A. DESIGN AND LAND USE

1. The site plan submitted with this application shall be part of the approval.
2. Any new or temporary use proposed at this property, other than those approved with this application, shall be required to apply for a new permit through Development Services-Planning & Zoning, as required by the LDC.
3. Any significant historical or archeological resources discovered during development activities shall be immediately reported to the Florida Department of State, Division of Historical Resources, and treatment of such resources shall be determined in cooperation with the Division of Historical Resources, and the County. The final determination of significance shall be made in conjunction with the Florida Department of State, Division of Historical Resources, and the County. The appropriate treatment of such resources (potentially including excavation of the site in accordance with the guidelines established by the Florida Department of State, Division of Historical Resources) must be completed before resource disturbing activities are allowed to continue. The project's maximum intensity shall be contingent upon SWFWMD's Formal Determination of Wetlands and Other Surface Waters for the site.
3. If wells are encountered, a Well Management Plan for the proper protection and abandonment of existing wells shall be submitted to the EPS for review and approval prior to recommencing construction activities. The Well Management Plan shall include the following information:
 - Digital photographs of the well along with nearby reference structures (if existing);

Such off-site extension shall be designed and constructed in accordance with the applicable County Master Plan. The connection shall be designed, engineered and permitted by the Applicant consistent with Manatee County Public Works Standards and approved by County Engineer through the Development Services review process for the project.

D. STORMWATER ENGINEERING

1. Pursuant to Section 801 and 802 of the Land Development Code and Code of Federal Regulations (CFR), Title 44, Section 60.3, the subsequent Final Site Plan and Construction Plan submittal(s) and associated Drainage Modeling shall demonstrate that no adverse impacts will be created to neighboring properties surrounding the site with respect to proposed impacts to the County FEMA 1% annual chance flood hazard area delineation pursuant to the Mill Creek Watershed Management Plan, and post-development discharge of runoff.
2. Pursuant to Section 801 Land Development Code, Manatee County Floodplain Ordinance (Chapter 2-10 - Drainage and Flood Control, or as amended), and Code of Federal Regulations (CFR), Title 44, Section 60.3, the Construction Plan and associated Drainage Modeling shall demonstrate that no adverse impacts will be created to neighboring properties surrounding the site with respect post-development discharge of runoff. The following storm frequency events, corresponding cumulative rainfall, and rainfall distribution shall be provided as a comparison of the existing pre-development condition versus the proposed post-development development condition.

50-year storm event modeling applies to thoroughfare drainage systems only.

The comparison of existing pre-development condition versus the proposed post-development development condition shall include results in terms of runoff and staging. Drainage Modeling (utilizing best available information from Mill Creek Watershed Management Plan) shall be submitted to demonstrate compliance prior to commencement of construction.

3. Any fill within the FEMA 1% annual chance flood hazard area as delineated by the Mill Creek Watershed Management Plan (WMP) shall be compensated by the creation of an equal or greater storage volume above seasonal high-water table. FEMA 1% annual chance flood hazard area compensation shall be compensated in sole use compensation areas, not dual use facilities (i.e., stormwater attenuation and floodplain compensation). Alternatively, the applicant can submit drainage modeling utilizing the Mill Creek Watershed Management Plan (submitted for review to the Public Works Department with the Construction Plan submittal) to demonstrate no adverse drainage impacts for the mean annual, 10-year, 25-year, and 100-year design storm events to a no-rise condition.
4. This project shall be required to reduce the calculated pre-development flow rate by a full fifty percent (50%) for all stormwater outfall flow directly or indirectly into Mill Creek Watershed. Modeling shall be used to determine pre- and post- development flows.
5. Or The Engineer of Record (EOR) shall submit drainage modeling to demonstrate the allowable pre-development rate of discharge has been reduced by fifty (50) percent for Mill Creek Watershed.

6. Any fill within the FEMA 1% annual chance flood hazard area derived from the FEMA FIRM shall be compensated by the creation of an equal or greater storage volume above seasonal high-water table. The FEMA 1% annual chance flood hazard area shall be compensated in sole use compensation areas, not dual use facilities (i.e., stormwater attenuation and floodplain compensation). Alternatively, the applicant can utilize drainage modeling (submitted for review to the Public Works Department with the Construction Plan submittal) to demonstrate no adverse drainage impacts to a no-rise condition.

Section 3. AMENDMENT OF THE OFFICIAL ZONING ATLAS. The Official Zoning Atlas of Manatee County (Ordinance No. 15-17, the Manatee County Land Development Code) is hereby amended by changing the zoning district classification of the property described in Exhibit “A”, incorporated by reference herein, from A (General Agriculture) to PDC (Planned Development Commercial)the zoning district, and the Clerk of the Circuit Court, as Clerk to the Board of County Commissioners, as well as the Development Services Department, are hereby instructed to cause such amendment to the Official Zoning Atlas.

Section 7. EFFECTIVE DATE. This ordinance shall take effect immediately upon filing with the Office of the Secretary of State, Florida Department of State.
