CASE SUMMARY

CASE NO.: PDR-01-17(Z)(G)
APPLICANT: MANATEE JOINT VENTURE
REQUEST: Approval of a rezone from RSF-1 to PDR and approval of a General Development Plan for two single family lots; and
STAFF RECOMMENDS: APPROVAL with Limited Concerns

REQUEST, LOCATIONAL INFORMATION, AND LAND USE CHARACTERISTICS

- Approval of a Rezone and General Development Plan in conjunction with a Development of Regional Impact to allow 2 single-family residences on 4.22 acres. The project located at the southeast corner of the intersection of State Road 70 and Braden Run.
- To the NORTH, across State Road 70 is a church zoned A-1 and Braden Pines zoned RSF-1.
- To the SOUTH, across Deer Run, are single-family residences zoned RSF-1.
- To the EAST are single-family residences in Braden Woods Subdivision zoned RSF-1.
- To the WEST across Braden Run, are offices zoned .

SUMMARY: (NL)

The request is to approve a General Development Plan to allow 2 single-family residences on 4.22 acres. A request to approve the River Club Park of Commerce Development of Regional Impact and Zoning Ordinance is being processed concurrently with this request. In addition to including 2 lots, the request also includes a significant amount of open space. This open space will be used for passive recreational activities. The

The purpose for this parcel being rezoned to PDR is to assure consistency with the corresponding DRI application, which limited development on the 4 acre parcel to 2 single-family residences.

The property abuts State Road 70 and is within the Evers Reservoir Watershed.

POSITIVE ASPECTS OF THE APPLICATION

- The proposed lot sizes are consistent with lots in Braden Woods.
- Significant open space is proposed between the proposed lots and State Road 70.

NEGATIVE ASPECTS OF APPLICATION

- Residential development adjacent to State Road 70 may be adversely affected by noise.

MITIGATING FACTORS

- **A buffer, approximately 70 feet in width, is proposed between the lots and State Road 70 right-of-way.**

STIPULATIONS:

1. No septic tanks shall be permitted.
2. The applicant shall use the lowest quality of water available for irrigation purposes. Consideration shall be given to meeting the irrigation needs of the project with the following sources, in order of preference; (1) treated stormwater, and (2) non-potable quality groundwater. Prior to each Final Site Plan approval, the developer shall identify the irrigation source which will be utilized. All wells no longer needed for irrigation purposes shall be properly abandoned except for such wells as may be needed for emergency purposes.
3. The Developer shall be responsible for the maintenance of all open space areas within the project site.
4. The single-family residences shall comply with the dimensional standards of the RSF-1 zoning district.
5. The area designated as Open Space/Recreation shall be limited to Recreational Uses, Passive Activities, as defined by the Land Development Code.

DETAILED STAFF REVIEW OF THE FACTORS FOR CONSIDERATION OF REZONING PURSUANT TO SECTION 504 OF THE LAND DEVELOPMENT CODE

1. COMPATIBILITY

The site is bounded by:

North: State Road 70.

South: Deer Run, and across Deer Run are single-family residences in Braden Woods Subdivision.

East: Single-family residences in Braden Woods.

West: Braden Run and offices.

A PDR project can be designed to be compatible with the adjacent existing and approved land uses, and also take into consideration impacts relative to State Road 70. The site plan for a PDR zoned property can assure more compatibility than the existing RSF-1 zoning designation.

2. TIMING, TRENDS, CHANGES TO EXISTING CONDITIONS

The site has been zoned RSF-1 since the adoption of the 1990 Land Development Code. The properties to the west, adjacent to State Road 70, have been slowly transitioning to non-residential uses. The land to the south and east is essentially built out with single-family residences in Braden Woods Subdivision.

The proposed PDR zoning is consistent with the development trends in the area, as it will allow for a land use and site design to be responsive to existing uses and features in the area.

3. IMPACTS TO INFRASTRUCTURE

The site abuts State Road 70 to the north, a two lane arterial, and two local roads to the south and west (Deer Run and Braden Run). Impacts will be evaluated with the review of the General Development Plan.

