Planning Commission: 5/14/2026

Board of County Commissioners: 6/4/2026 & 8/6/2026

There is no action required at this public hearing. This is a presentation only.

PLANNING COMMISSION ACTION:

On May 14, 2026, by a vote of 4-2, the Planning Commission voted to recommend denial with Member Bower and Sciullo voting nay and Chairman DeLesline absent. Planning Commission recommended denial due to Potable water shortage and Traffic issues.

PUBLIC COMMENT AND CORRESPONDENCE:

May 14, 2026 – Planning Commission

- Ken Piper expressed concern regarding the difference between quasi-judicial and legislative, amendments to the project, due process, public notice, and requested denial of the requests.
- Mark VanDeRee questioned if citizens can call in regarding the Comprehensive Plan amendment, road conditions, no representation for District 1,
- Elizabeth Arnold questioned how many dwelling units have been approved and not built, and expressed concern with traffic, flooding, school capacity, and no representation for District 1.
- Leonard Arnold requested denial of the request due to additional residential units and traffic.

Revised Environmental Narrative and additional public comment was entered into the record.

BOARD OF COUNTY COMMISSIONERS LAND USE MEETING ACTION:

- On June 4, 2026, by a vote of 6-0, the Board of County Commissioners voted to continue the public hearing to August 6, 2026.

PUBLIC COMMENT AND CORRESPONDENCE:

June 4, 2026–Board of County Commissioners Land Use

- There were no public comments.
- Updated title from Quasi-Judicial to Legislative, Additional public comment, Updated Staff report and new attachment number 10. Utility Impact analysis were entered into the record.

CASE SUMMARY

Case Number: ORD 26-15 (fka 17-36) (PLN2408-0048)

Case Name: Parrish Lakes DRI #28 Amendment

Applicant(s): Marshall Robinson

Agent: Marshall Robinson

Location: The south side of Moccasin Wallow Road, approximately 0.74 miles east of I-75, and north side of Erie Road, at 7205 and 8505 Moccasin Wallow Road, and 7400, 7205, 7707, and 7800 Sawgrass Road, extending from Moccasin Wallow Road to Erie Road, Palmetto and Parrish (Manatee County).

Case Manager: CJ Mills, Planner II

REQUEST

The request is to modify Map H and the Development Order with the following changes: 1) increase the number of overall residential entitlements from 3,401 dwelling units to 3,778 dwelling units; 2) revise the dwelling types to decrease the number of detached units from 2,421 to 2,385, and increase the number of attached units from 580 to 993; 3) decrease the total commercial/retail square footage from 260,000 square feet to 211,750 square feet (188,219 square feet shopping center and 23,531 square feet lagoon); 4) include a school as a permitted use; 5) remove Affordable Housing Conditions (fka Stipulations) M.1 through M.12; 6) remove "EE" Road from Map H and Replace with local Road, and 7) align Phase I and II buildout dates to 2036; revise the revisions to terminology and format, and clarification changes.

SURROUNDING LAND USES AND ZONING

- A mix of planned development residential, planned development mixed use, and agriculture zoning lie to the north of the site, as well as the Robinson Gateway DRI.
- Agricultural zoning along with a Manatee County water treatment facility are positions to the south of the site (PDPI-06-45).
- Planned development residential comprises most of the zoning to the east of the site with two parcels of agricultural zoning.
- Residential, public/semi-public, and agricultural zoning are positions to the west of the project site.

HISTORY

The original Zoning Ordinance PDMU-16-16(Z)(G) and Development Order 17-36 (DRI #28) were approved on October 5, 2017. Ordinance 17-36 approved an Application for Development Approval (ADA), currently known as a Local Development Agreement (LDA), which also approved a Land Use Equivalency Matrix (LUEM) to allow conversion between various approved uses within specific ranges. In October 2011, with the approval of Ordinance No. 10-11, the Future Land Use Category (FLUC) was changed from Urban Fringe – 3 (UF-3) to Mixed Use (MU) while retaining approximately 23 acres of Public/Semi-Public 1 (P/SP-1) for a Florida Power and Light (FPL) easement.

The following amendments to the Parrish Lakes DRI Development Order were approved by the Board of County Commissioners:

- February 9, 2010, FLM, Inc. initially submitted a Development of Regional Impact (DRI) Application for Development Approval (ADA) for 3,300 residential units; 400,000 square feet of retail; 50,000 square feet of office; and, approval of a Land Use Equivalency Matrix (LUEM) to allow conversion among various approved uses within specific ranges as legally described in Section 7, referred to as Parrish Lakes DRI, or the Project.
- October 12, 2010 the Board of County Commissioners approved an amendment (Ordinance 10-11) to the Future Land Use Map of the Future Land Use Element of the Manatee County Comprehensive Plan for the project from the Urban Fringe-3 (UF-3) and Public/Semi-Public-1 (P/SP-1) FLUCs to the Mixed Use (MU) FLUC for approximately 1,132 acres and retaining the P/SP-1 FLUC for a 23-acre FPL easement.
- September 7, 2017 the Board of County Commissioners approved the Application for Development Approval (ADA), Parrish Lakes DRI #28, Ordinance 17-36.
- October 5, 2017 the Board of County Commissioners approved Zoning Ordinance PDMU16-16(Z)(G) permitting a General Development Plan (GDP) for up to 3,300 residential dwelling units, 400,000 square feet of commercial entitlements, and 50,000 square feet of office space.
- June 16, 2022 the Board of County Commissioners approved an amendment to PDMU-16-16(Z)(G) with PDMU-16-16(G)(R) to: 1) revise the design standards to correct errors to the minimum single-family attached lot size for traditional design standards from 2,000 square feet to 2,200 square feet and to modify the minimum single-family attached lot size for conventional design standards from 2,500 square feet to 2,000 square feet; 2) modify required buffers width along Moccasin Wallow Road to be 30 feet when adjacent to residential and 25 feet when adjacent to commercial properties or projects; 3) update phasing and build-out dates to reflect previously granted legislative extensions; 4) amend conditions (fka stipulations) to reflect the approval of a LDA; 5) update the name of the developer; and 6) adjust access points to match current planned access points.
- June 6, 2024 the Board of County Commissioners approved an amendment to PDMU-16-16(G)(R) with PDMU-16-16(G)(R2) to: 1) increase the total number of residential units from 3,300 units to 3,401 units; 2) modify the composition of the residential product types, decreasing the number of multifamily units from 1,100 to 400, and increasing the number of single-family units from 2,200 units to 3,001 units; 3) reduce the commercial entitlements from 400,000 square feet to 260,000 square feet; 4) reduce the office entitlements from 50,000 square feet to 35,000 square feet; 5) remove the North Central Overlay standards; 6) increase the maximum height of commercial buildings from 35 feet (two stories) to 45 feet (three stories); 7) reduce the landscape buffer width from 50 feet to 30 feet adjacent to the thoroughfares; and (8) adjust access points to match current planned access points.

FLUC

MAP H

STAFF DISCUSSION

LDC Section 312.6 - Neighborhood Workshops

The applicant held a neighborhood workshop on April 20, 2026. The application was submitted before the July 10, 2025 directive from the Department Director that mandated applicants to hold neighborhood workshops prior to application approval. Refer to accompanying GDP application for Land Development Code (LDC) Section 312.6 analysis.

Summary

The proposed amendment to the Development Order is accompanied by a revision to Zoning Ordinance PDMU-16-16(G)(R2) (PLN2408-0049) and PA-24-11 / Ordinance No. 24-86 (PLN2408-0047).

The DRI amendment proposes the following:

1. Increase number of residential entitlements from 3,401 to 3,778
 - a. Revise the dwelling types to decrease the number of detached units from 2,421 to 2,385, and increase the number of attached units from 580 to 993
 - b. Decrease the total commercial entitlements from 260,000 square feet to 211,750 square feet
 - c. Align Phase I and II buildout dates to 2036

TABLE 1: DEVELOPMENT TOTALS

	Residential (units)		Retail (sq. ft.)	Office (sq. ft.)
	Single Family	Multifamily		
Phase 1 (2026)	900	600	250,000	0
Phase 2 (2036)	1,300	500	150,000	50,000
Total	2,200	1,100	400,000	50,000

<u>PHASING</u>	<u>PHASE I : 2036</u> <u>PHASE II: 2036</u>	<u>TOTAL</u>
<u>Residential (units)</u>		<u>3,778</u>
<u>S.F. Detached</u>	<u>2,385</u>	
<u>S.F. Attached (Condo/Townhome)</u>	<u>993</u>	
<u>Multi-family (units)</u>	<u>400</u>	
<u>Commercial/retail (sf.)</u>	<u>188,219 sf Shopping Center</u> <u>23,531 Lagoon</u>	<u>211,750</u>
<u>Office (sf.)</u>	<u>35,000</u>	<u>35,000</u>

Analysis: Per the Land Use Equivalency Matrix (LUEM), the number of trips through this exchange of uses will not have a net increase on the previously approved trips for the project.

2. Remove Affordable Housing Conditions (fka Stipulations) M.1 through M.12

Analysis: The previous Development Order provided specific Affordable Housing Development Conditions as a voluntary housing mitigation program in lieu of analysis required by Florida Administrative Code (F.A.C.) 73-40-048. This housing mitigation condition provided for a commitment of at least 10% (330 units) of the approved dwellings as “affordable” or “workforce/essential worker” housing or be required to pay no more than \$660,000 in total to the Manatee County Affordable Housing Program. The approval of HB 1151, Chapter 2018-158, repealed the affordable housing mitigation program requirement by placing responsibility on local governments for review. HB 1151 also repealed the requirement for DRIs to be reviewed by Regional Planning Councils (RPC) or Department of Economic Opportunities (DEO) and placed the onus on local government to review in accordance with their Comprehensive Plan and LDC. The applicant indicates that some of the affordable housing incentives are not available in this area; the new non-residential intensity does not provide a basis for affordable housing but is willing to work with the end user for possible affordable housing opportunities.

3. Allow Charter school as a permitted use (See Figure 1 below)

Analysis: The proposed amendment includes the addition of a K-12 public charter school as a permitted use in Parcel C-7. This parcel is approximately 35 acres and was previously approved to allow a mixture of 282 dwelling units; it allowed for a gross density of 8 dwelling units per acre (DU/GA).

4. Redesignate “EE Road” as a local road on the GDP (See Figure 2 below)

Analysis: “EE Road” is roughly located in the middle of the project site and runs east to west between Carter Road and Sawgrass Road. It is currently classified as a Minor Collector road on Map 5-B, Existing Roadways Classification Map, of the Comprehensive Plan. The applicant is proposing to redesignate it as a local road with a concurrent application, Ordinance 26-16 / PA-24-11. It is worth noting that staff is currently proposing an update to Table 5-1 and the corresponding map series, Ordinance 26-01/PA-25-13 (PLN2510-0080), which includes the removal of “EE Road” as a County Thoroughfare.

5. Revise the minimum and maximum development by land use type in the Land Use Equivalency Matrix (LUEM)

TABLE 2: LAND USE EQUIVALENCY MATRIX

CHANGE FROM:	CHANGE TO:								
	210: Single-Family Detached Housing	220: Apartment	230: Condominium/Townhome	254: Assisted Living	710: General Office	720: Medical Office	255: Continuing Care Retirement Community	620: Nursing Home	820: Shopping Center
	210: Single-Family Detached Housing	1.613 d.u./d.u.	1.923 d.u./d.u.	4.545 bed/d.u.	0.671 ksf/d.u.	0.28 ksf/d.u.	6.25 unit/d.u.	4.545 bed/d.u.	0.27 ksf/d.u.
	220: Apartment	0.62 d.u./d.u.	1.192 d.u./d.u.	2.818 bed/d.u.	0.416 ksf/d.u.	0.174 ksf/d.u.	3.875 unit/d.u.	2.818 bed/d.u.	0.167 ksf/d.u.
	230: Condominium/Townhome	0.52 d.u./d.u.	0.839 d.u./d.u.	2.364 bed/d.u.	0.349 ksf/d.u.	0.146 ksf/d.u.	3.25 unit/d.u.	2.364 bed/d.u.	0.14 ksf/d.u.
	710: General Office	1.49 d.u./ksf	2.403 d.u./ksf	2.865 d.u./ksf	6.773 bed/ksf	0.417 ksf/ksf	9.313 unit/ksf	6.773 bed/ksf	0.402 ksf/ksf
	820: Shopping Center	3.71 d.u./ksf	5.984 d.u./ksf	7.135 d.u./ksf	16.864 bed/ksf	2.49 ksf/ksf	1.039 ksf/ksf	23.188 unit/ksf	16.864 bed/ksf

1. Land use changes are based on the peak-hour of adjacent street traffic, one hour between 4 and 6 PM.

2. Equivalency factors are based on the ITE Trip Generation Manual 9th Edition average rate for each land use.

Minimum and Maximum Development by Land Use Type		
Land Use	Minimum	Maximum
Residential (d.u.)	2,145	4,455
Office (s.f.)	32,500	67,500
Commercial (s.f.)	260,000 211,750	540,000
Assisted Living (beds)	-	250
Continuing Care Retirement Community (units)	-	500
Nursing Home (beds)	-	250
Medical Office (s.f.)	-	67,500

Analysis: The proposed commercial development total is below the minimum approved with Ordinance 17-36 and requires the table to be revised. The revised minimum commercial entitlements are consistent with the new maximum commercial entitlements proposed with the accompanying GDP amendment.

Figure 1: Parcel C-7

Figure 2: Previously Approved “EE Road”

TRANSPORTATION

Major Transportation Facilities:

The site is located north of Erie Road and south of Moccasin Wallow Road, and approximately 0.75 miles east of I-75. The project will impact the following existing and proposed roadways, which are adjacent to or nearby the project site:

Moccasin Wallow Road is an existing two-lane road with a 35-mph posted speed. It is designated as a six-lane arterial roadway with a planned right of way width of 150-feet in the Comprehensive Plan's Future Traffic Circulation Plan.

Erie Road is an existing two-lane road with a 40-mph posted speed. It is designated as a four-lane collector roadway with a planned right of way width of 120-feet in the Comprehensive Plan's Future Traffic Circulation Plan.

Carter Road is a proposed (and partially existing) four-lane road with a 25-mph posted speed. It is designated as a four-lane collector roadway with a planned right of way width of 120-feet in the Comprehensive Plan's Future Traffic Circulation Plan.

Sawgrass Road is a proposed (and partially constructed) four-lane road with a 45-mph posted speed. It is designated as a four-lane collector roadway with a planned right of way width of 120-feet in the Comprehensive Plan's Future Traffic Circulation Plan.

Transportation Link Capacity Analysis:

The Applicant is seeking a modification to the Development Regional Impact (DRI) and submitted a Land Use Exchange Matrix (LUEM) to show the impacts potentially arising from the change in DRI.

