WHEREAS, Chapter 125, Florida Statutes empowers the Board of County Commissioners of the County of Manatee to prepare and enforce comprehensive plans for the development of the county; and

WHEREAS, Sections 163.3161 through 163.3215, Florida Statutes, titled "The Local Government Comprehensive Planning and Land Development Regulation Act," empowers and requires the Board of County Commissioners of the County of Manatee (a) to plan for the county's future development and growth, (b) to adopt and amend comprehensive plans, or elements or portions thereof, to guide the future growth and development of the county, (c) to implement adopted or amended comprehensive plans by the adoption of appropriate land development regulations, and (d) to establish, support, and maintain administrative instruments and procedures to carry out the provisions and purposes of said Act; and

WHEREAS, Manatee County Ordinance 89-01, as amended, was adopted pursuant to general law for the purpose of providing a framework for land use and development in the unincorporated area of Manatee County; and

WHEREAS, Sections 163.3184 and 163.3187, Florida Statutes, titled "Process for Adoption of Comprehensive Plan or Amendment Thereto," and "Amendment of Adopted Comprehensive Plan," respectively, empowers the local government to develop and adopt comprehensive plan amendments; and

DEPARTMENT OF STATE
TALLAHASSEE FLORIDA

WHEREAS, the Manatee County Planning Commission has been established pursuant to Manatee County Ordinance 90-01; and

WHEREAS, pursuant to Section 163.3174, Florida Statutes, the Board of County Commissioners of the County of Manatee, Florida by Ordinance 90-01 duly designated said Planning Commission as the Local Planning Agency for the unincorporated area of Manatee County; and

WHEREAS, the Manatee County Planning Commission, empowered by the above cited laws and ordinances, considered an amendment to the Manatee County Comprehensive Plan, altering the comprehensive plan text, as referenced in the title of this ordinance, in order to more adequately address coordination with other agencies and jurisdictions in the planning of Manatee County's future development and growth; and

WHEREAS, the minimum statutory and plan administration requirements for public participation have been met or exceeded; and

WHEREAS, on March 8, 2001, the Manatee County Planning Commission, after due public notice, held a public hearing to consider the amendment, and forwarded its recommendation to the Board of County Commissioners as required by law; and

WHEREAS, after due public notice, the Board of County Commissioners of Manatee County received and considered the recommendation of the Manatee County Planning Commission, and held a public hearing to consider the amendment and the transmittal of the proposed amendment to the Florida Department of Community Affairs in accordance with Section 163.3184, Florida Statutes; and

WHEREAS, the State Land Planning Agency by letter dated June 4, 2001 transmitted their comments and objections on said amendment to the comprehensive plan; and

WHEREAS, said amendment to the comprehensive plan was revised as appropriate in view of comments by the State Land Planning Agency; and

WHEREAS, pursuant to Section 163.3184, Florida Statutes, on July 24, 2001 the Board of County Commissioners of the County of Manatee, Florida held another public hearing, with due public notice having been provided on said amended version of the comprehensive plan; and

WHEREAS, the Board of County Commissioners further considered all oral and written comments received during said public hearings, including appropriate changes to the Technical Support Document as needed, the recommendations of the Planning Commission, and objections, recommendations and comments of the State Land Planning Agency; and

WHEREAS, the Board of County Commissioners has determined that portions of the future land use element initially approved are no longer appropriate because a change in circumstances has been demonstrated; and

WHEREAS, in exercise of said authority, the Board of County Commissioners of the County of Manatee has determined it necessary and desirable to adopt said amendment of the comprehensive plan to preserve and enhance present advantages; encourage the most appropriate use of land, water and resources, consistent with the public interest, overcome present deficiencies and deal effectively with future problems that may result from the use and development of land within Manatee County; and

WHEREAS, the Technical Support Document for the Manatee County Comprehensive Plan includes background material and justification for the amendment to the Comprehensive Plan; and

WHEREAS, all applicable requirements of general law and local law have been followed, and the proceedings have been conducted pursuant to Chapter 163, Florida Statutes, and the Plan Format and Administration Section of the Manatee County Comprehensive Plan.

NOW, THEREFORE, BE IT ORDAINED by the Board of County Commissioners of Manatee County that:

Section 1. Purpose and Intent: This Ordinance is enacted to carry out the purpose and intent of, and exercise the authority set out, in the Local Government Comprehensive Planning and Land Development Regulation Act, Sections 163.3161 through 163.3215, Florida Statutes, and Chapter 125, Florida Statutes, as amended.