4. GENERAL HEALTH, SAFETY & WELFARE CONCERNS

The change in zoning should have no adverse effect on the health, safety, and welfare of this area, other than those issues identified elsewhere in this report.

5. ENVIRONMENTAL & HISTORIC RESOURCE IMPACTS

The site is mostly pine flatwoods. There are not any wetlands or known historic resources on site.

The PDR zoning district requires site plan approval in which impacts to these resources, if any, will be evaluated.

6. CONSISTENCY WITH LAND DEVELOPMENT CODE AND COMPREHENSIVE PLAN

The proposed zoning atlas amendment must be in strict compliance with the Manatee County Comprehensive Plan. The following policies were considered in preparing this Staff Report and are important policies to review and consider in evaluating the proposal:

Policy 2.2.1.9.1 lists the intent of the RES-1 future land use category as those which are established for a low density suburban residential environment, or a cluster low density urban residential environment where appropriate.

Policy 2.2.1.9.3 identifies the maximum gross residential density as 1 dwelling units per acre and the maximum net residential density as 2 dwelling units per acre.

Policy 2.1.2.3 allows the consideration of new residential and non-residential development, with characteristics compatible with existing development in areas which are internal to, or are contiguous expansions of, existing development, if such areas are compatible with future areas of development.

The proposed PDR zoning has the potential to allow development consistent with these policies of the FLUC. Given the site's location adjacent to State Road 70, a planned development appears appropriate for this site.

DETAILED STAFF REVIEW OF THE GENERAL DEVELOPMENT PLAN STANDARDS:

The SITE PLAN has addressed the General Development Plan standards of the Land Development Code, Section 603.4, as follows:

1. SITE DESIGN

Two single-family lots are proposed for this outparcel with the remaining area devoted to open space. Open space will be used for Passive Recreational purposes. Both of these lots are approximately 30,000 square feet and front on Deer Run. To the north and west of the lots is the open space area mentioned above which will buffer these lots from State Road 70 and Braden Run. Because this parcel contains only two lots and does not abut non-residential land uses or zoning, a greenbelt, pursuant to Section 603.7.4.5 is not required.

2. COMPATIBILITY

The proposed lots represent an extension of similar sized lots to the east and across the street. The only identified potential incompatibility would be from noise impacts from State Road 70 traffic. However, the lots are separated from State Road 70 by an 70 foot wide heavily treed buffer.

3. PUBLIC UTILITIES/FACILITIES

The project abuts State Road 70, however no lots will abut this roadway. Lots will front Deer Run, a two lane local road.

An 8 inch waterline and 10 inch forcemain are within the Deer Run right-of-way.

4. PRESERVATION/CONSERVATION

The site is characterized as being Pine Flatwoods. There are no wetland within the project.

Over half the site is not proposed for development.

5. CONCURRENCY

Policy 2.4.1.1 allows the applicant to obtain a Certificate of Level of Service Compliance with the approval of a Development of Regional Impact. The Certificate of Level of Service will be addressed with the project's DRI approval.

6. CONSISTENCY WITH COMPREHENSIVE PLAN

The proposed General Development Plan must be in strict compliance with the Manatee County Comprehensive Plan. The following policies were considered in preparing this Staff Report and are important policies to review and consider in evaluating the proposal:

The Comprehensive Plan designates the site RES-1.

Future land use policies

Policy 2.2.1.9.1 lists the intent of the RES-1 future land use category as those which are established for a low density suburban residential environment, or a cluster low density urban residential environment where appropriate.

Policy 2.2.1.9.3 identifies the maximum gross residential density as 1 dwelling units per acre and the maximum net residential density as 2 dwelling units per acre.

General development policies

Policy 2.1.2.3 permits the consideration of new residential and non-residential development, with characteristics compatible with existing residential development, in areas which are internal to, or are contiguous expansions of existing development, if compatible with future areas of development.

Policy 2.6.1.1 requires all adjacent development that differs in use, intensity, height, and/or density to utilize land use techniques to mitigate potential incompatibilities.

