2008 JUN -6 AM 9: 56

CLERK OF THE DISTRICT COURT
MANATEE CO. FLORIDA

ORDINANCE NO. 08-02

AN ORDINANCE OF MANATEE COUNTY, FLORIDA, REGARDING COMPREHENSIVE PLANNING, AMENDING MANATEE COUNTY ORDINANCE NO. 89-01, AS AMENDED, THE MANATEE COUNTY COMPREHENSIVE PLAN; PROVIDING A PURPOSE AND INTENT, PROVIDING FINDINGS; AND PROVIDING FOR AN AMENDMENT TO THE FOLLOWING ELEMENTS: WATER SUPPLY SUB ELEMENT, WASTEWATER SUB ELEMENT, CONSERVATION, AND INTERGOVERNMENTAL COORDINATION, AND ADOPTION OF THE MANATEE COUNTY WATER SUPPLY FACILITIES WORK PLAN, BY REFERENCE, PROVIDING FOR SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE.

FILED
2008 MAY 27 AM 11: 25
CLERK OF THE DISTRICT COURT
MANATEE CO. FLORIDA

WHEREAS, Chapter 125, Florida Statutes empowers the Board of County Commissioners of the County of Manatee to prepare and enforce comprehensive plans for the development of the county; and

WHEREAS, Sections 163.3161 through 163.3215, Florida Statutes, titled the Local Government Comprehensive Planning and Land Development Regulation Act, (the "Act") empowers and requires the County (a) to plan for the county's future development and growth, (b) to adopt and amend comprehensive plans, or elements or portions thereof, to guide the future growth and development of the county, (c) to implement adopted or amended comprehensive plans by the adoption of appropriate land development regulations, and (d) to establish, support, and maintain administrative instruments and procedures to carry out the provisions and purposes of said Act; and

WHEREAS, Manatee County Ordinance No. 89-01, as amended, was adopted pursuant to general law for the purpose of providing a framework for land use and development in the unincorporated area of Manatee County, and established the Manatee County Comprehensive Plan; and

WHEREAS, Application PA-08-02 initiated by Manatee County is a request for a text amendment to adopt by reference the Manatee County Water Supply Facilities Work Plan, and amend the Water Supply Sub element, Wastewater Sub element, Conservation, and Intergovernmental Coordination Elements to implement the Water Supply Facilities Work Plan, and

WHEREAS, at a duly noticed public hearing, the Manatee County Planning Commission, as the County's Local Planning Agency, as established by Ordinance 90-01, considered an amendment to the Manatee County Comprehensive Plan, to adopt by reference the Manatee County Water Supply Facilities Plan and associated amendments of the comprehensive plan, as provided, in the Title of this ordinance, in

order to more adequately address Manatee County's future development and growth; and

WHEREAS, the minimum statutory and plan administration requirements for public participation for the adoption of this Ordinance and the amendment of the County's Comprehensive Plan provided herein, have been met or exceeded; and

WHEREAS, on December 13, 2007, the Manatee County Planning Commission, after due public notice, held a public hearing to consider the amendment, and forwarded its recommendation to the Board of County Commissioners as required by law; and

WHEREAS, after due public notice, the Board of County Commissioners of Manatee County received and considered the recommendation of the Manatee County Planning Commission, and held a public hearing on January 8, 2008, to consider the transmittal of the proposed amendment to the Florida Department of Community Affairs as the State Land Planning Agency in accordance with Sec. 163.3184, F.S.; and

WHEREAS, the State Land Planning Agency by letter dated March 17, 2008, transmitted their Objections, Recommendations and Comments Report on said amendment to the comprehensive plan; and

WHEREAS, said amendment to the Comprehensive Plan was revised as appropriate in view of comments by the State Land Planning Agency; and

WHEREAS, pursuant to Section 163.3184, Florida Statutes, on May 20, 2008, the Board of County Commissioners of Manatee County, Florida held another public hearing, with due public notice having been provided, to consider adoption of said the proposed amendment to the Comprehensive Plan; and

WHEREAS, the Board of County Commissioners further considered all oral and written comments received during said public hearings, including appropriate changes to the technical support document as needed, the recommendations of the Planning Commission, and objections, recommendations and comments of the State Land Planning Agency; and

WHEREAS, the Board of County Commissioners has determined that the amendments to the Comprehensive Plan set forth herein are necessary implement the requirements of Section 163.3177 regarding water supply facilities planning ; and

WHEREAS, in exercise of said authority, the Board of County Commissioners of Manatee County has determined it necessary and desirable to adopt this Ordinance to effect the said amendment of the Comprehensive Plan to preserve and enhance present advantages; encourage the most appropriate use of land, water and resources, consistent with the public interest; overcome present deficiencies and deal effectively

Manatee County; and

WHEREAS, the Technical Support Document for the Manatee County Comprehensive Plan includes background material and justification for the amendment to the Comprehensive Plan; and

WHEREAS, all applicable requirements of general law and local law have been followed, and the proceedings have been conducted pursuant to the Act, and the Plan Format and Administration Section of the Manatee County Comprehensive Plan.