The entitlements under the current DRI consist of:

- ✓ 2,200 single family dwelling units,
- ✓ 1,100 multifamily dwelling units,
- ✓ 440,000 square feet of retail, and
- ✓ 50,000 square feet of office

The entitlements under the proposed DRI will consist of:

- ✓ 2,385 single family dwelling units,
- ✓ 993 townhomes,
- ✓ 400 multifamily dwelling units,
- ✓ 211,750 square feet of retail, and
- ✓ 35,000 square feet of office

The conclusion of the LUEM analysis indicates that the proposed change will not result in an increase in new external traffic impacts, and therefore, no changes to traffic mitigation are required.

NEAREST THOROUGHFARE	LINK(S)	ADOPTED LOS	EXISTING LOS	FUTURE LOS WITHOUT PROJECT	FUTURE LOS WITH PROJECT
Moccasin Wallow Road	2750	D	D	F	F
Moccasin Wallow Road	2751	D	D	F	F
Sawgrass Road	4190	C	D	C	C
Sawgrass Road	4192	C	D	C	C
Erie Road	2480	C	D	D	D

Eria Road	2485	C	D	E	E
Carter Road	2275	C	D	F	F
Carter Road	Not Assigned	N/A	D	D	D

NOTE: Level of Service was not submitted as part of the application traffic study. The information shows the first impacted thoroughfares standard, existing and projected level of services. The Land Use Equivalent Exchange Matrix exchange uses keeping the same number of trips distributed in the first impacted thoroughfares unchanged from the previously existing and vested trips.

Access: As the County has repealed transportation concurrency and implemented an Alternative Transportation System (ATS), at the time of future site plan submittal and accompanying Trip Reservation Report (TRR) and Operational Analysis (OA) review, all proposed access points will be evaluated to determine if any site and safety related improvements will be required for the site.

CERTIFICATE OF LEVEL OF SERVICE (CLOS) COMPLIANCE

CLOS APPLIED FOR: Yes, CLOS-17-058 for Parrish Lakes DRI # 28 expires on 12/16/2039. Changes made to the GDP and DRI will be reflected in a revised CLOS.

TRAFFIC STUDY REQUIRED: Yes. The applicant prepared a trip generation comparison/LUEM.

OTHER CONCURRENCY COMPONENTS

Solid waste landfill capacity and preliminary drainage intent have been reviewed with the preliminary site plan. Potable water, wastewater, and school facilities will be reviewed at the time of Final Site Plan

POSITIVE ASPECTS
- The changes proposed with this amendment maintains compatibility with surrounding residential uses. - The amendment proposes a school within the project. - The modification to the DRI will not result in an increase in new external traffic impacts. (Transportation) - The removal of “EE” Road as a thoroughfare will have minimal impact on the internal traffic circulation of Parrish Lakes since it will be constructed and operated as a local road. (Transportation)
NEGATIVE ASPECTS
The potential impacts from the trips generated by the charter school are not included in the LUEM and therefore have not been analyzed with this application.
MITIGATING MEASURES
A new traffic study for the school use shall be required at time of the school site plan submittal.

ORDINANCE ~~17-36~~ 26-15
PARRISH LAKES DRI #28 ~~– PLN2408-0048 - (aka~~ TBRPC DRI #269)

AN ORDINANCE OF THE BOARD OF COUNTY COMMISSIONERS OF MANATEE COUNTY, FLORIDA, ~~REGARDING~~ RENDERING ~~AMENDING~~ AMENDING ~~AND~~ AND ~~RESTATING~~ A ~~LAND DEVELOPMENT,~~ RENDERING AN AMENDED AND ~~RESTATED~~ DEVELOPMENT ORDER PURSUANT TO CHAPTER 380.06, FLORIDA STATUTES, FOR THE PARRISH LAKES DEVELOPMENT OF REGIONAL IMPACT (ORDINANCE 17-36) (DRI #28); TO APPROVE ~~ING~~ THE FOLLOWING CHANGES TO MAP H AND THE DEVELOPMENT ORDER TO: 1) INCREASE THE NUMBER OF OVERALL ~~NUMBER OF~~ RESIDENTIAL ENTITLEMENTS ~~UNITS~~ FROM 3,401 DWELLING UNITS ~~300~~ TO 3,778 DWELLING UNITS; 2) REVISE THE DWELLING TYPES TO DECREASE THE NUMBER OF DETACHED UNITS FROM 2,421 TO 2,385, AND INCREASE THE NUMBER OF ATTACHED UNITS FROM 580 TO 993 ~~DECREASE OFFICE SQUARE FOOTAGE FROM 50,000 SQUARE FEET TO 35,000 SQUARE FEET;~~ 3) DECREASE THE TOTAL COMMERCIAL/RETAIL SQUARE FOOTAGE FROM 260,000 ~~400,000~~ SQUARE FEET TO 211,750 SQUARE FEET (188,219 SQUARE FEET ~~T~~ SHOPPING CENTER AND 23,531 SQUARE FEET LAGOON,); 4) ACKNOWLEDGE INCLUDE A ~~PUBLIC CHARTER~~ SCHOOL AS A PERMITTED USE; 5) REMOVE AFFORDABLE HOUSING CONDITIONS (FKA STIPULATIONS) M.1 THROUGH M.12; (6) REMOVE “EE” ROAD” FROM MAP H AND REPLACE WITH LOCAL ROAD ~~6) REMOVE AFFORDABLE HOUSING FROM DEVELOPMENT TOTALS AND DEVELOPMENT CONDITIONS;~~ AND (7) ALIGN PHASE I AND II BUILDOUT DATES TO 2036; –ON AN APPLICATION FOR AN AMENDED DEVELOPMENT APPROVAL* (ADA*), FILED BY FLM, INC., HAWK PARRISH LAKES, LLC., CNL PARRISH LAKES EAST, LLC., AND CNL PARRISH LAKES WEST, LLC; ALSO KNOWN AS TAMPA BAY REGIONAL PLANNING COUNCIL (TBRPC) DRI #269; PROVIDING FOR DEVELOPMENT RIGHTS, CONDITIONS, AND OBLIGATIONS; PROVIDING FOR SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE.

THE PARRISH LAKES DRI CONSIST OF APPROXIMATELY 1,155 ACRES, IS ZONED PLANNED DEVELOPMENT MIXED USE (PDMU), AND IS GENERALLY LOCATED ON THE SOUTH SIDE OF MOCCASIN WALLOW ROAD, APPROXIMATELY 0.74 MILES EAST OF I-75, AND NORTH SIDE OF ERIE ROAD, AT 7205 AND 8505 MOCCASIN WALLOW ROAD, AND 7400, 7205, 7707, AND

**7800 SAWGRASS ROAD, EXTENDING FROM MOCCASIN
WALLOW ROAD TO ERIE ROAD, PALMETTO AND PARRISH
(MANATEE COUNTY).**

WHEREAS, on February 9, 2010, FLM, Inc. submitted a Development of Regional Impact (DRI) Application for Development Approval (ADA*) for 3,300 residential units; 400,000 square feet of retail; 50,000 square feet of office; with approval of a Land Use Equivalency Matrix (LUEM) to allow conversion between various approved uses within specific ranges; as legally described in Section 7, referred to as Parrish Lakes DRI, or the Project*; and

~~**WHEREAS**, the Project* is proposed in two phases: Phase 1 with a buildout date of 2026; Phase 2 with a buildout date of 2036;~~

~~**WHEREAS**, Specific approval is requested for both Phase 1 and Phase 2 and;~~

WHEREAS, on October 12, 2010 the Board of County Commissioners approved an amendment to the Future Land Use Map of the Future Land Use Element of the Manatee County Comprehensive Plan for the project from the Urban Fringe-3 (UF-3) and Public/Semi-Public-1 (P/SP-1) Future Land Use Classifications to the Mixed Use (MU) Future Land Use Classification for approximately 1,132 ± acres and retaining the P/SP-1 Future Land Use Classification for an FPL easement for 23± acres, by adoption of Ordinance 10-11;

WHEREAS, the described Project* lies within the unincorporated area of Manatee County; and

WHEREAS, the Board of County Commissioners as the governing body of the local government having jurisdiction pursuant to Section 380.06, Florida Statutes, has the statutory authority to consider and approve [a](#) Development Order for a DRI; and

WHEREAS, the public notice requirements of Manatee County and Section 380.06, Florida Statutes, have been adhered to and satisfied; and

~~**WHEREAS**, the Manatee County Planning Commission after due public notice, held a public hearing on 08/10/2017, to consider the Parrish Lakes DRI and found the Parrish Lakes DRI to be consistent with the Manatee County Comprehensive Plan, the Manatee County Land Development Code, Section 380.06, Florida Statutes, and Rule 73C-40, FAC, subject to the conditions of approval established in this development order and recommend Specific Approval of Phase 1 and Phase 2 of DRI #28 (TBRPC DRI #269); and~~

~~**WHEREAS**, the Board of County Commissioners has received and considered the report and recommendation of the Tampa Bay Regional Planning Council (TBRPC); the Planning Commission, and the Planning Staff; and~~

WHEREAS, the Board of County Commissioners [approved](#) ~~held a duly noticed public hearing on 09/07/2017 on~~ Ordinance 17-36 ~~and has solicited, received, and considered all testimony reports, comments, evidence, and recommendations from interested citizens, County agencies, the applicant, and the review and report of the Manatee County Planning Department;~~ [and](#)

WHEREAS, on July 22, 2024, the Developer submitted a Development of Regional Impact (DRI) Amendment Application for Development Approval (ADA*) to increase the overall maximum number of residential units from ~~2,200~~3,300 ~~single-family residential~~ units to ~~3,407~~3,778 ~~single-family residential~~ units;- increase single-family residential units from 2,200 to 3,378; decrease multi-family residential units from 1,100 to 400 units; decrease commercial/retail from 400,000 square feet to 211,750~~231,515~~ square feet; decrease office from 50,000 square feet to 35,000 square feet; provide build-out date of 2036; as legally described in Section 7, referred to as Parrish Lakes DRI, or the Project*; and

WHEREAS, the Manatee County Planning Commission, after due public notice, held a public hearing on (insert date), to consider the Parrish Lakes DRI Amendment to amend and replace Ordinance 17-36 and found the Parrish Lakes DRI amendments to the Development Order and Map H to be consistent with the Manatee County Comprehensive Plan, the Manatee County Land Development Code, ~~Section 380.06, Florida Statutes, and Rule 73C-40~~, FAC, subject to the conditions of approval established in this development order and of DRI #28 (TBRPC DRI #269); and

WHEREAS, the Board of County Commissioners held a duly noticed public hearing on (insert date) on amendments to the DRI Development Order and Map H (Exhibit A) to amend and replace Ordinance 17-36 as amended, and has solicited, received, and considered all testimony, reports, comments, evidence, and recommendations from interested citizens, County and the Developer, as well as the review and report of the Manatee County Development Services Department.

NOW THEREFORE, BE IT ORDAINED BY THE BOARD OF COUNTY COMMISSIONERS OF MANATEE COUNTY, FLORIDA:

SECTION 1. FINDINGS OF FACT.

The Board of County Commissioners, after considering the testimony, evidence, documentation, application for an amendment to the Development Order and Map H for the DRI (with sufficiency responses), the recommendation and findings of the Planning Commission, and all other matters presented to the Board of County Commissioners at the public hearing, hereby makes the following findings of fact:

- A. All "WHEREAS" clauses preceding Section 1 of this Ordinance are adopted as findings of fact.
- B. The Developer has received County approvals for and has commenced development in several sub-phases of the development, consistent with Ordinance 17-36.
- C. An application has been submitted to Manatee County and is being processed concurrently with this ~~ADA*~~[DRI Amendment application](#) to amend Zoning Ordinance PDMU-16-16(G)(3).
- D. The Board of County Commissioners has received and considered the recommendation of the Manatee County Planning Commission concerning amendments to the DRI and as it relates to the real property described in Section 7 of this Ordinance, pursuant to Section 380.06, Florida Statutes. The report of the

Planning Commission was rendered on [\(insert date\)](#), following a public hearing.

- E. The Board of County Commissioners held public hearings on [\(insert date\)](#) regarding Ordinance [\(insert Ord#\)](#), in accordance with the requirements of the Manatee County Land Development Code (Ordinance 15-17, as amended) and the Manatee County Comprehensive Plan (Ordinance 89-01, as amended) and has further considered the testimony, comments, and information received at the public hearings.
- F. Manatee County has adopted the Manatee County Comprehensive Plan which is in compliance with applicable state laws.
- G. The Comprehensive Plan requires a Certificate of Level of Service to be issued for water, wastewater, solid waste, parks and recreation, ~~roadways, transit,~~ schools and drainage in compliance with state requirements and the Land Development Code.
- H. This Development Order is issued based on information provided by the Developer* in the [application to amend and replace Ordinance 17-36](#) ~~(with sufficiency responses)~~; public hearing testimony; data, information, and recommendations provided by the Planning Commission and Planning Department and ensures continued compliance with the Manatee County Comprehensive Plan.
- I. The real property which is the subject of this [application to amend and replace Ordinance 17-36](#) (Development Order) is legally described in Section 7 of this Ordinance.
- J. The Project* is not in an Area of Critical State Concern, as designated pursuant to Section 380.05, Florida Statutes.
- K. The authorized agent and address for the Project* is Mrs. ~~Claude Melli~~[Lydia Melli](#), FLM, Inc., ~~4602 Dogwood Hills Ct. Brandon, FL 33511~~[401 E. Jackson Street, Ste 2225, Tampa, FL 33602](#); Mr. John Ryan, Hawk Parrish Lakes, LLC, 2502 N. Rocky Pointe Dr, Ste 1050, Tampa FL 33607; Mr. J. Brett Hutchens, CNL Parrish Lakes East, LLC and CNL Parrish Lakes West, LLC, 5391 Lakewood Ranch Blvd, Ste 100, Sarasota, FL 34240;
- L. The owners of the property ~~are~~[is](#) FLM, Inc., [Hawk Parrish Lakes, LLC, CNL Parrish Lakes East, LLC, and CNL Parrish Lakes West, LLC.](#)
- M. A comprehensive review of the impacts generated by the development has been conducted by the departments of Manatee County, the Planning Commission, [and](#) Board of County Commissioners, ~~TBRPC, and the State Planning Agency~~ in conjunction with the application to amend and replace Ordinance 17-36 (DRI Amendment) ~~with sufficiency responses~~, and this Development Order.

~~N. The TBRPC declared the ADA* application sufficient on April 20, 2017.~~

SECTION 2. CONCLUSIONS OF LAW.

A. Based upon the previous findings of fact and the following conditions of this Development Order, the Board of County Commissioners of Manatee County concluded that:

1. The Project* will not unreasonably interfere with the achievement of the objectives of the adopted State Land Development Plan applicable to the area.
2. The Project* is consistent with the local land development regulations and is consistent with [Manatee County's Comprehensive Plan](#), ~~the State Comprehensive Plan (SCP), the Tampa Bay Regional Planning Council's Future of the Region: A Strategic Regional Policy Plan (SRPP), (as amended).~~
- ~~3. The Project*, as conditioned by this Development Order, is consistent with the report and recommendations of the TBRPC approved on June 12, 2017 regarding this ADA*.~~
- ~~4.~~3. That these proceedings have been duly conducted pursuant to applicable law and regulations, and based upon the record in these proceedings, the Developer* is authorized to conduct development as described herein, subject to the conditions, restrictions, and limitations set forth below.
- ~~5.~~4. The review by the County*, ~~the TBRPC, and~~ other participating agencies and interested citizens reveals that impacts of the development are adequately addressed pursuant to the requirements of Section 380.06, Florida Statutes, within the terms and conditions of this Development Order, and the ADA. To the extent that the ADA* is inconsistent with the terms and conditions of this Development Order, the terms and conditions of this Development Order shall prevail.