Policy 2.6.1.3 require appropriate limits on net residential density to achieve compatibility between adjacent residential land uses. Limits on net density may reduce net density on a project, or part thereof, into less than the maximum net density associated with the future land use category or categories on the project site

Policy 2.6.5.3 Encourage, within currently undeveloped areas designated for new growth, and within infill development projects not creating incompatible land use patterns, the vertical integration of uses by mixing of uses within a single structure.

Policy 2.6.2.8 Utilizes the techniques of policy 2.6.1.1, as appropriate, to mitigate noise and/or other traffic impacts for residential development adjacent to major arterials and expressways.

Policy 2.9.1.1 Minimize the development of residential projects which create isolated neighborhoods.

Policy 2.9.1.2 Promote the connection and integration of community pedestrian, bicycle, and vehicular systems to the larger county systems.

Policy 2.9.1.3 Provide vehicular access between neighborhoods, particularly (but not exclusively) when part of a planned unit development containing more than one neighborhood.

Policy 2.9.1.4 Encourage the development of a variety of housing options and architectural styles within a community.

Policy 2.9.1.5 Promote the development of pedestrian friendly designs.

Policy 2.9.1.7 Encourage the development of community spaces, including usable open space and public access to water features.

Policy 2.9.1.9 Require where feasible, pedestrian and bicycle access to community spaces, schools, recreational facilities, adjacent neighborhoods, employment opportunities, professional and commercial uses.

Policy 2.2.2.2.2 states the purpose of the WO district is to maintain and improve the natural and man-made environment and resources in a manner protective of the water supply functions of the watersheds.

Policy 3.3.2.2 Require the preservation of native upland habitat during land development.

Re: River Club Park of Commerce

This letter shall serve to summarize our comments and response to the concerns raised by the Braden River Elementary School principal and several of the parents of children presently attending there. The school under the present districting system adopted by the School Board is over desired capacity.

As a developer for over 25 years in Manatee County specializing in communities creating desirable homesites for families we have actively participate in many involvements with schools:

1. Braden Woods - we actively attempted to arrange for a school site to be located within our subdivision on Morgan Johnson Road. Unfortunately, the Braden Woods residents at the time petitioned for the school to not be located within the project. Bashaw Elementary was later built on a neighboring site on Morgan Johnson Road
2. A school site was provided at a below market price on Erie Road.
3. Specifically at River Club - a 40 acre elementary and middle school was provided at a below market price (Braden River Elementary and Middle School currently are located there) before River Club was commenced.
4. As a specific condition of the River Club DRI an additional school site was provided, without any compensation to us, at a site on Rye Road - the current location of Gene Witt Elementary.

In addition to the above specific involvements with schools, we agreed within the conditions of the new DRI for River Club Park of Commerce to pay a fee (based on estimated new net students) equal to the fee paid in the US Home - Heritage Sound DRI (stipulation k-1). We also agreed that in the event a school impact fee is adopted that our Multi-Family units would be subject to the fee in accordance with stipulations k-2.

As a result of the concerns raised at the 10/11/01 planning commission meeting a series of meetings were held (with School Board representation) at the Braden River School to discuss together the issue and attempt to address their concerns and to help with their other overriding issues with the School Board. We concluded with specific adjustments on our part:

1. Certificates of occupancy for the multi-family units will be limited to the following:
 - a. 0 during the school year ending June 1, 2002
 - b. Cumulative 150 from 6/1/2002-6/1/2003
 - c. Cumulative 300 from 6/1/2003-6/1/2004
 - d. Cumulative 450 from 6/1/2004 forward
2. The trade off provision allowing us to request an additional 50 units would be eliminated
3. We would agree to support the districting of the property within the River Club Park of Commerce being re-districted to Tara Elementary rather than Braden River Elementary.

The meeting also resulted in the parents appealing to the school board officials to cause a school to be built at the proposed Loraine Road site to alleviate the current crowding at the Braden River School.

Hopefully the above addresses this issue of concern as it is equally important to all of us.

Sincerely,

Larry D'Urso