NOW, THEREFORE, BE IT ORDAINED by the Board of County Commissioners of Manatee County that:

Section 1. Purpose and Intent: This Ordinance is enacted to carry out the purpose and intent of, and exercise the authority set out in Sections 163.3161 through 163.3215, Florida Statutes, and Chapter 125, Florida Statutes, as amended.

Section 2. Findings: The recitals set forth in the whereas clauses above are true and correct and are hereby adopted as findings by the Board for the adoption of this Ordinance.

Section 3. Text Amendment: The Manatee County Comprehensive Plan, Ordinance No. 89-01, is hereby amended to adopt the Water Supply Facilities Plan into the Comprehensive Plan by reference, and to amend the Water Supply Sub element, Wastewater Sub element, Conservation, and Intergovernmental Coordination Elements to implement the Water Supply Facilities Work Plan as set forth below:

AMENDMENTS TO THE WASTEWATER SUB ELEMENT

The Wasterwater Sub Element of the Comprehensive Plan is hereby amended by the addition of new text indicated by underlining and deletion of text indicated by strike-out (Only the Objectives and Policies being amended are shown below)

Objective: 9.1.5

Reclaimed Water Use: Expand the practice of using reclaimed water for irrigation of agricultural, recreational, industrial, and urban land uses and for fire protection purposes. ~~E~~establish a multi-modal, regional approach to ensure that changes in climactic, or other, conditions not limit Manatee County's ability to meet current disposal needs and to reduce the use of potable water sources and groundwater for

Policy: 9.1.5.2

Require the use of reclaimed water to irrigate agricultural land, recreational lands, replenish the groundwater aquifer, and to irrigate landscaping and provide fire protection in current, and future, urban areas.

Policy: 9.1.5.4

Require the construction of any on-site and off-site distribution system for the transmission of reclaimed water for projects that meet the following criteria:

1. The proposed project is outside of the WO Overlay Districts, and
2. The proposed project is located in an area within which Manatee County has installed a distribution system for the reuse of reclaimed water, or has programmed the installation of such a system.

Any such on-site system shall provide for conveyance of reclaimed water from the project's boundaries to the lot lines of each parcel within the project, to facilitate landscape irrigation with reclaimed water in lieu of potable water, when implemented by the end user of the lot.

3. Off-site connections are required to be constructed at the development's expense in accordance with guidelines specified in applicable ordinances

Implementation Mechanism:

a. Agreements consistent with state and local regulations, amendments to the Land Development Code, and Code of Ordinances, or other public/private agreements implementing this policy

Add following new policy

Policy 9.1.5.5

Require new development to oversize the reclaimed

- Where a development is required to oversize any component of the reclaimed water distribution system for purposes of increasing system capacity to greater than that required by the proposed project, Manatee County shall pay for the cost of additional materials necessary for oversizing
- Manatee County shall not pay for labor costs associated with installation of the oversized system, unless substantial differences in pipe diameters (or other infrastructure parameters) cause a significant increase in labor costs.

AMENDMENTS TO THE WATER SUPPLY SUB ELEMENT

The Water Supply Sub Element of the Comprehensive Plan is hereby amended by the addition of new text indicated by underlining and the deletion of text indicated by strike-out. (Only the Objectives and Policies being amended are shown below)

Amend following text as shown in strike through and underline.

Policy 9.5.1.2 ~~Maintain treatment capacity at the Lake Manatee Treatment Plant of at least 84 million gallons per day to meet the demands of all wholesale and retail customers through 2040~~20.

Add following new Objective and Policies

Objective 9.5.3 Manatee County will adopt and maintain a Water Supply Facilities Work Plan for at least a ten (10) year planning period addressing water supply facilities necessary to serve existing and future development within the County's water service area.