SECTION 3. DEVELOPMENT COMPONENTS:

- A. This Development Order approval shall constitute approval of the [ADA*application to amend and replace Ordinance 17-36 and amend Map H \(Exhibit A\)](#) subject to the conditions set forth herein and shall be limited to the development amounts set forth in Table 1, below.
- B. Phase 1 and Phase 2 of the Development are Specifically Approved subject to the conditions found within the Development Order and a Certificate of Level of Service for all services, except potable water and sewer and schools, which has been issued for the land uses listed in Phase 1 and Phase 2 as defined herein and in Zoning Ordinance PDMU-16-16(~~GZ~~)([GR3](#)). Potable water and sewer and school concurrency (if applicable) will be reviewed at time of each Final Site Plan submittal.
- C. Preliminary and Final Site Plan applications shall be reviewed for compliance with this Development Order and shall be subject to the requirements of the Manatee County Comprehensive Plan and Land Development Code in effect at the time of such site plan application, as to such requirements which are not specifically

addressed in this Development Order or are not inconsistent with this Development Order.

D. The build-out date for this Development Order is December 31, 2036.

E. The expiration date for this Development Order is December 31, 2037.

TABLE 1: DEVELOPMENT TOTALS

	Residential (units)		Retail (sq. ft.)	Office (sq. ft.)
	Single Family	Multifamily		
Phase 1 (2026)	900	600	250,000	0
Phase 2 (2036)	1,300	500	150,000	50,000
Total	2,200	1,100	400,000	50,000

<u>PHASING</u>	<u>PHASE I : 2036</u> <u>PHASE II: 2036</u>	<u>TOTAL</u>
<u>Residential (units)</u>		<u>3,778</u>
<u>S.F. Detached</u>	<u>2,385</u>	
<u>S.F. Attached</u> <u>(Condo/Townhome)</u>	<u>993</u>	
<u>Multi-family (units)</u>	<u>400</u>	
<u>Commercial/retail (sf.)</u>	<u>188,219 sf Shopping Center</u> <u>23,531 Lagoon</u>	<u>211,750</u>
<u>Office (sf.)</u>	<u>35,000</u>	<u>35,000</u>

LDC 350.4.A - Public educational facilities shall be allowable uses in all zoning districts, except heavy manufacturing and conservation zoning districts subject to compliance with applicable development standards set forth in this section. Public Educational Facilities may be allowed in heavy manufacturing and conservation zoning districts at the discretion of the County.

F. Development Totals:

1. The Land Use Equivalency Matrix below allows the developer variations in

the quantity of approved land uses without the requirement to analyze such modifications through the Notice of Proposed Change process. The conversion formulas presented below are based on net p.m. peak hour trip generation factors.

2. In seeking approval of a specific Land Use Exchange, any changes in the number and/or type of dwelling units that cause an increase in the projected number of students shall be subject to review and approval of a School concurrency Analysis and issuance of a CLOS.
3. In seeking approval of a specific Land Use Exchange, the Developer* shall prepare a request which demonstrates that the impacts generated by the revised land use mix will not exceed the impacts for transportation, solid waste disposal, mass transit, drainage, and parks and recreation, which have been approved and authorized in the Certificate of Level of Service Compliance (CLOS) issued for that phase. ~~Additionally, the Developer* shall provide a minimum of 10% of the residential units as affordable or workforce housing or pay the fees as required in Section M of this Development Order. In seeking approval, the Developer shall not exceed the potable water and wastewater treatment projected for that phase without approval from Manatee County.~~ The Developer* must apply for a modification to the CLOS and if the proposed Land Use Exchange results in impacts in excess of those previously approved, the Developer* may be granted approval for that excess only if, and when, capacity is available. However, reapplication shall not cause the Developer* to lose the capacity already approved for the Project*. If the request for a Land Use Exchange is approved, a modified CLOS shall be issued to replace the previously approved CLOS. Any modification to the CLOS shall not extend the time for which such capacity is reserved, pursuant to the CLOS. At the time of Final Site Plan approval, potable water, wastewater treatment and schools shall be analyzed and a CLOS will be issued for those concurrency components.
4. An application for a Land Use Exchange must be reviewed for consistency with the General Development Plan and staff shall be provided a revised Land Use and Phasing Schedule and a reallocation of square footage or residential units on the GDP as necessary. Each proposal for a land use exchange and revised General Development Plan shall be reviewed for compliance with the provisions of this Development Order, the Manatee County Land Development Code, and the Manatee County Comprehensive Plan. Increases to residential units of less than three percent (3%) of the approved units and less than five percent (5%) of the approved nonresidential square footage shall be reviewed administratively in accordance with LDC Section 324.2 and shall not require a revision to this ordinance.
5. In the event the Land Use Exchange provision is utilized, the project shall still consist of a mix of at least two (2) land uses (residential, commercial, office).
6. ~~A copy of each exchange request shall be provided to the Tampa Bay Regional Planning Council upon approval by Manatee County.~~

G. The Land Use Equivalency Matrix (LUEM), Table 2, is as follows: Land Use Equivalency Matrix:

TABLE 2: LAND USE EQUIVALENCY MATRIX

CHANGE TO:									
	210: Single-Family Detached Housing	220: Apartment	230: Condominium/Townhome	254: Assisted Living	710: General Office	720: Medical Office	255: Continuing Care Retirement Community	620: Nursing Home	820: Shopping Center

1. Land use changes are based on the peak-hour of adjacent street traffic, one hour between 4 and 6 PM.
2. Equivalency factors are based on the ITE Trip Generation Manual 9th Edition average rate for each land use.

Minimum and Maximum Development by Land Use Type		
Land Use	Minimum	Maximum
Residential (d.u.)	2,145	4,455
Office (s.f.)	32,500	67,500
Commercial (s.f.)	260,000 <u>211,750</u>	540,000
Assisted Living (beds)	-	250
Continuing Care Retirement Community (units)	-	500
Nursing Home (beds)	-	250
Medical Office (s.f.)	-	67,500

SECTION 4. DEFINITIONS.

The definitions contained in Chapter 380.06, Florida Statutes, the Manatee County Comprehensive Plan, and Land Development Code shall apply to this Development Order in addition to those listed herein. The following capitalized terms used herein shall have the following meanings:

- A. "Application for Development Approval*" or "ADA*" shall mean the Parrish Lakes Development of Regional Impact Application for Development Approval* (February 10, 2010), and the sufficiency responses submitted by the Developer* on August 12, 2010 and January 10, 2011, and Revised Map H, submitted on September 2, 2016, and February 7, 2017.
- B. "Best Management Practices" shall mean the practices which are technologically and economically feasible in abating pollution generated by point and non-point sources, to a level compatible with water quality and quantity objectives of this Code (BMP list of approved practices by Board resolution for Special Overlay Districts—Evers Reservoir and Lake Manatee Watershed Areas).

- C. "County*" shall mean Manatee County, a political subdivision of the State of Florida.
- D. "Developer*" shall mean FLM, Inc., [Hawk Parrish Lakes, LLC.](#), [CNL Parrish Lakes East, LLC.](#), [CNL Parrish Lakes West, LLC.](#), its heirs, assigns, designees, agents, transferees, and successors in interest as to the Project* and all conditions of approval.
- E. "Development Approval*" shall mean any approval for development granted through the Preliminary Site Plan, Preliminary Plat, Final Plat, and Final Site Plan process or Construction Drawing approval where site plans or subdivision plats are not required.
- F. "Funding Commitment*" shall mean projects funded for construction in the current year plus one of an adopted work program, or committed by a community development or stewardship district or private sources which can include the Developer*, for construction with funding provided within three years.
- G. "Master Drainage Plan*" shall mean a plan showing the proposed stormwater management components to be constructed for the entire Project* as follows:
 - 1. Existing topography;
 - 2. Existing drainage features, both on site and off site, that will affect the drainage concept of this Development*; existing and developed drainage basins, with their direction of outfall;
 - 3. Proposed stormwater management facilities, which shall include: detention lakes, connection of lakes, and the eventual outfall for these lakes; and
 - 4. Off-site areas that historically drain through the property shall be addressed as to the method the applicant proposes to use to accommodate off site stormwater.
- H. "Project*" shall mean the land uses by area, square footage, density, and phase described in the ADA* to be constructed on the real property described in Section 7 herein.
- I. "Specific Approval*" shall mean ADA approval for Phase 1 and Phase 2. Specific Approval* herein should not be confused with Specific Approval* as defined in the Manatee County Land Development Code.
- J. "Vertical Development*" shall mean and shall be deemed to include the construction of new residential units and non-residential structures or the reconstruction or addition to any structure. "Vertical Development" shall not mean nor be deemed to include the construction of any new structure or the reconstruction or addition to any structure specifically for the use of the existing or future agricultural operations.

The definitions contained in Chapter 380.06, Florida Statutes, shall apply to this

Development Order.

Note: An asterisk (*) in the text of this Development Order denotes that the word is defined.

SECTION 5. DEVELOPMENT CONDITIONS:

THE PARRISH LAKES DRI IS SPECIFICALLY APPROVED FOR PHASE 1 AND PHASE 2 DEVELOPMENT, SUBJECT TO THE FOLLOWING CONDITIONS OF APPROVAL:

Transportation

A.(1) [As to development through Ordinance 17-36](#), Parrish Lakes DRI development traffic will have significant and adverse impacts on the regionally significant transportation facilities listed in Table A(1) Transportation Improvements. In accordance with Section 163.3180(5)(h)(1), Florida Statutes, and as necessary to mitigate the Project* impacts, the Developer* shall construct or pay the Proportionate Share of each required Improvement prior to Project Development Approval generating trips equal to or greater than the corresponding Project Trip Threshold. The contribution or construction of the proportionate share of the following roads or facilities shall be deemed sufficient to accomplish one or more mobility improvements that benefit a regionally significant transportation facility, and shall fully satisfy the transportation concurrency requirements of the Comprehensive Plan and the requirements for mitigation of the Project* transportation impacts. Except for the Developer* proportionate share as set forth herein, the Developer* shall not be held responsible for the additional cost of reducing or eliminating deficiencies.

In accordance with Section 360 of the Land Development Code, the applicant has applied for a Certificate of Level of Service compliance (CLOS) in conjunction with this DRI DO. The term of the CLOS shall be determined based on the amount of development to occur within the CLOS, and the schedule of required improvements set forth in Table A(1), to provide the applicant with a reasonable time to complete the anticipated required improvements. The applicant may satisfy concurrency pursuant to and in accordance with Section 163.3180, Florida Statutes.

Intersections:	Improvement	Threshold (PM Peak Hour Trips)
Erie Road and 69th St E	• Signalize - Semi-Actuated (60 seconds cycle length) or Roundabout	779

Erie Road and Harrison Ranch Boulevard/Carter Road	• Change pavement markings on Northbound right-turn lane to allow through movements • Add Eastbound exclusive left-turn lane (1 total) • Add Southbound exclusive left-turn lane (1 total) • Add Westbound exclusive right-turn lane (1 total) • Optimize signal timing	To be constructed concurrent with construction of Carter Road connection to Erie Road 1,567 (Westbound exclusive right-turn lane to be constructed concurrent with construction of Carter Road connection to Erie Road)
Erie Road and Sawgrass Road	• Add Eastbound exclusive left-turn lane (1 total) • Add Westbound exclusive right-turn lane (1 total)	To be constructed concurrent with construction of Sawgrass Road connection to Erie Road
Moccasin Wallow Road and Carter Road	• Signalize - Semi-actuated (120 seconds cycle length) • Change Southbound pavement markings to allow through movements • Add Eastbound exclusive right-turn lane (1 total) • Add Westbound exclusive left-turn lane (1 total) • Add Northbound exclusive left-turn lane (1 total)	To be constructed concurrent with construction of Carter Road connection to Moccasin Wallow Road

	• Change pavement markings on Southbound left-through lane to through-only lane • Add Southbound exclusive left-turn lane (1 total) • Optimize signal timing • Add Northbound exclusive left-turn lane (2 total)	2,110
Moccasin Wallow Road and Sawgrass Road	• Add Westbound exclusive left-turn lane (1 total) • Add Eastbound exclusive right-turn lane (1 total) • Signalize	To be constructed concurrent with construction of Sawgrass Road connection to Moccasin Wallow Road 1,752 (Eastbound right-turn lane to be constructed concurrent with construction of Sawgrass Road connection to Moccasin Wallow Road)
Ft. Hamer Road and Golf Course Road	• Add Northbound exclusive right-turn lane (1 total)	1,411
Buckeye Road and Carter Road	• Change Northbound pavement markings to right-turn only lane • Add Northbound exclusive left-turn lane (1 total)	2,888
US 301 and Erie Road (Parrish)	• Change Eastbound pavement markings to right-turn only lane • Add Eastbound exclusive left-turn lane (1 total)	2,431

(Completed through LDA payments)

Access

The project's main external access points are located on Erie Road and Moccasin Wallow Road, east of I-75. The four access points are as follows:

- **Erie Road and Carter Road**
- **Erie Road and Sawgrass Road**
- **Moccasin Wallow Road and Carter Road**
- **Moccasin Wallow Road and Sawgrass Road**

The following table indicates location and length of site's main access improvements:

Intersection	Movement	Required Total Length (feet)
Erie Road at Carter Road	Eastbound Left	485
	Westbound Right	185
Erie Road at Sawgrass Road	Eastbound Left	435
	Westbound Right	185
Moccasin Wallow Road at Carter Road	Westbound Left	805
	Eastbound Right	405
Moccasin Wallow Road at Sawgrass Road	Westbound Left	455
	Eastbound Right	405

The development is traversed by future thoroughfare segments of Carter Road, and Sawgrass Road, and ~~'EE' Road~~. In addition to the primary thoroughfare connections along the boundary, minor access locations are proposed along the external and internal thoroughfares. Each of these additional access locations and internal intersections shall be designed based on appropriate operational analysis undertaken prior to approval of the associated construction plans.

A.(2) With each Final Site Plan application, the Developer shall submit to the County a permitting summary which addresses the following:

1. The total land use quantities proposed by the submitted final site plan, plus all land uses previously approved with prior final site plans, to demonstrate consistency with the Development Order; and,
2. An assessment of the estimated traffic operations and turning movements together with the conceptual design of the driveways, serving the Project covered by the Final Site Plan application.