Section 2. Findings: The whereas clauses set forth above are hereby adopted as findings by the Board for the adoption of this Ordinance. Based upon the findings made relative to the proposed text amendments to the Comprehensive Plan, it has been determined that the existing objective, policies, or implementation mechanisms sought to be amended are no longer in the best interest of the public and should be amended as described in Section 3 below.

Section 3. Text Amendment: The Manatee County Comprehensive Plan, Ordinance 89-01, shall be amended as follows:

Policy 2.10.1.4 Allow DRI's and Large Project developments that meet commercial locational criteria or have a future land use category that allows for commercial square footage, the option of reallocating commercial square footage internally within neighborhoods if the following criteria is met:

a. must have a mixed use with a residential component

b. must meet minimum development characteristics such as greater internal automobile trip capture, increased pedestrian and bike routes facilities, architectural design criteria which reinforces pedestrian scale and orientation and built on a neighborhood scale.

Such neighborhoods will promote diversity of uses, while not promoting strip commercial development. Commercial uses located internally to neighborhoods shall be limited to "medium" commercial uses.

Policy 2.10.3.1 Require that access to commercial uses be established on at least one roadway, operating at, or better than, the adopted level of service. Access which is limited only to roadways that carry traffic within residential neighborhoods shall be considered unacceptable for commercial uses. An exception shall be made for neotraditional projects that have commercial uses located internally to the project and whose main project access is located on a road designated as a collector or higher. An exception shall be made for DRI's and Large Project developments that have mixed uses with a residential component and meet minimum development characteristics to have commercial uses located internally to neighborhoods if the main neighborhood access is located on a road designated as a collector or higher.

Policy 2.10.3.2 Require that all proposed small and medium commercial uses can be directly accessed from at least one roadway shown on the Roadway Functional Classification Map as collector or higher, at time of issuance of a development order. An exception shall be made for neotraditional projects that have commercial uses located internally to the project and whose main project access is located on a road designated as a collector or higher. An exception shall be made for DRI's and Large Project developments that have mixed uses with a residential component and meet minimum development characteristics to have commercial uses located internally to neighborhoods if the main neighborhood access is located on a road designated as a collector or higher.

Policy 2.10.4.2 Prohibit the consideration of any development order establishing the potential for commercial development, where the proposed project site is inconsistent with

commercial locational criteria. Consistency shall be determined through the application of the commercial location review process described in the operative provisions contained in this Element. Permitted exceptions to these requirements are limited to:

- existing commercial uses that are legally permitted, and that are in place at time of comprehensive plan adoption. However, where such uses are nonconforming to other development regulations, nothing in this policy shall render those uses conforming to the subject regulations.
- redevelopment of an existing commercial use which does not meet the commercial locational criteria, subject to the finding by the Board of County Commissioners that the proposed project is consistent with the general welfare of Manatee County residents.
- locations designated as Retail/Office/Residential or Low Intensity Office (OL) or Mixed Use (MU) which are inconsistent with commercial locational criteria [see 2.2.1.16.4(b) and 2.2.1.17.4(e)].
- recreational vehicle parks. However, compliance with Policy 2.10.5.2 shall be required.
- establishments providing nursing services as described in Chapter 464, F.S.
- sale of agricultural produce at roadside stands.
- small commercial uses associated with a permanent roadside agricultural stand. Maximum commercial square footage shall be 3,500 square feet of the project. Development must be located on functionally classified rural arterial or rural collector roadway. Planned development approval required.
- agricultural service establishments (e.g. farm equipment sales and service).
- low intensity commercial recreational facilities (e.g., driving range).
- rural recreational facilities located in the Ag/R future land use category meeting adverse impact standards as established within the Manatee County Land Development Code. All such uses must receive Special Approval.
- appropriate water-dependent, water -related, and water-enhanced commercial uses, as described under Objective 4.2.1.
- commercial uses located within Port Manatee.
- Small commercial (professional) office uses not exceeding 3,000 square feet in gross floor area within the Res-6, Res-9, RES-12, and Res-16 future land use categories may be exempted from compliance with any locational criteria specified under Policies 2.10.4.1 and detailed in the operative provisions provided such office is located on a roadway classified as a minor or principal arterial on the roadway functional classification map, however, not including

interstates, and shall still be consistent with other commercial development standards and with other goals, objectives, and policies in this Comprehensive Plan (see also 2.2.1.12.4, 2.2.1.13.4, 2.2.1.15.4).