Policy 9.5.3.1 The Manatee County Water Supply Facilities Work Plan, dated May, 2008, prepared by McKim & Creed for Manatee

Policy 9.5.3.2 Manatee County will coordinate with the Southwest Florida Water Management District and the Peace River/Manasota Regional Water Supply Authority to update the Water Supply Facilities Work Plan every five years, and within eighteen months of the **approval** of the updated Water Management District's Regional Supply Plan

Policy 9.5.3.3 The ten-year capital projects list contained in this element identifies the capital improvements necessary to address existing deficiencies and new growth needs in potable water facilities and will be updated consistent with Objective 10.1.6.

Policy 9.5.3.4 The Water Supply Facilities Work Plan shall **implement and maintain** the potable water level-of-service standards established in Policies 9.5.1.1 and 2.4.1.5

Policy 9.5.3.5 When updating the Water Supply Facilities Work Plan, the County will seek alternative sources of water, as well as conservation and reuse programs in order to meet projected demand increases.

Policy 9.5.3.6 The Water Supply Facilities Work Plan will be used to prioritize and coordinate the expansion and upgrade of facilities used to withdraw, transmit, treat, store and distribute potable water to meet future needs.

Implementation Mechanism:

(a) Preparation of an annual capital improvements program and operating budget consistent with potable water needs.

(b) Coordination between the Financial Management, Planning, Utilities Operations and Public Works Departments to ensure implementation.

Amend following text as shown in strike through and underline.

Objective 9.5.34 **Wellfields and Alternative Emergency Sources:** Maintain self-sufficiency and redundancy in potable water supplies and water treatment capacity.

Policy 9.5.34.1 Protect the Duette Park and other alternative potable water wellfields or other viable and redundant water sources to maintain reserve emergency capacity to meet 75% of projected average daily demand.

Implementation Mechanism(s):

(a) Manatee County Utilities ~~Operations Government~~ acquiring or leasing additional property, as needed to implement this policy, in eastern Manatee County suitable for accessing groundwater supplies consistent with this policy, and the development of wellfields, and transmission capacity from that property.

(b) Utilities Operations Department coordination with the Peace River/Manasota Regional Water Supply Authority.

Policy 9.5.34.2 Continue to investigate, as necessary, other potential surface and groundwater supply sources and recharge/recovery technologies to provide for the greatest number of financially-feasible water supply options.

Implementation Mechanism:

(a) Continued study, as necessary, by the Manatee County Utilities Operations Department of alternative water supplies.

(b) Continue membership and participation in the Peace River/Manasota Regional Water Supply Authority.

(c) Continue Manatee County's voluntary participation in the cooperative water supply planning effort known as the Water Planning Alliance.

Policy 9.5.34.3 Develop and maintain sufficient reserve treatment capacity for both ground- and surface-water supplies to guarantee the capability of Manatee County to provide treated water in amounts required to meet projected 204020 demand.

Policy 9.5.34.4 Provide water to the beach communities of Anna Maria, Holmes Beach, Bradenton Beach, and Longboat Key and the jurisdictions of Palmetto and Sarasota County on a wholesale or retail basis consistent with applicable valid interlocal or franchise agreements as may be amended and subject to approval by the Board of County Commissioners.

Policy 9.5.34.5 Protect all public supply wells from incompatible uses.
(See Objective 2.6.1 and associated policies)

Implementation Mechanism(s):

(a) Public supply potable water wells to be mapped on the Future Land Use Map.

(b) Inclusion of policies for the siting of development near public supply wells in the Land Development Code consistent with this policy.

Objective 9.45.1

Potable Water Distribution: Construct a potable water distribution system based on the potable water distribution plan to meet projected need for water storage tanks and distribution mains, capable of meeting fire flow performance standards in areas where potable water is used for fire protection, and capable of providing back up distribution systems to address failure of major system components.

Policy 9.45.1 Maintain a computerized water distribution model based on population projections from the Planning Department to determine future demand for potable water.

Policy 9.4.5.2 Develop major water distribution mains with diameters of sixteen (16) inches or greater and storage facilities

Page 9 of 15 PA-08-02/Ordinance 08-02 / Manatee County Water Supply Facilities Work Plan throughout the retail service area to balance fluctuation in water demand, safeguard supply in case of plant or water main breakdown, and to maintain required fire flow.

Objective 9.5.56 **Recurrent and Retrofit Capital Costs:** Establish fair and equitable cost recovery methods for capital and operating expenditures associated with the public potable water system.