A.(3) At the time of submittal of a proposed Final Site Plan for fifty percent (50%) of the approved density and intensity of the Project*, the Developer* shall complete a transit analysis to determine whether public transit is required at that time. In the event that the transit analysis establishes the need for public transit at that time, the Developer shall work with Manatee County Area Transit (MCAT) on identifying a potential transit stop(s) within or along the perimeter of the Project*. At such time that MCAT has established a plan for service to the Project and coordinated needed location(s) for a transit stop with Developer, Developer shall accommodate the requisite stop(s) within the Project.

A.(4) The Developer shall provide roadway, bicycle and pedestrian connections

between internal and adjacent thoroughfare roadways, adjacent trail facilities, and community open space/park sites.

- A.(5) There shall be bicycle or pedestrian facilities on both sides of any road designated as a collector or arterial roadway in the adopted Future Traffic Circulation Plan of the Manatee County Comprehensive Plan. All transportation facilities shall be constructed in accordance with Manatee County's Public Works Standards Manual.
- A.(6) The Developer* shall provide adequate sidewalks along both sides of all local streets and roadways throughout the Project*, unless otherwise approved by the County.
- A.(7) Solely to the extent required by law, a biennial monitoring program will be started upon the issuance of the first building permit for uses which exceed fifty percent (50%) of the earliest Project* Trip Threshold set forth in Table A (1). This biennial monitoring report will continue until buildout. The biennial reports shall provide information for the Project* regarding the total development which has been permitted and its equivalent in trips, and shall project the development/trips anticipated for the next two years.

Prior to commencing the biennial monitoring, the Developer* shall submit a monitoring methodology and plan showing the proposed locations of the counts to Manatee County for review and approval. The monitoring program at a minimum shall consist of one 2-hour pm peak hour (4 pm to 6 pm) directional counts, with subtotals at 15-minute increments at all Project* entrance driveways with public roadway connections. The sum of the Project* driveway trips will be totaled in 15-minute increments and the highest four consecutive 15 minute totals will be summed to determine the project's total PM peak hour traffic volume. This total will include net external trips, diverted trips, and pass-by trips of the Project*. The biennial monitoring shall be conducted during the peak season (February to April) and a maximum of 60-90 days prior to the Biennial Report submittal date unless otherwise approved by Manatee County.

- A.(8) The Developer shall be entitled to Impact Fee Credits in accordance with applicable law and the County Land Development Code and practices.

Vegetation, Wildlife, and Wetlands

- B.(1) ~~Impacts to Natural Resources of Regional Significance, as delineated on Map 3 in [TBRPC's DRI Final] report, shall only occur if justified pursuant to the Tampa Bay Regional Planning Council's Future of the Region: A Strategic Regional Policy Plan (SRPP) Policy 4.44. Mitigation for justifiable impacts to Natural Resources of Regional Significance should meet the ratios set forth in that policy and Policy 4.45; i.e. 2 created: 1 impacted for Dry Habitats (Live Oak Hammock and Mixed Hardwood-Conifer Forest) and twice that amount if mitigation is in the form of restoration of disturbed habitat of a similar nature, at minimum.~~

- B.(2) The Developer* shall provide an updated gopher tortoise study, consistent with Policy 3.3.2.1 of the Manatee County Comprehensive Plan, prior to each Final Site Plan approval. Management Plans, permits or other authorizations from the appropriate State or federal agency, shall be provided to Manatee County for any state- or federally-listed species found on-site, prior to Final Site Plan approval.
- B.(3) ~~Pursuant to the Tampa Bay Regional Planning Council's Future of the Region: A Strategic Regional Policy Plan (SRPP), Policy 4.50, t~~The applicant shall create and maintain a naturally vegetated buffer sufficient to preserve the value and function of the regionally-significant natural resources on and abutting the Parrish Lakes site. These areas, including the buffers, should be set aside in conservation easements. (Completed)
- B.(4) In the event that any state-or federally-listed species are discovered breeding on-site during project development, the developer shall immediately notify the Florida Fish and Wildlife Conservation Commission and implement the recommended measures for species protection.
- B.(5) A Nuisance, Exotic Plant Species Management Plan, as required by LDC Section 701.4 E, shall be submitted to Manatee County prior to each Final Site Plan approval that may include nuisance or exotic plant species. Initial removal of nuisance, exotic plant material shall be completed prior to Final Plat approval or Certificate of Occupancy issuance for that final site plan.
- B.(6) The Developer* shall seek to preserve and protect all wetland areas as generally depicted on Map H, and defined as wetlands in the Comprehensive Plan, and shall provide an upland vegetated buffer, consistent with the Comprehensive Plan and Land Development Code and applicable law. Prior to Preliminary Site Plan approval, the applicant shall demonstrate avoidance and minimization of any proposed wetland impacts in accordance with Comprehensive Plan Policy 3.3.1.1. Such determination will require completion of impact avoidance and minimization analyses consistent with the Land Development Code which clearly demonstrate the necessity of the proposed impact. Mitigation for approved wetland impacts shall be in accordance with Policy 3.3.1.3 of the Manatee County Comprehensive Plan, as amended from time to time. The demonstration of avoidance and minimization and the required analysis shall not be required for any wetland impact required for Moccasin-Wallow road, Carter Road or Sawgrass Road.
- B.(7) Conservation Easements for the following areas, may be generally depicted on Map H, shall be dedicated to the County prior to or concurrent with issuance of the first Certificate of Occupancy or Final Plat for those conservation easements within or contiguous to the proposed phase of development: (Completed)

- Post-development jurisdictional wetlands and associated wetland buffers,
- Upland preservation area, (Completed)

- B.(8) The project site may continue to be used for agricultural activities during development, but at no greater intensity than at present. No silvicultural or agricultural activities shall be initiated on land not currently under such use. As committed, the Applicant shall maintain a prudent fencing program to separate the agricultural business operations from the development areas through buildout.
- B.(9) The entire site shall be evaluated for potential hazardous material locations (i.e., historical cattle dipping vats, underground/aboveground storage tanks, or buried drums), by qualified environmental consultant. Should evidence of contamination be discovered, further investigation will be required to determine the level of contamination and appropriate remediation/mitigative measures.
- B.(10) All proposed nature trails, boardwalks, picnic tables, interpretive signage and shade structures and other passive recreation facilities in wetlands, wetland buffers, or upland preservation areas shall be designed to minimize impacts to trees or areas of significant vegetation and in accordance with Section 701 of the Manatee County Land Development Code. All proposed nature trails, boardwalks, shade structures and other passive recreation facilities shall be creditable toward the proposed parks dedication and requirement.
- B.(11) The Developer* shall provide 5.6+ acres of upland preservation along the eastern project boundary, FLUCCS Code _434 (Hardwood-Conifer Mixed Forest), consistent with the upland preservation area identified on Map H (Attached as Exhibit A). The 5.6+ acres of upland preservation shall be fully creditable toward the Project's parkland dedication requirements. The upland preservation area shall fully satisfy the project's landscape buffer requirements along the upland preservation frontage for the perimeter of the project. (Completed)
- B.(12) The Developer* shall submit for review and approval, a Habitat Management Plan for the upland preservation areas with the first Preliminary Site Plan inclusive of or immediately contiguous to the upland preservation area, as shown on Map H.

Soils

- C.(1) Best Management Practices, including those identified in the ADA*, shall be employed during site preparation and construction to prevent soil erosion.

Air Quality

- D.(1) Best Management Practices*, including those identified in the ADA*, shall be employed during site preparation and construction to minimize air quality impacts.

Water Quality and Stormwater Management

- E.(1) The stormwater management system shall be designed to maintain the natural hydroperiod of the receiving wetlands, and to meet or exceed the requirements for development within the Buffalo Canal Drainage Basin. The adopted Buffalo Canal Watershed Model may be utilized to demonstrate no adverse offsite impacts will result from the development.
- E.(2) Development practices shall incorporate Best Management Practices*, including those which prevent construction-related turbidity.
- E.(3) The Developer* shall encourage the use of water conserving landscapes and the responsible use of water by residents and occupants throughout the project.
- E.(4) Existing native vegetation shall be preserved, to the greatest extent practicable, to meet screening requirements, unless otherwise approved by Manatee County.
- E.(5) To prevent adverse effects to groundwater quality during construction, there shall be no excavation into or through the Floridan aquifer's confining layers.
- E.(6) Stormwater management ponds shall not be constructed within wetland buffers or natural resources of regional significance, unless otherwise approved by Manatee County and SWFWMD.
- E.(7) Applicant shall implement resident education programs advocating surface water protection. An example of this is information on the proper use of fertilizers and pesticides.
- E.(8) A separate storage facility, from the surface water management system, is encouraged for reclaimed water use.
- E.(9) Low impact development techniques are encouraged to be used throughout the development. These techniques shall include, but are not limited to, the following:
- Retention of the maximum amount of existing native vegetation;

- Shallow vegetated swales in areas where practical, including parking;
- Appropriate Florida friendly plant selections;
- Small, recessed garden areas throughout landscaped areas;
- Porous pavement and other pervious pavement technologies;
- Stabilized grass areas for overflow parking (i.e. in excess of minimum LDC requirements); and
- Stormwater reuse.

E.(10) Prior to construction, the Developer* must provide a plan detailing the operation and maintenance of the stormwater management system for the portion of the Project for which Development Approval is then sought. The plan shall, at a minimum, identify the responsible entity, establish a long term funding mechanism and provide assurance through written commitments that the entity in charge of the program has the technical expertise necessary to carry out the operation and maintenance functions of the stormwater management system. The plan must be approved by Manatee County prior to the first PSP or FSP approval and implemented at construction. Failure to implement the approved plan shall prevent Manatee County from issuing any further site plan approvals.

E.(11) The Developer* or other responsible entities shall hire a licensed engineer to conduct inspections of the stormwater management systems on the project site to ensure that the system is being properly maintained in keeping with its design, and is capable of accomplishing the level of stormwater storage and treatment for which it was designed and permitted. Inspection results shall be included in each Biennial DRI Report through project buildout.

E.(12) All habitable structures shall be constructed in accordance with Manatee County's flood protection requirements.

E.(13) Compensation for the loss of 100-year flood storage capacity shall be provided. This may be demonstrated by use of the Buffalo Canal Watershed Model.

E.(14) The Developer* shall submit a Surface and Groundwater Quality Monitoring Plan for the Parrish Lakes DRI for review and approval by the County prior to approval of the first Preliminary Site Plan. Approval of the Surface and Groundwater Quality Monitoring Plan will be subject to the following conditions:

- Protection of monitoring wells and access to monitoring wells through build-out of the project. Should any of the monitoring wells be destroyed the responsible entity shall provide written notification of the incident and corrective action taken to Manatee County.

- Baseline monitoring shall be completed prior to the commencement of any construction activities with the exception of those construction activities that may be required to implement the monitoring plan.
- Manatee County may require the monitoring plan to be modified should the land use change significantly or should the baseline monitoring reveal exceedances that would merit additional monitoring measures.
- If monitoring activities do not begin in a timely manner, Manatee County may require the monitoring plan to be modified accordingly.
- All surface and groundwater monitoring results shall be included with the respective Biennial Report to be submitted for the project.

Historical and Archaeological Sites

- F.(1) Any significant historical or archaeological resources discovered during project development shall be reported to the Florida Division of Historical Resources (FDHR) and the disposition of such resources shall be determined in cooperation with the FDHR and Manatee County.

Water Supply

- G.(1) The Developer* shall be required by Manatee County ordinances, to extend potable water service or utilize the existing potable water infrastructure constructed onsite for each phase or subphase of the Project* to assure that adequate potable water capacity exists to accommodate the Project*.
- G.(2) The Developer* shall be responsible for maintenance and operation of any on-site wells. These wells shall be operated in accordance with SWFWMD rules and regulations. Any existing on-site wells not intended for potable or non-potable uses shall be plugged and abandoned in accordance with Rule 40D-3.531, Florida Administrative Code.
- G.(3) The lowest quality water possible shall be used for irrigation. In-ground irrigation using Manatee County public potable water supply shall be prohibited throughout the project, including on individual lots.
- G.(4) The Developer shall coordinate with the County Utility Department for the use of reclaimed water within the project to the extent reclaimed water is a reliable quality, quantity and is a financially feasible water source. Prior to Final Site Plan approval applicant shall specify source of irrigation on site plan.
- G.(5) The Developer* has committed to the following:
- Installation of water conserving fixtures;

- Adherence to water conserving maintenance practices;
- Use of xeriscaping principles; and
- Providing water conservation educational materials to all developers within the project.

- G.(5) Water saving plumbing fixtures must be used inside all buildings, including housing units.
- G.(6) Water conserving irrigation systems shall be used throughout the development. Rainfall sensors shall be placed on all systems.
- G.(7) Irrigation time clocks shall be reset after new landscaping has been established.
- G.(8) Florida friendly landscaping principles shall be used throughout the development.
- G.(9) Ecologically viable portions of existing native vegetation shall be incorporated into the landscape design to the greatest extent practicable and shall not be irrigated.
- G.(10) Conservation education shall be made available to residents and other users of the development.
- G.(11) The use and potential future use of reclaimed water, stormwater or other alternative water supplies shall be maximized. Dual water lines shall be installed to facilitate this.

Wastewater Management

- H.(1) The Developer* shall be required by Manatee County ordinances, to expand wastewater service or utilize the existing wastewater infrastructure constructed onsite for each phase or subphase of the Project* to assure that adequate wastewater capacity exists to accommodate the Project.*
- H.(2) No permanent septic tanks are permitted for new development.
- H.(3) Approval of the project shall include assurance of adequate wastewater treatment capacity as well as any developer provision(s) of any improvements to the internal wastewater collection system. Future biennial reports shall contain an updated summary of utility service commitments.

Solid Waste/Hazardous Waste/Medical Waste

- I.(1) Commercial and office tenants shall be provided with information at the time of purchase or lease which identifies hazardous or medical materials and proper procedures for the handling and disposal of such materials. In the event that businesses using or producing hazardous materials or medical waste locate within the project, these materials shall be handled in a manner consistent with applicable Federal, State and Local regulations.
- I.(2) The Developer* shall be required by Manatee County ordinances, to extend solid waste service to each phase or subphase of the Project* to assure that adequate solid waste capacity exists to accommodate the Project*.

Recreation and Open Space

- J.(1) Greenways, nature trails, parks, environmentally-sensitive features, open space, and recreation facilities shall be maintained by the Developer* or successors such as a Home Owners Association, CDD, stewardship district, other legal entity and/or as directed by the permitting agencies, unless otherwise approved by the County.
- J.(2) As committed, the Developer* shall provide +26-acres of parks on-site. Parks may include passive recreation area (within upland preservation areas and outside of wetland buffers), nature trails (including the Ellenton-Willow Trail along Erie Road), boardwalks, interpretive trails, active recreation areas, pocket parks, ponds and water bodies that may include trails, fishing access, canoe or boating facilities, or other similar water sports facilities that will be provided on the site, at locations to be determined during future development review processes. [\(Completed\)](#)
- J.(3) Prior to the approval of the initial residential final site plan, the Developer shall provide a Master Parks Plan for review and approval by Manatee County. The Master Parks Plan shall identify the proposed location of all +26 acres of parks and the nature and type of all recreation facilities. [\(Completed\)](#)
- J.(4) All open space and recreation facilities within the Project shall be maintained by an appropriate entity such as a Community Development District, Stewardship District, or Homeowners Association.