- commercial uses located within the rural community of Myakka City which is designated as those lands on Sheet 24 of the Future Land Use Map shown as Res-3 or Res-1 on May 11, 1989, provided that they are located along State Road 70 within 1,500 feet from its intersection with Wauchula Road, and located within 1,000 feet along Wauchula Road from its intersection with State Road 70. Further, properties developed commercially, or having commercial zoning in place at the time of adoption of this Comprehensive Plan if they have frontage on State Road 70 and are within three-quarters mile of the State Road 70 and Wauchula Road intersection are also exceptions. Furthermore, all commercial uses allowable under this provision will be exempt from the one-half mile spacing requirement denoted in Policy 2.10.4.3(4).
- Small commercial (professional) office uses which operate as an accessory use to a residential religious development. Such accessory office uses which do not serve the general public but which serve the residential religious development may locate in residential future land use categories (RES-1, RES-3, UF-3, RES-6, RES-9, RES-12 and RES-16) and may be exempted from compliance with any locational criteria specified under Policies 2.10.4.1 and detailed in the operative provisions (see also 2.2.1.9, 2.2.1.10, 2.2.1.11, 2.2.1.12.4, 2.2.1.13.4, 2.2.1.14.4 and 2.2.1.15.2).
- Neotraditional developments that have commercial and office developments located internal to the project and whose main project access is located on a road designated as a collector or higher.
- DRI's and Large Project developments that have mixed uses with a residential component and meet minimum development characteristics, have commercial uses located internal to neighborhoods and whose main neighborhood access is located on a road designated as a collector or higher.

No exception to commercial locational criteria provided for under this policy shall be used as a precedent for establishing other commercial development inconsistent with this Comprehensive Plan.

Nothing in this policy shall require the issuance of a development order solely on the basis of compliance with commercial locational criteria. Compliance with other commercial development standards contained in Policy 2.10.4.3 below, and with all other goals, objectives, and policies of this Comprehensive Plan is also required for issuance of a development order approving commercial uses. In particular, compliance with the policies of Objectives 2.6.1 and 2.6.2 is mandatory for approval of any commercial use within a residential designation.

Policy 2.10.4.3

Require that all proposed commercial uses meet, in addition to commercial locational criteria, the following commercial development standards:

- (1) any proposed commercial site must be sized and configured to provide for adequate setbacks, and buffers from any adjacent existing or future residential uses.

- (2) any proposed commercial site must be configured and sized to allow for orientation of structures, site access points, parking areas, and loading areas on the site in a manner which minimizes any adverse impact on any adjacent residential use.
- (3) no proposed commercial site shall represent an intrusion into any residential area. As used in this standard, "intrusion" means located between two residential uses or sites which are not separated by the right-of-way of any roadway functionally classified as collector or higher, unless the proposed commercial use meets the definition of "infill commercial development," demonstrated through evaluation of existing land use patterns in this vicinity of the proposed use, and pursuant to guidelines contained in commercial locational criteria found in the operative provisions of this Element. Permitted exceptions listed in Policy 2.10.4.2 shall not be required to meet this development standard. No such intrusion shall be found in neotraditional developments approved as such by the County, as a mixture of uses are encouraged within those projects. No such intrusion shall be found in DRI and Large Project developments where commercial uses are internal to neighborhoods, approved as such by the County, as a mixture of uses are encouraged within those neighborhoods.
- (4) Commercial nodes meeting the requirements specified in the operative provisions of this Element shall, additionally, be spaced at least one-half mile apart, as measured between the center of two nodes. However, where two commercial nodes have been established by the development of commercial uses prior to plan adoption, and are spaced less than the minimum required one-half mile, then a waiver of this commercial development standard may be considered. Preferentially, in instances where previous development has not established a pattern of land uses inconsistent with commercial locational criteria or development standards, nodes shall be spaced no less than one mile apart. Neotraditional projects shall be exempt from this requirement. DRI and Large Project developments that have mixed uses with a residential component that receive approval to locate commercial uses internal to neighborhoods shall be exempt from this requirement.

Section 4. Severability: If any part, section, subsection, or other portion of this Ordinance, or any application thereof to any person or circumstance is declared to be void, unconstitutional, or invalid for any reason, such part, section, subsection, or other portion, or the prescribed application thereof, shall be severable, and the remaining provisions of this Ordinance, and all applications thereof not having been declared void, unconstitutional or invalid, shall remain in full force and effect. The Board declares that no invalid or prescribed provision or application was an

inducement to the enactment of this Ordinance, and that it would have enacted this Ordinance regardless of the invalid or prescribed provision or application.

Section 5. Effective Date: This Ordinance shall take effect immediately upon the state land planning agency, as defined in Section 163.3164, Florida Statutes, issuing a final order finding the Ordinance in compliance with Section 163.3184(9), Florida Statutes, or upon the Administration Commission issuing a final order finding the Ordinance to be in compliance in accordance with Section 163.3184(10), Florida Statutes, or whichever occurs first.

PASSED AND DULY ADOPTED, with a quorum present and voting this 24th day of July, 2001