Policy 9.5.56.1 Require the extension of local water distribution lines into existing developed areas be funded through line extension service charges or special assessments on properties benefiting from such extension whenever such improvements are determined by Manatee County to be financially-feasible. These charges or assessments shall be established as needed to recover public costs within a reasonable time frame.

Implementation Mechanism:

(a) Manatee County Utilities Operations Department, ~~Project Management Department~~ Public Works, and ~~Office of Management and Budget~~ Financial Management Departments recommendations to the Board of County Commissioners on financing of retrofit projects.

Policy 9.5.56.2 Utilize a peak factor of 1.5 for retail customers, and 1.25 for wholesale customers, which shall be multiplied times the average daily flow to determine the required treatment capacity for Manatee County's potable water system.

Policy 9.5.56.3 Assess a fair share of recurrent operating, maintenance, and renewal and replacement costs associated with the potable water supply, treatment, and distribution system through recurrent user charges.

Implementation Mechanism:

(a) Utilities Operations Department and Financial Management Department collection of adequate and appropriate fees from the potable water customer base to offset operation and maintenance costs.

Annually designate a portion of the operational and capital improvements budgets to be used for the identification and correction of existing deficiencies in the potable water distribution network.

Implementation Mechanism:

- (a) Capital and operating expenditures by the Utilities Operations Department to identify and correct existing deficiencies.

Policy 9.6.1.1

Require new development within the potable water service area to connect to the County potable water system, ~~when water supply and service are reasonably available, except for single family homes on lots of record~~ including installation of any necessary off-site transmission lines.

Implementation Mechanism(s):

- (a) Utilities Operations, Planning, and Building Departments coordination to ensure policy compliance.
- ~~(b) Revision of the Land Development Code and other appropriate regulatory documents to define reasonably available as substantially similar to language contained in 10D-6.042.~~

Policy 9.6.1.4

Require that development provide the following minimum fire flows or acceptable alternatives as set forth herein:

[note: reclaimed water distribution systems may be used to provide this level of service, reducing the sizing requirements for the potable distribution system];

Residential Land Uses:

- Up to and including 3 du/ga requires 750 gallons per minute (gpm) or if each dwelling unit is to be provided with a residential fire sprinkler system require 400 gallons per minute (gpm)
- 3+ to 6 du/ga requires 1,000 gallons per minute (gpm) or if each dwelling unit is to be provided with a residential fire sprinkler system, require 500 gallons per minute (gpm).

- 6+ to 9du/ga requires 1,500 gallons per minute (gpm) or if each dwelling unit is to be provided with a residential fire sprinkler system require 500 gallons per minute (gpm).
- 9+ du/ga requires 2,000 gallons per minute (gpm) or if each dwelling unit is to be provided with a residential fire sprinkler system require 1,000 gallons per minute (gpm).
- Where no potable water supply and distribution system exists, compliance with NFPA Standard 1231, Standards for Water Supplies for Suburban and Rural Firefighting apply, provided however, that an individual single family dwelling unit on an unplatted parcel of land of one acre or more is exempt from these provisions.

Nonresidential Land Uses:

- Nonresidential development less than or equal to 10,000 square feet may opt to calculate their specific fire flow by allocating one (1) gallon per minute fire flow per ten (10) square feet of floor area provided, however, that under no circumstances shall the minimum fire flow be less than seven hundred and fifty (750) gallons per minute.
- Nonresidential development over 10,000 square feet requires a minimum of 2,000 gallons per minute (gpm) unless the development is provided with a fire sprinkler system, in which case the requirement may be reduced to 1,000 gallons per minute (gpm) upon the approval of the fire district.
- Industrial or high-hazard uses may require flows in excess of 2,000 gpm or may be appropriately reduced in cases where a fire sprinkler system is installed, as approved by the fire district.

Implementation Mechanism:

- (a) Planning Department coordination with individual fire districts to ensure policy compliance.

Policy 9.6.2.1

Continue to require that new growth pay its full share of needed capital facilities, through payment of facility investment fees (or other such fees) to fund necessary expansion of water supply, treatment, storage, and major distribution systems associated with this growth. This requirement will also apply to any increases in wholesale customer commitments.

Implementation Mechanism:

- (a) Wholesale and retail facility investment fees, or other fees, assessed by ~~the Department of Utilities Operations and Financial Management~~ Manatee County in a manner consistent with this policy for application directly to costs of capital facility expansions, or for coverage of associated debt service.