Health Care, Police, and Fire

- K(1) Abandoned septic tanks shall be pumped out, bottoms ruptured, and filled with clean sand or other suitable material.

Hurricane Preparedness

- L.(1) The Developer* shall promote awareness of hurricane and flooding hazard, preparedness and hazard mitigation through public information, neighborhood association newsletters, model homes, commercial/office buildings, etc.

M. Affordable Housing ([Left Blank Intentionally](#))

- ~~M.(1) In lieu of any analysis required by 73C-40.048, Florida Administrative Code, the Developer shall enter into a voluntary housing mitigation program as set forth in the conditions below.~~
- ~~M.(2) The Developer may provide up to 330 units within the project that satisfies the requirements of the “affordable” or “workforce/essential worker” housing as defined by the Manatee County Land Development Code. The final number of combined affordable or workforce/essential worker units to be equal to 10% of the total number of residential units constructed within the Project (not to exceed 330 based on the original 3,300 approved dwelling units).~~
- ~~M.(3) The 330 units shall qualify for “affordable” or “workforce/essential worker” housing, as defined by the Manatee County Land Development Code, with the first sale or rental of an individual unit to an end user. The maximum sales price or monthly rental rates for the affordable/workforce housing units shall be based upon current workforce sales price as established by the methodology in the Manatee County Land Development Code and may be modified each year as determined by Manatee County.~~
- ~~M.(4) The proposed units may be provided as either for sale units or for rent multi-family units provided the rental rates meet the requirements within the Manatee County Local Housing Assistance Plan.~~
- ~~M.(5) As an alternative to the construction of units, the Developer may elect to contribute to the Voluntary Affordable Housing Mitigation Program payment no greater than \$660,000 (330 units x \$2,000 each), in terms of 2011 dollars, to the Manatee County Redevelopment and Economic Opportunity Department or its designated Housing Assistance Program to fully satisfy any affordable or workforce housing requirements for the Parrish Lakes DRI.~~
- ~~M.(6) The Voluntary Affordable Housing Mitigation Program payment shall be made at time of building permit for each residential unit on the project and payable at the rate of \$200 per residential unit in terms of 2011 dollars. (3,300 units x \$200 per unit = \$660,000).~~

- ~~M.(7) Residential units sold within the Parrish Lakes DRI that meet the Maximum Income Limits for qualifying individual(s) or Maximum Sales Price requirements for affordable or workforce housing as identified by the Manatee County Maximum Income Limits Table shall not require the voluntary cash mitigation payment described in Stipulation M.(6) above. These units shall also receive all applicable incentives described in Section 545 of the Manatee County Land Development Code for affordable and workforce housing. These maximum income limits and maximum sales prices are updated periodically by Manatee County and shall be utilized accordingly. The maximum sale price and income limits in effect at the time a contract for purchase of an affordable or workforce housing unit is executed shall apply.~~
- ~~M.(8) Residential units rented within the Parrish Lakes DRI that qualify as affordable housing or are equal to or less than a monthly mortgage payment for a workforce housing unit as identified by the Manatee County Maximum Income Limits Table shall not require the voluntary cash mitigation payment described in Stipulation M.(6) above. These units shall also receive all applicable incentives described in Section 545 of the Manatee County Land Development Code for affordable and workforce housing. These maximum income limits and maximum sales prices are updated periodically by Manatee County and shall be utilized accordingly. The maximum sale price (and rental equivalent) and income limits as well as the proposed price range of rental units in effect at the time a certificate of occupancy is issued for a multi-family residential building containing affordable and/or workforce housing units shall apply. The workforce housing unit rental rate shall have a monthly lease rate which shall be consistent with the average monthly mortgage payment for a for sale workforce housing unit, as approved by Manatee County.~~
- ~~M.(9) In lieu of the cash mitigation payments required above, either in whole or in part, Parrish Lakes DRI may propose for TBRPC, The State Land Planning Agency, and Manatee County approval, one (1) or more "on-site" affordable or workforce/essential worker housing programs to satisfy such obligation by one (1) or more of the following types of programs; provision of land for other affordable housing programs; provision of affordable rental or purchase subsidy assistance; provision of down payment, closing cost or other acquisition cost assistance; provision of financial assistance; or other affordable housing assistance deemed appropriate and suitable, in whole or in part, by TBRPC, The State Land Planning Agency, and Manatee County. If one or more such "on-site" programs are approved, then the funds in the mitigation special revenue fund above, shall be utilized for such program(s).~~

- ~~M.(10) — The Developer shall include in its Biennial Report data showing the number and sale prices of affordable and/or workforce housing units sold or rented within the reporting period. The Biennial Report shall identify the sale of any unit via the property appraiser data for sales date. Rental shall include documentation on the number of units, rental rate and duration of initial contract. The Developer shall also report the amount of voluntary cash mitigation payments made for residential units that do not qualify as affordable or workforce housing units.~~
- ~~M.(11) — The Developer retains the right to perform an affordable housing analysis consistent with 73C-40.048, Florida Administrative Code, at any time during development of the DRI to determine the affordable housing need created by the project and appropriate mitigation, if necessary, to be applied to the remainder of the project, subject to the concurrence of Manatee County TBRPC, and The State Land Planning Agency.~~
- ~~M.(12) — The Developer shall attempt to maintain the 10% ratio of workforce affordable units or make the necessary mitigation payments throughout the development schedule. Should the project develop mitigation units in excess of 10% at any time, any exceedance of mitigation units shall be credited towards future development of the project. If during any biennial reporting period, it is determined the project had developed or paid the cash mitigation for less than 10% ratio, the mitigation payments or units may be requested by the County.~~

Energy

- N.(1) The Developer* shall incorporate energy conservation measures into the site design, building construction, and landscaping to the maximum extent feasible.
- N.(2) The developer shall work with TECO/Peoples Gas to provide natural gas within the project provided the cost to deliver natural gas is financially feasible. [\(Completed\)](#)

General Conditions

- ~~O.(1) Should development of Phase 1 and Phase 2 depart from the parameters set forth in the ADA*, the Project* will be subject to Substantial Deviation review pursuant to Section 380.06, F.S., or the requirements of then applicable law~~
- O.[\(12\)](#) Physical development shall commence within seven years of Development Order adoption. For the purpose of the Development Order, this term means construction of infrastructure, roadways or other vertical development. [\(Completed\)](#)

- O.~~(23)~~ Any approval of Parrish Lakes shall, at minimum, satisfy the provisions of Subsection 380.06(15), F.S., and the following provisions of the Florida Administrative Code (F.A.C.): Rule 73C-40.041 (Listed Plant and Wildlife Resources Uniform Standard Rule); Rule 73C-40.043 (Archaeological and Historical Resources Uniform Standard Rule); Rule 73C-40.044 (Hazardous Material Usage, Potable Water, Wastewater, and Solid Waste Facilities Uniform Standard Rule); Rule 73C-40.045 (Transportation Uniform Standard Rule); and 73C-40.048 (Adequate Housing Uniform Standard Rule).
- O.~~(34)~~ All of the Developer's* commitments set forth in the ADA* and subsequent Sufficiency Responses shall be honored as Development Order Conditions, except as they may be superseded by specific terms of this~~e~~ Development Order. Such developer commitments have been summarized in Section 6 of this Development Order.
- O.~~(45)~~ ~~Payment for any future activities of the TBRPC with regard to this development including, but not limited to monitoring or enforcement actions, shall be paid to the TBRPC by the Developer* in accordance with Rule 73C-40.0252, FAC.~~
- O.~~(56)~~ Approval of Parrish Lakes DRI shall be contingent upon the project's consistency with the Manatee County Comprehensive Plan adopted pursuant to the Local Government Comprehensive Planning Act, Chapter 163, F.S., and the state and regional plans.
- O.~~(67)~~ The Development Order should take into account any applicable concerns set forth in the attached letters of the Southwest Florida Water Management District, Florida Department of Environmental Protection, Florida Fish and Wildlife Conservation Commission and the Florida Department of Transportation.
- O.~~(8)~~ ~~The Developer*, its successors, assigns or transferees, shall submit Biennial DRI Reports in accordance with Section 380.06(18), Florida Statutes* to the County*, TBRPC, the State Land Planning Agency, and other agencies, as may be appropriate, on odd number years commencing two years after the Development Order becomes effective. until such time as all terms and conditions of this Development Order are satisfied. Ten (10) copies of this report shall be submitted to Manatee County, who shall review the report for compliance with the terms and conditions of this Development Order and who may submit an appropriate report to the County Commission should the County decide further orders and conditions are necessary. The Developer* shall be notified of any Board of County Commissioners' hearing wherein such report is to be considered or reviewed; provided, however, that receipt and review of any such report by the Board of County Commissioners shall not be considered as a substitute, modification, or change of any conditions, or~~

~~any terms or conditions of this Development Order. The Biennial Report shall contain the following:-~~

- ~~a. Any change in the plan of development, or in the representation contained in the ADA, or in the phasing or land uses for the reporting year and for the next year;~~
- ~~b. A summary comparison of development activity proposed and actually conducted for the year;~~
- ~~c. Undeveloped tracts of land, other than individual single family lots, that have been sold to a separate entity or Developer*;~~
- ~~d. Identification and intended use of lands purchased, leased, or optioned by the Developer* adjacent to the land encompassed by the Development Order for the Project*;~~
- ~~e. An assessment of the Developer's* and the local government's compliance with the conditions of approval contained in the DRI Development Order and the commitments that are contained in the Application for Development Approval* and which have been identified by the County*, TBRPC, or the State Land Planning Agency, as being significant;~~
- ~~f. Any known incremental DRI Applications for Development Approval* or requests for a Substantial Deviation Determination that were filed in the reporting year and to be filed during the next year;~~
- ~~g. An indication of a change, if any, in local government jurisdiction for any portion of the Development* since the Development Order was issued;~~
- ~~h. A list of significant local, state, and federal permits which have been obtained or which are pending by agency, type of permit, permit number, and purpose of each;~~
- ~~i. A copy of any recorded notice of the adoption of a Development Order for the subsequent modification of an adopted Development Order that was recorded by the Developer* pursuant to Subsection 380.06(14)(d), Florida Statutes;~~
- ~~j. A statement that all persons have been sent copies of the Biennial Report in conformance with Subsection 380.06(15) and (18), Florida Statutes;~~
- ~~k. Information required per the Development Order in regard to the voluntary housing mitigation;~~
- ~~l. Biennial traffic monitoring data, to the extent required by law.~~
- ~~m. An updated map showing the locations and acreage of upland and wetland preservation; and~~
- ~~n. Any other information required pursuant to general law.~~

SECTION 6. DEVELOPER* COMMITMENTS:

The following are developer commitments set forth in the Application for Development Approval* (ADA*) and Sufficiency Responses* (SR) which shall be honored by the

Developer*, except as they may be superseded by specific terms of the Development Order.

GENERAL

1. The owner will maintain a prudent fencing program to segregate and control the agricultural business operations from the development areas.(ADA/Page 10-5)
2. Any development that may be proposed within the [330'] FPL easement will be consistent with the property owner's easement rights. Such development is typically for ponds, or mitigation areas, park land and roadway crossings. (SR1/Page 9-1)

VEGETATION AND WILDLIFE

1. Until such time that the site is actually developed, it is anticipated that the site will remain in agricultural use with continuously active agricultural operations. (ADA/Page 12-2)
2. The property owners have a business plan regarding the continued maintenance of pasturelands that will remain in effect throughout the DRI process and the future sale of specific parcels to independent development entities. This plan provides that the available pastureland use areas must be maintained in order to sustain a viable cattle herd, and consequently, a viable agribusiness. The maintenance that is proposed to occur will include periodic disking of pastures followed by reseeding with various pasture grass species. (ADA/Page 12-2)
3. The upland listed species and other transects that have been completed on the property have verified the potential presence of this species [i.e. Gopher Tortoise] on the property, and therefore, future burrow surveys will have to be completed prior to future development of individual parcels within the overall DRI. Those surveys will be required as part of the normal development review of the site... The Applicant is amenable to a development order condition stipulating that pre-construction tortoise burrow surveys be required, and if tortoises are verified to be present, a permit sought from FWC. (ADA/Page 12-16)
4. The applicant intends to coordinate with the FWC as necessary during the construction design and permitting phase of the project, to determine appropriate off-site mitigation, if required, for impacts to those listed species (e.g. gopher tortoise) that cannot be accommodated entirely on-site. (ADA/Page 12-18)

5. The Applicant has “confirmed” that “Buffalo Creek will be retained during and after development and therefore will maintain the ‘corridor’ for use by wildlife.” (SR2/Page 10-7)
6. The Applicant agrees to set aside a preservation area, the 5.6± acre Hardwood Conifer Mixed Forested upland area located in the northeast portion of the property. (SR2/Page 12-2) (Completed)
7. To provide some assurance that additional environmental degradation does not occur on the property after the DRI approval and D.O. have been issued, the Applicant will agree to utilize the property for similar or no more intense agricultural uses than are currently in operation. (SR1/Page 12-1).
- ~~7.~~
8. The Applicant “understood” the need to complete the “updated wood stork and eastern indigo snake keys (i.e. US Fish and Wildlife Service Effect Determination Keys) dated January 25, 2010.” as well as “provide an endangered species assessment for the project site” at the time of Corps permit application. (SR1/Page 13-8)

WETLANDS

1. The wetlands that are to remain onsite post development are intended to be set aside as preservation areas, and these wetlands are depicted on the revised Map H. (SR1/Page 12-5). But, wetland use shall be as described in Stipulation B.(6) above.
2. A Conservation Easement for the areas defined as post-development jurisdictional wetlands/wetland buffers and upland preservation areas that serve as wetland mitigation, shall be dedicated to Manatee County prior to or concurrent with Final Plat approval.
3. The project is found to be consistent with the elements of the Manatee County Comprehensive Plan as set forth in... Objective 3.3.1 - Wetland Protection: Preserve and protect existing, viable wetland systems to: maintain control of flooding and erosion through storage of agricultural and urban runoff in wetland areas; achieve biological filtration of pollutants associated with urban and agricultural runoff by wetlands; maintain protection of coastal areas from tidal storm surges through maintaining wetlands as a natural buffer; achieve water recharge of surficial aquifers through wetland areas; maintain unique habitat functions of wetland areas as homes and critical breeding areas for many animals and plant species; maintain essential chemical and energy cycles facilitated by wetlands; and maintain educational and recreational opportunities provided by wetlands. (ADA/Page 10-21)
4. In order to obtain more accurate/real elevations for these field-established hydroperiod elevations, it will be necessary in the future (prior to the construction

permitting process) for a registered professional surveyor to perform a vertical survey of such elevations prior to field review/approval by regulatory (SWFWMD) staff. These surveyed and agency-approved elevations in conjunction with a wetland jurisdiction delineation will then be utilized during the design process for determining stormwater system control elevations, floodplain compensation elevations and for the design of any proposed wetland mitigation areas. (ADA/Page 13-2)

5. Opportunities to enhance or restore wetlands and their hydroperiods (e.g. via capture of stormwater runoff) will be evaluated as construction plans are developed for each development phase. (ADA/Page 13-3)
6. The relatively higher quality or larger size onsite wetlands will be avoided to the greatest extent possible, with the intent to incorporate these wetlands into the post-development landscape, and potentially target the wetlands to receive pre-treated stormwater runoff as a means of improving or stabilizing the wetland hydrology while achieving additional stormwater treatment or “polishing” effects. Natural wetland areas on the property that will remain in the post-development condition will include an upland buffer/setback as required by law, which will serve as a transition zone from the development to the wetland boundary, will provide potential habitat for wildlife utilization and will provide some uptake and treatment of stormwater runoff entering wetlands via overland flow or through designated drainage swales. (ADA/Page 13-3)
7. Upland buffers/setbacks will be provided around all wetlands to remain in the post-development condition, as appropriate and in accordance with SWFWMD and Manatee County standards, and applicable law. (ADA/Page 13-5).

