MCLEWIS BAYOU

Manatee County has received a petition from the residents to dredge McLewis Bayou. Currently, the dredging request is funded by assessment among the parties involved, along with participation of Manatee County in the cost of dredge. This policy could be followed to arrive with the balance of cost required to complete the above dredge project.

A vicinity map and aerial photo of the site is provided. Survey and plotting of project area has been completed. The Bayou north of Riverview Boulevard will also need some dredging per surveyed cross section at this location. Prior to this work, for FY 93-94, WCIND did approve funding \$40,000 on this project. The additional dredging requirement north of Riverview Boulevard will cause the estimated cost of the project to increase by \$100,000. Therefore, additional assistance from WCIND toward the construction cost of this project is being requested. The temporary spoil site has been identified and the property owner has been contacted. A verbal agreement has been reached to use the property for a temporary spoil site. A legally binding document will be prepared to secure the property for a temporary spoil site.

The requested funds from WCIND is the 26.66% of the total cost to dredge the Bayou.

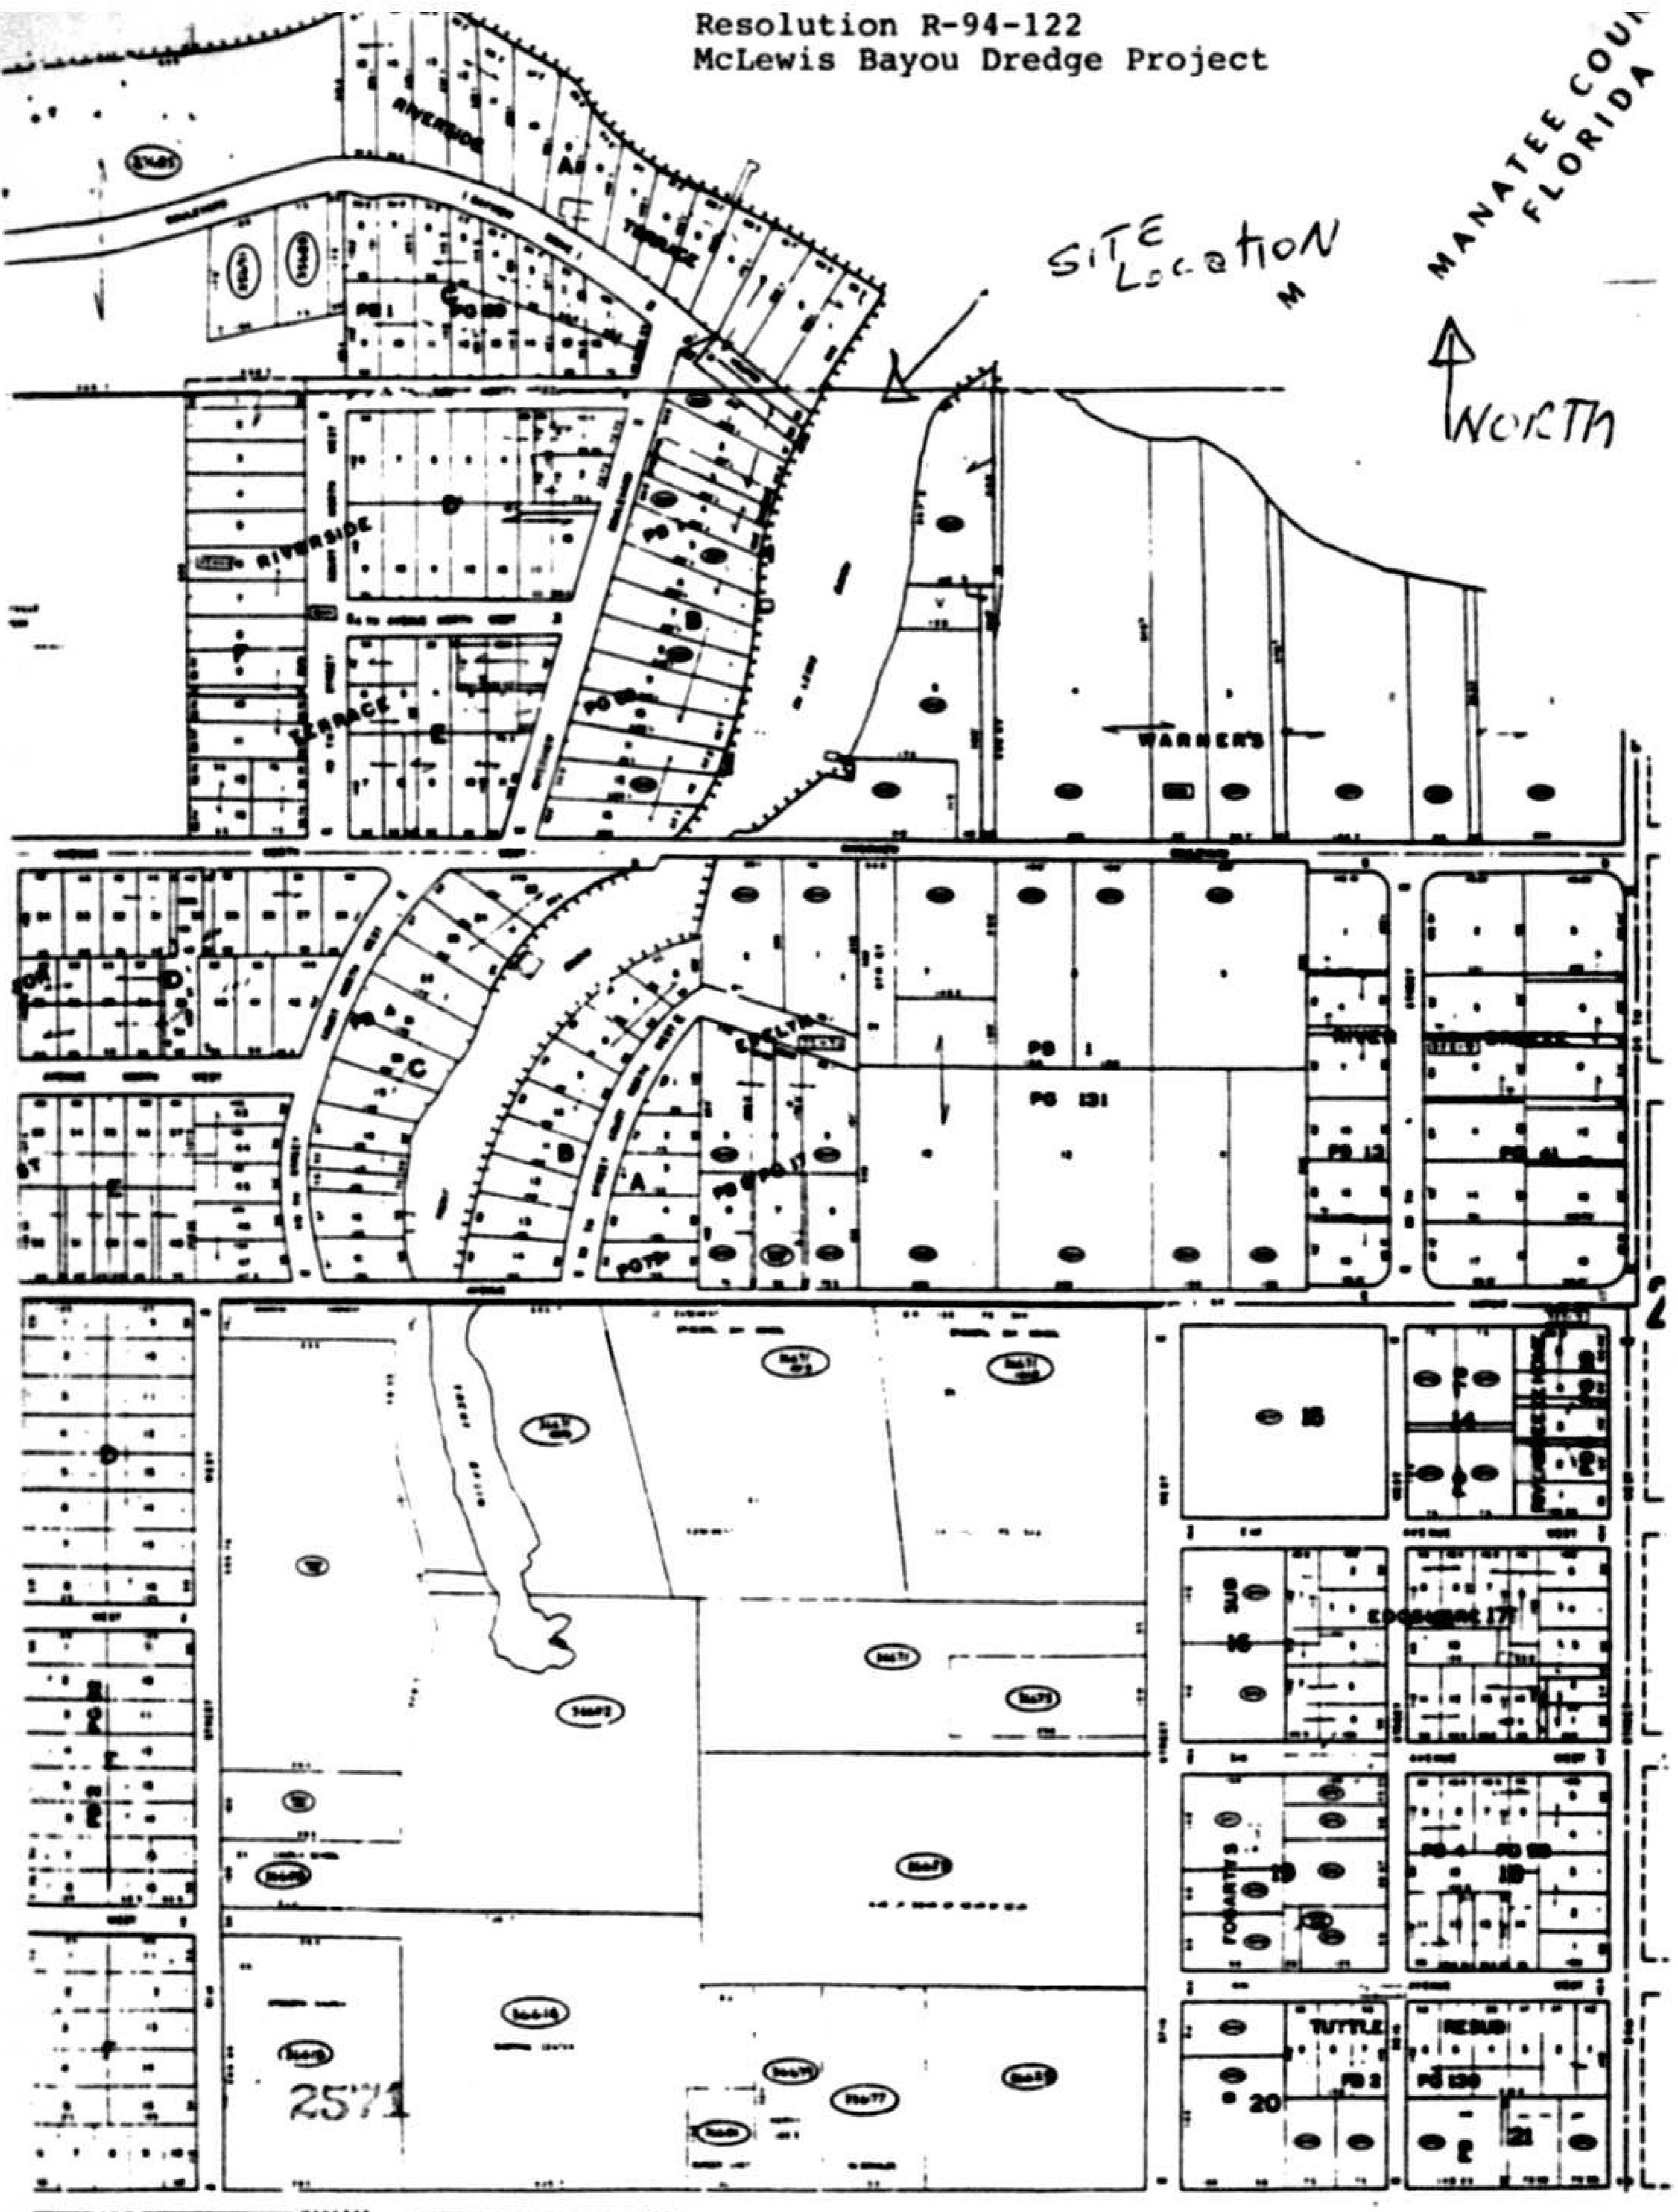

Project Completion Date: 1995