AMENDMENTS TO THE CONSERVATION ELEMENT

The Conservation Element of the Comprehensive Plan is hereby amended by the deletion of text indicated by underline and the addition of text indicated by strike-out..(Only the Objectives and Policies being amended are shown below).

Objective: 3.2.2

Surface and Ground Water: Maintain or enhance the quality and transparency of surface waters and protect groundwater quality through natural resource and land use programs to:

- contribute to continued cleanup and pollution reduction goals of Tampa Bay and Sarasota Bay;
- ensure clean water for passive recreation;
- maintain water quality for potable wells;
- enhance natural aquatic habitat; and

- ensure that adequate water supplies meet population demand for at least a 10-year planning period, considering the Southwest Florida Regional Water Supply, Plan and Manatee County Water Supply Facilities Work Plan

Add following new policy.

Policy: 3.2.2.7

Review all proposed development applications to assess projected water needs and sources, to ensure adequate supply for a 10-year planning period.

Implementation Mechanism(s):

- (a) Utility Operations, Planning, and Public Works Departments to coordinate water supply facilities planning, considering the Southwest Florida Regional Water Supply Plan, and Manatee County Water Supply Facilities Work Plan

Amend following text as shown in strike through and underline.

Policy 3.2.3.1

Continue to encourage residents and businesses to maintain or improve water conserving habits.

Implementation Mechanism(s):

- (a) Agriculture and Natural Resources Extension Office and Utilities Operations Department will continue water conservation education programs.
- (b) Coordinate local water conservation education efforts with the SWFWMD, the Tampa Bay, Sarasota Bay, and Charlotte Harbor Estuary Programs, and the Manatee County School Board.
- (c) Coordinate with the Water District in the development and implementation of programs addressing Southern Water Use Caution Area issues.

Policy: 3.2.3.2

Require all water used for irrigation in new development to be the lowest quality of available water which adequately and safely meets their water use needs by requiring

Page 14 of 15 PA-08-02/Ordinance 08-02 / Manatee County Water Supply Facilities Work Plan stormwater reuse, alternative irrigation sources, reclaimed water use; and gray water irrigation systems. Priority to receive reclaimed water shall be given to users who transfer groundwater withdrawal or other permitted quantities to Manatee County. Potable water from County utilities shall not be utilized for landscape irrigation. [See Policies 9.6.1.3, and policies under Objective 9.1.5]

Implementation Mechanism:

- a) Utilities Operations and Planning Department cooperation during development review to ensure policy compliance.
- b) Utilities Operations continue to provide incentives such as the rebate program to replace the use of potable water for irrigation with alternative, non-potable irrigation sources.

AMENDMENTS TO THE INTERGOVERNMENTAL COORDINATION ELEMENT

The Intergovernmental Coordination Element of the Comprehensive Plan is hereby amended by the addition of new text indicated by underlining and the deletion of text indicated by strike-out. (Only the Objectives and Policies being amended are shown below).

Policy 11.1.8.3 Coordinate and share population projections with all local jurisdictions and governmental agencies and encourage all entities to share data to improve projections.

Implementation Mechanisms:

- (a) Continue to review and analyze population projections as provided by the Bureau of Economic and Business Research (BEBR).

AMENDMENTS TO THE TECHNICAL SUPPORT DOCUMENT

The Technical Support Document is hereby amended to include the Manatee County Water Supply Facilities Work Plan dated May, 2008

Section 4. Severability: If any part, section, subsection, or other portion of this Ordinance, or any application thereof to any person or circumstance is declared to be void, unconstitutional, or invalid for any reason, such part, section, subsection, or other portion, or the prescribed application thereof, shall be deemed severable, and the remaining provisions of this Ordinance, and all applications thereof not having been declared void, unconstitutional or invalid, shall remain in full force and effect.

Section 5. Effective Date: This Ordinance shall take effect immediately upon the State Land Planning Agency, as defined in Section 163.3164, Florida Statutes, issuing a final order finding the Ordinance in compliance with Section 163.3184(9), Florida Statutes, or upon the Administration Commission issuing a final order finding the

Ordinance to be in compliance if a petition challenging the finding of compliance by the Department of Community Affairs is filed with the Division of Administrative Hearing in accordance with Section 163.3184(10), Florida Statutes, whichever occurs first.

PASSED AND DULY ADOPTED, in open session, with a quorum present and voting this 20th day of May, 2008.

BOARD OF COUNTY COMMISSIONERS OF MANATEE COUNTY, FLORIDA