WATER QUALITY

1. The requirements of Chapter 62-330 F.A.C. for stormwater treatment will be met using accepted methods including: (1) construction of littoral zones to be vegetated by native aquatic species; and (2) utilization of existing isolated wetland systems to provide biological treatment to maintain water quality. The stormwater management plan will place particular emphasis on these methods to enhance water quality by using natural biological mechanisms for the breakdown of pollutants and nutrient uptake. (ADA/Page 14-3)
2. The surface water management system proposed for the site will be designed to protect water quality through the use of grass swales, surface water detention ponds, and stormwater attenuation ponds. Water quality treatment ponds will attenuate and treat stormwater runoff before discharging to the existing wetlands/waterways internal and adjacent to the proposed development areas. Drainage swales will also provide for filtration of pollutants prior to discharge into stormwater management ponds. (ADA/Page 14-3)

3. On-site surface waters within the Parrish Lakes DRI will be protected from construction impacts by various measures, including the use of staked hay bales and silt screen fences, reducing both erosion and sediment transport into wetland areas. The preparation and implementation of a NPDES Stormwater Pollution Prevention Plan will further insure that the site will minimize impacts during construction. (ADA/Page 14-4)
4. Removal of the agricultural drainage system will also increase the residence time of the water entering isolated wetlands and the surface waters within the site, resulting in an increase in the ability of the systems to biologically filter pollutants and nutrients before the water is discharged to ultimate drainage outfall locations. (ADA/Page 14-4)
5. The Applicant has committed to develop a pre and post development environmental monitoring plan for the property... The monitoring plan will propose a methodology by which water quality parameters and monitoring will be established... It is reasonable to expect that the Development Order can be conditioned to include a requirement for development and implementation of a Ground and Surface Water Monitoring Plan prior to site development. (SR2/Page 14-1)

SOILS

1. Any soil limitations that may impact development of the site will be specifically identified and addressed by the Registered Geotechnical Engineer at the time of permitting. (ADA/Page 15-1)
2. Buildings will be constructed on compacted fill material, with habitable structures sufficiently elevated to be at least one foot above the determined 100-year flood elevation. (ADA/Page 15-1)

FLOODPLAINS

1. A more detailed floodplain analysis will be performed during the design and permitting phase of this project. (ADA/Page 16-1)
2. The storage of the water will be provided within the proposed compensation ponds between the seasonal high groundwater elevation and the design high elevation of the pond, as is typical. (SR1/Page 16-1)

WATER SUPPLY

1. The Applicant will continue to work with SWFWMD and Manatee County to develop a long-term plan to optimize potable and non-potable water resource use

in the development through methods such as designation of potable water well site(s) within the development and decreasing the amount of well withdrawals as reclaimed water becomes increasingly available to the site. (ADA/Pages 17-3 - 17-4)

2. All existing wells onsite that are not to be used to provide water to the development will be plugged and abandoned as required by SWFWMD regulations. (SR1/Page 14-3)
3. All potable water is to be provided by Manatee County Utilities. (SR1/Page 17-2)
4. The Applicant will commit to provide all developers in the project a copy of SWFWMD's Florida Friendly Landscaping brochures and booklets, "Fertilizer Facts", "Florida Friendly Landscaping Principles" and "Micro-Irrigation, a Guide to the Basics." (SR1/Page 17-2)
5. Parrish Lakes will also encourage Florida friendly landscape materials so long as it is not inconsistent with other land development codes. (SR2/Page 17-6)
6. Xeriscaping within the project... will likely result in reduced non-potable water demands for irrigation within the project. (ADA/Page 17-2)
7. The new residential units shall be energy efficient homes that use low flow toilets and water conserving faucets. (SR2/Page 10-3) [\(Completed\)](#)
8. The Parrish Lakes DRI will obtain potable water from the Manatee County public water system and will comply with their requirements for installation of water conservation fixtures and adherence to water-conserving maintenance practices. (ADA/Page 10-27)
9. The project will utilize reclaimed water that currently transects the property and is provided immediately adjacent to the property and phase out the current agricultural pumping operation. (SR2/Page 10-3). But, irrigation use shall be as described in Stipulation G.(2) above.

WASTEWATER MANAGEMENT

1. Permanent septic tanks will not be used in the Parrish Lakes DRI. (ADA/Page 18-2)

STORMWATER MANAGEMENT

1. The project's stormwater management system and reuse of reclaimed water for irrigation will be integrated into the project in a way that furthers SWFWMD's goal of maintaining minimum flows and levels for natural wetlands, as well as ensuring

that surface and ground water quality during the after-development will meet or exceed all State and local water quality standards. (ADA/Page 10-26)

2. Control structures will be baffled to preclude the discharge of floatables and be provided with bleed down orifices or V-notches sized to the appropriate SWFWMD criteria. (ADA/Page 19-2)
3. Legal entities will be charged with the operation and maintenance of the stormwater system(s). The developer and/or his assigns, including possible purchasers of individual tracts, a community development or stewardship district, or lawfully created homeowners association(s), will assume the responsibility to manage the system at full development. (ADA/Page 19-3)
4. The Applicant will schedule a pre-application meeting with SWFWMD prior to initiating the stormwater design for the development, within which all of these regulatory requirements can be addressed. (SR1/Page 19-2 & SR2/Page 19-3)

TRANSPORTATION

1. No age restricted units are [/were] assumed in the project or in the transportation analysis. (SR1/Page 10-8)
2. The Applicant will commit to coordinate with MCAT [Manatee County Area Transit] at the time of development on the location and needs for bus stops and shelters along Moccasin Wallow and Erie Roads. (SR1/Page 10-13)
- ~~2-3.~~ Parcel C-7 has been defined in the GDP as a K-12 Public Charter School/ Early Learning Center (ELC) or as a residential use for 20 dwelling units. The trip generation was done for the residential units only. Therefore, a new traffic study for the whole development is required if a School/ELC is approved in the GDP.

AIR QUALITY

1. The project will either be improving these (intersection) facilities to an acceptable level of service or paying for its proportionate share to mitigate these facilities as part of the project mitigation, therefore eliminating or mitigating any air quality impacts. (SR2/Page 22-1)

AFFORDABLE HOUSING

- ~~1. The Applicant has proposed a “Voluntary Affordable Housing/Workforce Housing” mitigation program. (SR2/Exhibit 24-1)~~

POLICE & FIRE PROTECTION

The Applicant will cooperate with Manatee County officials in locating facilities to serve Parrish Lakes, should fire or police facilities be required in the future. (ADA/Page 25-1)

RECREATION AND OPEN SPACE

1. The project's extensive recreation opportunities, including pedestrian nature trails/paths, sidewalks, and bike paths, will provide alternatives to the utilization of motor vehicles. (ADA/Page 10-27)
2. On-site parks and open space facilities will be maintained by an appropriate entity, such as a Community Development or Stewardship District or Homeowners Association. (ADA/Page 26-1)
3. The quantity of parks and the requirements to prepare a Parks Master Plan shall be specifically addressed within the Development Order. (SR2/Page 9-4)
4. The Applicant commits to up to 26 acres of parks to be contained within the project. Parrish Lakes will develop parks at a rate of 0.8 acres of park per 100 units. (SR2/Pages 26-1 & 26-2) [\(Completed\)](#)
5. The Applicant will provide the frontage [along Erie Road for the Ellenton-Willow Trail]. The trail to be provided shall be consistent in width, and configuration as other projects along Erie Road. (SR2/Page 26-2)

HEALTH CARE

1. The Applicant will work with the County on any suitable cost sharing that may be required. This commitment was in association with the "cost of land acquisition, construction, and equipping of emergency service facilities for emergency medical services." Currently, the nearest EMS facility is approximately 4.5 miles away along US 301, at 12132 US 301 North, in Parrish. (SR1/Page 28-1/updated pursuant to new facility information)
2. The Applicant has acknowledged that "any approved gates or emergency access points within or to the project should be accessible to emergency service providers by a remote control, in accordance with Manatee County Ordinance No. 09-22." (SR2/Page 28-2)

ENERGY

1. Energy conservation methods to be used in the site planning process include provision of interconnected streets and sidewalks to promote walking and biking throughout the project to decrease vehicle dependency. Retail and office development will utilize energy efficient appliances, building insulation and technologies to increase energy efficiency. Energy efficient landscape design

principles to maximize the shading of structures, minimize evapotranspiration and microclimate control will be considered while meeting the required landscape code. (ADA/Page 29-3)

SECTION 7. LEGAL DESCRIPTION:

SECTION 22:

~~A. BEGIN AT THE NE CORNER OF SECTION 22, TOWNSHIP 33 SOUTH, RANGE 18 EAST, MANATEE COUNTY, FLORIDA; THENCE S 89° 14' 16" W, ALONG THE NORTH LINE OF SAID SECTION 22 A DISTANCE OF 2662.42 FEET TO THE NW CORNER OF THE NE 1/4 OF SAID SECTION 22; THENCE S 1° 12' 58" W ALONG THE WEST LINE OF THE E 1/2 OF SAID SECTION 22, 2550.79 FEET TO ITS INTERSECTION WITH A FENCE LINE; THENCE N 87° 57' 37" E, ALONG SAID FENCE LINE, 2449.22 FEET TO A FENCE CORNER; THENCE CONTINUE N 87° 57' 37" E, 166.08 FEET TO A POINT ON THE EAST LINE OF SAID SECTION 22; THENCE N 2° 32' 17" E, 2495.01 FEET TO THE P.O.B. LESS THE NORTH 40 FEET FOR ROAD R/W. CONTAINING 150.63 ACRES MORE OR LESS.~~

~~B. COMMENCE AT THE NE CORNER OF SECTION 22, TOWNSHIP 33 SOUTH, RANGE 18 EAST, MANATEE COUNTY, FLORIDA; THENCE S 2° 32' 17" W, ALONG EAST LINE OF SAID SECTION 22 A DISTANCE OF 2495.01 FEET FOR A POINT OF BEGINNING; THENCE CONTINUE S 2° 32' 17" W, ALONG SAID SECTION LINE, 1491.85 FEET; THENCE WEST, ALONG CENTERLINE OF A CANAL 63.30 FEET; THENCE N 1° 24' 46" W, 1484.92 FEET; THENCE N 87° 57' 37" E, 166.08 FEET TO THE P.O.B. CONTAINING 3.91 ACRES MORE OR LESS.~~

SECTION 8. RESTRICTIONS ON DOWN-ZONING:

Prior to the buildout date of this Development Order, the County shall not down-zone or reduce the intensity or unit density permitted by this Development Order, unless the County can demonstrate that:

- A. Substantial changes in the condition underlying the approval of the Order have occurred; or
- B. The Order was based upon substantially inaccurate information provided by the Developer*; or
- C. The change is clearly established by the County* to be essential for the public health, safety, or welfare.

Any down-zoning or reduction in intensity or unit density shall be affected only through the usual and customary procedures required by statute or ordinance for change in local land development regulations.

For the purposes of this Order, the term "down-zone" shall refer only to changes in zoning, land use, or development regulations that decrease the development rights approved by this Order, and nothing in this paragraph shall be construed to prohibit legally enacted changes in zoning regulations which do not decrease the development rights granted to the Developer* by this Order. The inclusion of this section is not to be construed as evidencing any present or foreseeable intent on the part of the County* to down-zone or alter the density of the Project*, but is included herein to comply with paragraph 380.06(15)(c)3, Florida Statutes.

SECTION 9. ORDER BINDING UPON DEVELOPER*:

This Order shall be binding upon the Developer*.

SECTION 10. RENDITION:

~~Manatee County is hereby directed to send certified copies of this Order within thirty days of the date of signature by the Chairman of the Board of County Commissioners to the Developer*, the State Planning Agency and TBRPC. Florida Statutes Chapter 380.06(6) - Notwithstanding any condition in a development order for an approved development of regional impact, the developer is not required to submit an annual or a biennial report on the development of regional impact to the local government, the regional planning agency, the state land planning agency, and all affected permit agencies unless required to do so by the local government that has jurisdiction over the development. The penalty for failure to file such a required report is as prescribed by the local government.~~

SECTION 11. NOTICE OF RECORDING:

The Developer* shall record a notice of adoption of this Order, as required pursuant to Chapter 380, Florida Statutes, and shall furnish Manatee County with a copy of the recorded notice.

SECTION 12. SEVERABILITY:

It is the intent of this Development Order to comply with the requirements of all applicable law and constitutional requirements. If any provision or portion of this Development Order is declared by any court of competent jurisdiction to be void, unconstitutional, or unenforceable, then such provision or portion shall be deemed null and void, but all remaining provisions and portions of this Development Order shall remain in full force and effect.

SECTION 13. EFFECTIVE DATE:

This Ordinance, Ordinance ~~17-3625-02~~, shall become effective upon the filing of a certified copy of the executed Ordinance with the Department of State; and provided, however, that (a) the filing of a Notice of Appeal pursuant to Section 380.07, Florida Statutes, shall suspend development authorization granted for this Development Order until the resolution of the appeal.

ADOPTED AND APPROVED WITH A QUORUM PRESENT AND VOTING THIS 5th DAY OF OCTOBER, 2017.

Parrish Lakes Neighborhood Workshop Summary

Representatives from Grimes Galvano and Metro Development Group conducted a virtual Neighborhood Workshop on April 20, 2026 via Microsoft Teams. The workshop began accepting attendees into the meeting at 6:00 PM and approximately 19 individuals were in attendance over the course of the meeting. The following individuals were present on behalf of the applicant:

- Marshall Robinson, Planner – Grimes Galvano
- Justin O'Brien – Metro Development Group
- Emily Dubel – Metro Development Group
- Lucas Carlo, PE – Hamilton Engineering
- Ryan McCaffrey, AICP – Hamilton Engineering
- Steve Henry, PE – Traffic & Mobility Consultants

A formal presentation was delivered by the applicant team, with Marshall Robinson outlining the history of the project, associated approvals, and the proposed modifications under the current applications. Justin O'Brien walked attendees through the land use exchange mechanism, infrastructure improvements, and summarized the proposed development changes. An open Q&A session followed the presentation where attendees were invited to ask/submit questions for discussion.

Presentation

Project Overview and Location

Introduced Parrish Lakes (Seaire), a master-planned mixed-use community in Manatee County, including aerial photography and future land use and zoning maps to orient attendees to the project.

History of Approvals

Summarized the project's governing documents and approval timeline from 2010 through the most recent 2024 GDP amendment, establishing context for the three companion applications now before the County.

Current Applications

Described the GDP Amendment, DRI Amendment, and Comprehensive Plan Amendment as a coordinated set of applications and explained the Land Use Equivalency Matrix (LUEM) as the mechanism allowing land use adjustments and how that translates to the specific entitlement adjustments being requested in each of the governing documents.

Project Infrastructure

Highlighted infrastructure being constructed by the developer in excess of the minimum requirements for the proposed uses within the development to improve traffic flow and support regional growth.

Q&A and Discussion

Following the presentation, the meeting was opened for public comment and questions. Questions were submitted both verbally and via the Teams chat.

Community members used the workshop as an opportunity to learn more about the proposed development changes and the anticipated timeline for construction activity within the community.

Questions were raised about the proposed changes to the residential unit mix, including where new townhomes would be located, whether they would be for sale or for rent, and the status of the existing apartment entitlements.

Attendees asked about roadway timing and pedestrian connectivity within the community, including planned EV paths, when Carter Road and Sawgrass Road would open to traffic/connect with Erie Road, and whether golf cart and/or sidewalk access would be provided along Moccasin Wallow Road.

Questions were also raised regarding buffering adjacent to neighboring properties, commercial tenants coming to the project, building height limits, the funding mechanism behind developer-constructed stormwater infrastructure, and CDD maintenance responsibilities. The overall entitlement process was also discussed.

Some participants requested additional materials and information. Those participants were asked to provide their contact information, and the applicant team followed up within the next few days with the materials and information requested.

All feedback was documented by the project team for consideration during the application review. The meeting ended after all attendees had the opportunity to ask questions of the team, concluding at approximately 6:57 pm.

MANATEE COUNTY GOVERNMENT

STATE OF FLORIDA

COUNTY OF MANATEE

Before the undersigned authority personally appeared **Abigail Bonds**, who on oath says that she is a **County Employee of Manatee County Government, Manatee County, Florida**; that the attached copy of advertisement, being a public notice in the matters of **Notice of Zoning Changes in Unincorporated Manatee County** for the **Manatee County Board of Commissioner Land Use Meeting on June 4, 2026**, in Manatee County Florida, was published on the publicly accessible website of Manatee County Government, Manatee County, Florida, of www.mymanatee.org on **May 22, 2026**.

Affiant further says that the website complies with all legal requirements for publication in Chapter 50, Florida Statutes.

NOTICE OF PUBLIC HEARING

NOTICE OF ZONING CHANGES IN UNINCORPORATED MANATEE COUNTY

NOTICE IS HEREBY GIVEN, that the **Planning Commission of Manatee County** will conduct a Public Hearing on **June 4, 2026 at 9:00 a.m. or as soon thereafter as same may be heard at the Manatee County Government Administrative Center, 1st Floor, Patricia M. Glass Chambers, 1112 Manatee Avenue West, Bradenton Florida** to consider, act upon, and forward a recommendation to the Board of County Commissioners on the following matters:

ORDINANCE NO. 26-15 – PARRISH LAKES DRI #28 – [PLN2408-0048](#)

An Ordinance of the Board of County Commissioners of Manatee County, Florida, amending and restating a Development Order pursuant to Chapter 380, Florida Statutes, for the Parrish Lakes Development of Regional Impact, (Ordinance 17-36) (DRI #28); to approve the following changes to Map H and the Development Order to: 1) increase the number of overall residential entitlements from 3,401 dwelling units to 3,778 dwelling units; 2) revise the dwelling types to decrease the number of detached units from 2,421 to 2,385, and increase the number of attached units from 580 to 993; 3) decrease the total commercial/retail square footage from 260,000 square feet to 211,750 square feet; (188,219 square feet shopping center and 23,531 square feet lagoon); 4) include a school as a permitted use; 5) remove Affordable Housing Conditions (fka Stipulations) M.1 through M.12; and 6) remove “EE Road” from Map H and replace with local road, and 7) align Phase I and II buildout dates to 2036; on an application for an amended development approval (ADA), filed by FLM, Inc. Hawk Parrish Lakes, LLC., CNL Parrish Lakes East, LLC., and CNL Parrish Lakes West, LLC; providing for development rights, conditions, and obligations; providing for severability and providing an effective date.

The Parrish Lakes DRI consists of approximately 1,155 acres, is zoned Planned Development Mixed Use (PDMU), and is generally located on the south side of Moccasin Wallow Road, approximately 0.74 miles east of I-75, and north side of Erie Road, at 7205 and 8505 Moccasin Wallow Road, and 7400, 7205, 7707, and 7800 Sawgrass Road, extending from Moccasin Wallow Road to Erie Road, Palmetto and Parrish (Manatee County).

PDMU-16-16(G)(R3) – PARRISH LAKES GDP AMENDMENT – HAWK PARRISH LAKES, LLC., CNL PARRISH LAKES EAST, LLC., CNL PARRISH LAKES WEST, LLC., AND FLM INC. – [PLN2408-0049](#)

An Ordinance of the Board of County Commissioners of Manatee County, Florida, regarding land development, amending Ordinance PDMU-16-16(G)(R2) to approve a land use exchange, a revised General Development Plan, and a revised Ordinance as follows: 1) Increase the total number of residential entitlements from 3,401 dwelling units to 3,778 dwelling units; 2) modify the composition of the residential product types to decrease the number of single-family detached units from 2,421 to 2,385 and increase single-family attached units from 580 to 993 units; 3) decrease the total commercial entitlements from 260,000 square feet to 211,750 square feet; 4) include a school as a permitted use; 5) remove Affordable Housing Conditions (fka Stipulations) P.1 through P.12; and 6) redesignate “EE” Road as a local road on the General Development Plan; and 7) allow Phase I and Phase II buildout dates to be completed in 2036, subject to conditions of approval voluntarily proffered by the Applicant; setting forth findings; providing a legal description; providing for severability; and providing an effective date.

The Parrish Lakes DRI consist of approximately 1,155 acres, is zoned Planned Development Mixed Use (PDMU), and is generally located on the south side of Moccasin Wallow Road, approximately 0.74 miles east of I-75, and north side of Erie Road, at 7205, and 8505 Moccasin Wallow Road, and 7400, 7205, 7707, and 7800 Sawgrass Road, extending from Moccasin Wallow Road to Erie Road, Palmetto and Parrish (Manatee County).

PDC-25-21(Z)(P) – PALMETTO GROCERY – CAROL GORE AND CHARLES J ELMORE; MICHAEL GARDNER; AND JAMES AND REBECCA HESTER (OWNERS) – [PLN2509-0183](#)

An Ordinance of the Board of County Commissioners of Manatee County, Florida, regarding land development, amending the Official Zoning Atlas (Ordinance 15-17, as amended, the Manatee County Land Development Code), relating to zoning within the unincorporated area, generally located in the northeast quadrant of the intersection of Moccasin Wallow Road and Bud Rhoden Road, Palmetto (Manatee County), providing for a rezone of approximately 9.97 acres from Agricultural Suburban (A-1) (2.54 acres) and Neighborhood Commercial – Medium (NC-M) (7.43 acres) to Planned Development Commercial (PDC) Zoning District; approving a Preliminary Site Plan for up to 57,064 square feet of Retail/Commercial Shopping Center; subject to conditions of approval as voluntarily proffered by the Applicant; setting forth findings; providing a legal description; providing for severability; and providing an effective date.

PDR-25-06(Z)(P) – IVY RUN – 16TH DRIVE ASSOCIATES LLC; CRAIG WALTER PURCELL; JAMES C DRAO AND HEATHER D DRAO (OWNERS) – [PLN2503-0127](#) TO BE CONTINUED TO SEPTEMBER 3, 2026

An Ordinance of the Board of County Commissioners of Manatee County, Florida, regarding land development, amending the Official Zoning Atlas (Ordinance 15-17, as amended, the Manatee County Land Development Code), relating to zoning within the unincorporated area, generally located approximately 1,600 feet east of Rye Road and south of Waterline Road, Bradenton (Manatee County), providing for a rezone of eight parcels, approximately 51.67 acres from General Agriculture (A) to Planned Development Residential (PDR) Zoning District; generally located approximately 1,600 feet east of Rye Road and South of Waterline Road and commonly known as No Number Assigned, 14857, 14957, 15007, and 15057 16th Drive East, and 15016, 15026, and 15108 Waterline Road in Bradenton (Manatee County); approving a Preliminary Site Plan for up to 131 single-family detached residential units; subject to voluntarily proffered conditions of approval; setting forth findings; providing a legal description; providing for severability; and providing an effective date.

The approve development uses include but are not limited to: mining activities, beneficiation activities, transportation of sand and clay, transportation activities and reclamation activities.

All interested parties may appear and be heard at the meeting with respect to the proposed Ordinances, subject to proper rules of conduct. Additionally, any written comments filed with the Director of the Development Services Department will be heard and considered by the Planning Commission.

It is important that all parties present their concerns to the Planning Commission in as much detail as possible. The issues identified at the Planning Commission hearing will be the primary basis for the final decision by the Board of County Commissioners.

Interested parties may examine the Official Zoning Atlas, Ordinances, the applications, related documents, and may obtain assistance regarding these matters from the Manatee County Development Services Department, 1112 Manatee Avenue West, Bradenton, Florida, telephone number (941) 748-4501 x6878; e-mail to planning.agenda@mymanatee.org.

Rules of procedure for this public hearing are in effect pursuant to Resolution 25-013. A copy of this Resolution is available for review or purchase from the Development Services Department (see address below).

Please send comments to: Manatee County Development Services Department

Comment	I oppose LDA 15-01(R)-PLN2407-0200. Road infrastructure and schools cannot support 478 additional homes with an average of at least 2 cars per home and the schools close by already at maximum capacity. We don't have enough amenities to support our current population let alone adding such a significant number of people.

Comment	Hello, I strongly oppose the increase of Parrish Lakes increase from 3,300 to 3,778 dwelling units. 478 units, potentially 956 vehicles per household. Construction on Moccasin Wallow is indefinite, Erie Rd. is under developed. Roads, infrastructure, and schools are ill-equipped. Slow the development. Thank you.

Comment	Totally against dwelling units from 3,465 to 3,807 and removing first five year limitations (ending in 2025) Parrish has become a place to put as many home as can fill up woods and wet lands it is horrible what county has allowed to happen to a once place for wildlife and homes with acres. Less is more and greed is what is happening! Do not want to be Tampa! Railroad track was bought by county to make an nature trail that is a joke! Now that you need to widen erie rd us it and don't take anymore from people who live on it! We don't want a natural trail with houses and road ways to look at. Stop and have feeling what if it was happening to you ?

Topic/Agenda Item	Re: Application: Ordinance 26-16 / PA-24-11- PLN2408-0047 & Ordinance NO. 26-15 - PLN2408- 0048 & PDMU-16-16(G (R3) -PLN2408-0049 - Parrish Lakes CPA. DRI and GDP
Comment	This proposal is worse for our community. It will decrease the commercial square footage while instead jamming more houses in (while shifting from single family to multi-family). This is worse for property values of existing owners such as myself, and adds to an already overcrowded expansion in the city with Parrish has not built the infrastructure for in advance. Many people in this community purchased homes with existing plans. Changing those plans now, after the fact is not reasonable and not acceptable to the homeowners in this location. This is not something that the residents want. I plead with you to take this feedback into account with your decision on this proposal.

Topic/Agenda Item	Ordinance 26-16 / PA-24-11- Parrish Lakes CPA Large-Scale Comprehensive Plan Map and Text Amendment -PLN2408-0047 - Quasi-Judicial - CJ Mills, Planner II - District 1
Comment	The primary points to counter are the 10.2% increase in housing density combined with the removal of a planned collector road. Key Fact-Based Counter-Arguments 1. Reduced Road Capacity and Increased Regional Traffic Congestion FACT: This application requests to (1) remove "EE" from the Twenty-Year Roadway Requirements list (Table 5-1), and (2) reclassify it from a "Collector" roadway to a "local road."ARGUMENT: regional bottlenecking: Collector roads are essential infrastructure designed to move traffic from local neighborhoods to arterial roads (like I-75 or US-301). By deleting this planned road, the developer is eliminating a critical release valve for traffic. Worsening an existing problem: Moccasin Wallow Road is already a heavily stressed corridor. Forcing the traffic from 3,807 units onto fewer roads—without the planned collector—guarantees slower commute times for all residents in the North River area. Local road failure: Reclassifying "EE" as a local road means it will not be built to handle regional through-traffic volumes, leading to failure and maintenance issues on a road paid for by taxpayers. 2. Unmanaged, Unpaced Growth Overwhelms Community Infrastructure FACT: This application asks to delete the established provision: "Subsection D.5.9.1.(2) – Maximum Development Potential for the first five years."ARGUMENT: Infrastructure LAG: This provision was put in place to ensure that development does not occur faster than Manatee County can build the roads, sewer, and public safety infrastructure needed to support it. Removing it removes the community's safety pacing. No phased accountability: By removing the first-five-year cap, the developer can build all 3,807 units immediately. This could leave the Parrish area with thousands of new homes before necessary county infrastructure projects are even designed. 3. Strain on Public Schools and Total Omission of School Impact FACT: The application requests a significant 10.2% residential entitlement increase (from 3,465 to 3,807 dwelling units), a gain of 342 extra homes.ARGUMENT: Missing critical analysis: The submitted background text is critically flawed because it provides zero data on school capacity. 342 additional homes could generate hundreds of additional students. Overcapacity schools: North County schools are already facing extreme overcrowding pressures. To approve more homes without a binding commitment from the developer to address student generation is fiscally irresponsible. 4. Heightened Public Safety and Hurricane Evacuation Risk FACT: This application dated April 2026 falls under the regulatory landscape altered by Florida Senate Bill 180 (2025). This state law significantly preempts local government control over land-use regulations after major hurricanes.ARGUMENT: Critical time to plan: Because SB 180 prevents counties from adopting stricter land-use or growth-

management rules after a major storm, it is critical that Manatee County Commissioner's establish the correct road network and population density before a catastrophic event.

Evacuation bottlenecks: Removing the planned collector Road "EE" while increasing the population density creates a high-risk situation during mandatory hurricane evacuations, trapping residents in gridlock.

5. Creates a Bedroom Community, increasing Trip Lengths

FACT: While residential density is increasing by 10%, the application requests "no change" to the non-residential (commercial/office) entitlements of 750,000 square feet.ARGUMENT:

Undermines Mixed-Use goal: The property's land use is "Mixed-Use (MU)." By adding hundreds of homes without a single square foot of additional job or retail space, this DRI shifts further towards a "bedroom community."

Increases driving: Residents of the 342 extra homes will have fewer opportunities to shop or work near their homes, forcing them onto Moccasin Wallow Road for almost every daily need, adding to the traffic problem described above.

Summary Conclusion of Fact-Based Argument

This application to increase density while reducing planned road capacity and removing growth-pacing safeguards is internally inconsistent with sound planning principles. It prioritizes maximizing short-term unit counts over the long-term safety, infrastructure capacity, and quality of life for Parrish residents. Approval will exacerbate regional traffic gridlock, strain overcapacity schools, and create dangerous bottlenecks during emergency events.

Topic/Agenda Item	Ordinance 26-16 / PA-24-11- Parrish Lakes CPA Large-Scale Comprehensive Plan Map and Text Amendment -PLN2408-0047 - Quasi-Judicial
Comment	OBJECTION to Ordinance 26-16 / PA-24-11 (Parrish Lakes CPA Large-Scale Comprehensive Plan Amendment) To the Members of the Planning Commission and the Board of County Commissioners, I am writing to formally state my strenuous opposition to Ordinance 26-16 / PA-24-11 (PLN2408-0047) regarding the Parrish Lakes Comprehensive Plan Map and Text Amendment. This proposal represents a fundamental threat to the infrastructure, safety, and rural character of North County, and the timing of its consideration is an affront to the principles of representative government. I urge the Commission to recommend denial or, at the very least, a continuance based on the following critical concerns: 1. Fundamental Lack of Representation District 1 is currently the largest and most rapidly developing district in Manatee County. It is the epicenter of our current rezoning battles, traffic congestion, and rural preservation efforts. Yet, as of this hearing, District 1 has no seated Commissioner. To move forward with a Large-Scale Comprehensive Plan Amendment—the very "blueprint" for our community's next decade—while the most impacted residents are without a voice on the dais is a failure of governance. Public trust is built on representation. Pushing this through now sends a clear message that administrative speed is being prioritized over the democratic rights of District 1 residents. 2. Irresponsible Density Increases & Infrastructure Removal The amendment seeks to increase residential entitlements from 3,465 to 3,807 dwelling units while simultaneously removing safeguards and infrastructure: Removal of Road "EE": Reclassifying a planned Collector roadway to a "local road" and removing it from the Twenty Year Roadway Requirements is a recipe for gridlock. You cannot add hundreds of new homes while deleting the very thoroughfares meant to carry that traffic. Deletion of Subsection D.5.9.1.(2): Removing the maximum development potential for the first five years eliminates the County's ability to pace growth with infrastructure. This "all-at-once" approach will overwhelm our existing road networks, specifically Moccasin Wallow and Erie Road. 3. Flooding and Environmental Neglect North County is already struggling with significant drainage and flooding issues caused by rapid over-development. This amendment ignores the cumulative impact that nearly 4,000 units will have on the local watershed and wetlands. A Comprehensive Plan should protect the land and the people already living on it; this amendment appears to do the opposite by prioritizing maximum density over environmental stability. 4. Long-Term Consequences This is not a minor housekeeping item. This text amendment will dictate the density and traffic patterns of Palmetto and Parrish for at least the next 10 years. There is no legitimate emergency that justifies rushing this decision before a District 1 representative is seated and able to advocate for their constituents. Conclusion The residents of District 1 deserve to have a Commissioner who can engage, challenge assumptions, and represent the people who will have to live with the consequences of this density. I ask that you hold this application until District 1 is fully represented, or deny it outright based on the clear lack of supporting infrastructure for the proposed density increase. Topic/Agenda Item	PDMU-16-16(G)(R3) – Parrish Lakes GDP Amendment – FLM INC. – PLN2408-0049- Quasi-Judicial-CJ Mills, Planner II - District 1
Comment	1. The "Due Process" Argument (Procedural Fairness) In Florida, land use hearings are quasi-judicial. This means they must follow basic principles of fairness. • The Argument: Residents of District 1 are being deprived of their specific advocate who possesses "local knowledge" essential to evaluating Competent Substantial Evidence (the legal standard for these hearings). • Case Law / Principle: While Board of County Commissioners of Brevard County v. Snyder (627 So.2d 469) establishes the rules for these hearings, the case of Jennings v. Dade County (589 So. 2d 1337) emphasizes that the hearing must be "fair and impartial." You can argue that a hearing regarding a massive project like Parrish Lakes—which fundamentally changes the landscape of District 1—cannot be "fair" when the seat specifically designated to represent that geography is vacant. 2. The Planning Board's Authority The Planning Board is an advisory body. They have the standing to recommend a continuance to the Board of County Commissioners (BoCC) based on the "incompleteness of the record" or "procedural inequity." • Standing: They can move to continue the item on the grounds that the Technical Support Document or the public outreach (required by the Comp Plan) cannot be fully vetted without the participation of the district's representative. • Action: A member of the Planning Board can make a motion: "I move to continue this item until such time as the District 1 seat is filled, to ensure the procedural due process rights of the residents of the affected district are protected." 3. "Representational Standing" Florida courts recognize "Representational Standing" (e.g., Florida Home Builders Ass'n v. Dept. of Community Affairs). • The Strategy: A formal group (like a Parrish Homeowners Association) could argue that the vacancy creates a "Structural Due Process" error. By proceeding on a project of this magnitude without a District 1 representative, the County is effectively "silencing" a specific class of citizens (District 1 voters) in a way that other districts are not. 4. Manatee County Land Development Code (LDC) Check LDC Section 312.8 (Continuances). The Board has broad discretionary power to grant a continuance for "good cause." • Good Cause: The death of a sitting commissioner and the pending appointment of a successor is historically viewed as "good cause" in administrative law. • The Trap: Be aware that Florida Statute 163.3167(2) and recent laws (like HB 7103) force counties to act on applications within certain timeframes. Developers may threaten to "clock" the county if they delay too long. Recommended Strategy for the Hearing Since you are a board member, you can urge the Planning Board to pass a Resolution of Concern to the BoCC stating: 1. Fundamental Fairness: That proceeding on a DRI (Development of Regional Impact) of 1,155 acres without a District 1 representative violates the spirit of the Comprehensive Plan's community participation goals. 2. Incomplete Record: That the "Board" cannot fully weigh the impacts on Parrish infrastructure without the input of the representative who was intimately familiar with those specific failing roads and wetlands. For the Record Glen Gibellina https://electglengibellina.com/

Topic/Agenda Item	FUTURE AGENDA ITEMS
Comment	A RESOLUTION OF THE MANATEE COUNTY PLANNING BOARD RECOMMENDING A CONTINUANCE OF ADVISORY HEARINGS REGARDING THE PARRISH LAKES DRI AND GDP AMENDMENTS. WHEREAS, the Manatee County Planning Board is tasked with the duty of reviewing land use applications to ensure compliance with the Manatee County Comprehensive Plan and Land Development Code; and, WHEREAS, quasi-judicial land use hearings in Florida must adhere to the fundamental principles of due process and procedural fairness as established in cases such as Jennings v. Dade County (589 So. 2d 1337), requiring that such hearings be "fair and impartial"; and, WHEREAS, the 1,155-acre Parrish Lakes Development of Regional Impact (DRI) and General Development Plan (GDP) amendments (Items PLN2408-0048 and PLN2408-0049) are located entirely within District 1 of Manatee County; and, WHEREAS, following the recent and unexpected passing of Commissioner Carol Felts, the seat for District 1 is currently vacant, leaving the residents and infrastructure of the Parrish and Palmetto communities without a sitting district-level representative to vet the competent substantial evidence presented by the developer; and, WHEREAS, the Planning Board finds that it cannot fully assess the localized impacts of this massive density increase and the reduction of commercial and affordable housing obligations without the critical "local knowledge" and input that a dedicated District 1 Commissioner provides; and, WHEREAS, Manatee County Land Development Code (LDC) Section 312.8 grants the authority to grant a continuance for "good cause," which the death of a sitting commissioner and the resulting representational vacancy certainly constitutes; NOW, THEREFORE, BE IT RESOLVED BY THE MANATEE COUNTY PLANNING BOARD: Motion for Continuance. The Planning Board strongly recommends that the Board of County Commissioners (BoCC) continue the public hearings for Ordinance No. 26-15 (Parrish Lakes DRI #28) and PDMU-16-16(G)(R3) (GDP Amendment). Duration. This continuance should remain in effect until such time as a successor is appointed or elected to fill the District 1 vacancy and is seated on the Board of County Commissioners. Rationale. The Planning Board finds that proceeding on a project of this magnitude without District 1 representation violates the procedural due process rights of the residents of that district, and that a vote under these circumstances creates an appearance of procedural inequity that compromises the integrity of the public process. Passed and Adopted this ____ day of _____, 2026. MANATEE COUNTY PLANNING BOARD https://electglengibellina.com/

Which meeting is this public comment for? (Please select date of meeting)	May 14, 2026
Topic/Agenda Item	Ordinance No. 26-15 – Parrish Lakes DRI #28 – PLN2408-0048 - Quasi-Judicial - CJ Mills, Planner II - District 1
Comment	I am writing to formally enter my strongest opposition to the proposed amendments for the Parrish Lakes Development of Regional Impact (DRI #28). This request to increase density while simultaneously stripping away affordable housing requirements and infrastructure obligations is an affront to the residents of North County. Moving forward with a project of this magnitude under the current circumstances is not just bad planning—it is a failure of representative governance. 1. Taxation Without Representation: The District 1 Vacancy District 1 is currently without a sitting Commissioner. To vote on a massive expansion of a 1,155-acre DRI that fundamentally alters the landscape of Parrish and Palmetto while the residents of that district have no dedicated voice on this Board is unconscionable. This item should be continued until a representative for District 1 is seated to advocate for the specific needs and safety of those constituents. 2. The Infrastructure Deficit The proposal seeks to increase residential entitlements from 3,401 to 3,778 units and significantly increase "attached" units. Traffic: Moccasin Wallow Road and Erie Road are already failing. Adding hundreds of additional high-intensity units while removing "EE" Road from Map H in favor of local roads is a recipe for gridlock. Fiscal Imbalance: You are being asked to decrease commercial/retail space by nearly 50,000 square feet. This reduces the future tax base and local job opportunities, turning Parrish Lakes into a massive commuter bedroom community that further drains our road capacity. 3. The Affordable Housing Betrayal As a member of the Manatee County Affordable Housing Advisory Board, I am appalled by Item #5 of this request: the removal of Affordable Housing Conditions M.1 through M.12. At a time when this Board claims to prioritize "attainable housing," allowing a developer to strip away twelve specific stipulations designed to ensure housing diversity is a betrayal of the public trust. We cannot solve a housing crisis by allowing developers to delete their obligations from a Development Order the moment those obligations become "inconvenient." 4. Density Without Design Increasing density while decreasing the commercial "live-work" balance and removing infrastructure guardrails is the definition of "density to the destruction of Manatee County." The Parrish area is already suffering from "developer-driven" planning where rooftops outpace roads, schools, and utilities. I urge this Board to DENY Ordinance No. 26-15 or, at the very least, CONTINUE this quasi-judicial hearing until: A District 1 Commissioner is seated to represent the affected area. A full, updated traffic impact analysis is provided that accounts for the increase in attached units. The developer explains why, in the midst of a housing crisis, they should be allowed to walk away from Affordable Housing Conditions M.1-M.12. Manatee County deserves a Comprehensive Plan and individual Development Orders that protect the people, not just the profits of the DRI applicants.

Sincerely,

Glen Gibellina

Topic/Agenda Item	PDMU-16-16(G)(R3) – Parrish Lakes GDP Amendment – FLM INC. – PLN2408-0049- Quasi-Judicial-CJ Mills, Planner II - District 1
Comment	RE: STRONGEST OPPOSITION to PDMU-16-16(G)(R3) – Parrish Lakes GDP Amendment (PLN2408-0049) Dear Commissioners, I am writing to formally enter into the record my strongest opposition to the proposed amendments for the Parrish Lakes General Development Plan (GDP). This application represents a textbook example of "density to the destruction of Manatee County"—asking for more rooftops while simultaneously stripping away the very infrastructure and community benefits that were promised to justify this project in the first place. As a resident who has witnessed 40 years of growth in this county, I find this specific proposal to be an egregious overreach for the following reasons: 1. Taxation Without Representation: The District 1 Vacancy The Parrish Lakes DRI consists of 1,155 acres squarely within District 1. As this Board is well aware, District 1 currently has no sitting Commissioner. To hold a quasi-judicial hearing of this magnitude—one that fundamentally alters the density and traffic patterns of Parrish—while the residents of that district have no elected voice to advocate for them is a failure of the democratic process. This item should be continued until a representative is seated. 2. The Infrastructure Bait-and-Switch The developer is asking to increase residential entitlements to 3,778 units while specifically requesting to redesignate "EE" Road as a Local road. This is a dangerous precedent. You cannot increase the intensity of use (adding nearly 400 additional units and shifting toward high-density attached housing) while simultaneously "down-grading" the road network designed to support it. Moccasin Wallow Road is already a corridor of concern. Turning what should be a significant thoroughfare into a "local road" is a maneuver to shift the burden of future traffic failures onto the taxpayers rather than the developer. 3. Abandoning Affordable Housing Obligations This is perhaps the most offensive aspect of the request. The developer is seeking to remove Affordable Housing Conditions P.1 through P.12. Manatee County is in the midst of a housing crisis. As a member of the Affordable Housing Advisory Board, I see the struggle for attainable housing every day. For a developer to receive a "Planned Development Mixed Use" (PDMU) designation—which often comes with increased density allowances—and then turn around and strip out twelve specific stipulations regarding affordable housing is a betrayal of the public trust. If they want the density, they must keep the responsibility. 4. Erosion of the "Live-Work" Balance The proposal seeks to decrease commercial entitlements by nearly 50,000 square feet. Every square foot of retail and commercial space lost in Parrish is another reason for a resident to have to

drive onto I-75 or Moccasin Wallow for basic goods and services.

By reducing commercial space and increasing residential units, you are creating a massive, isolated bedroom community that contributes nothing to the local jobs-to-housing balance and everything to the morning gridlock.

5. Conclusion

A "can-do" attitude from consultants like Kimley-Horn should not mean a "can-do" attitude for developer profit at the expense of public safety and infrastructure. This amendment seeks to maximize ROI for the applicant while leaving the residents of Parrish with more traffic, fewer affordable options, and downgraded roads.

I urge this Board to DENY PDMU-16-16(G)(R3). At a minimum, this Board has an ethical obligation to CONTINUE this hearing until the citizens of District 1 have an elected Commissioner to represent their interests at the dais.

Sincerely,

Glen Gibellina

Comment	Totally against dwelling units from3,465 to 3,807removing first five year limitation (ended in 2025) To many homes no more! Stop turning Parrish into Tampa because of greed ! And what is planed for Erie Rd when if need use Railroad track and do not take away from others there land! Stop and have feelings what if it was happening to you?
